

# TRUCK MANIFEST

## PHASE 1

No EDI Impact

## PHASE 2

Expected Winter 2020,  
No EDI Impact

## PHASE 3

Date TBD, EDI Impact

U.S. Customs and Border Protection (CBP) will deploy the first of three phases in ACE to enhance ACE Truck Manifest functionality. The first phase of this project will modernize the trade-facing truck manifest portal in ACE. At the completion of all three phases, CBP will retire the legacy truck manifest application.

### PHASE 1

#### COMPLETION

Deploy to Testing Environment in Dec 2019; Production on June 22, 2020

#### IMPACT

Trade Users

#### GOAL

Streamlined Functionality in ACE and Improved User Experience

### Modernization of Truck Capabilities in ACE - Phase 1

New Feature	New Functionality
Templates	Allow users to save down information for commodities, manifests, or bills
Bill of Lading Types	Addition of 10.41a Instruments of International Trade, Carnet, International Mail, FTZ, Department of Defense Shipments
"Entry on File" Status	Indicates whether an entry is on file for each Bill of Lading
Type-Ahead Search Field	Enables quick access to account information, eliminating the need for multiple screen clicks, reducing manifest and bill creation time

Please visit <https://www.cbp.gov/trade/automated/ace-truck-manifest-phase-1> for updates on the enhancements to ACE Truck Manifest.
