DATES AND DRAFT AGENDA OF THE TWENTY-NINTH SESSION OF THE HARMONIZED SYSTEM COMMITTEE OF THE WORLD CUSTOMS ORGANIZATION

ACTION: Publication of the dates and draft agenda for the twenty-ninth session of the Harmonized System Committee of the World Customs Organization.

SUMMARY: This notice sets forth the dates and draft agenda for the next session of the Harmonized System Committee of the World Customs Organization.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The United States is a contracting party to the International Convention on the Harmonized Commodity Description and Coding System (“Harmonized System Convention”). The Harmonized Commodity Description and Coding System (“Harmonized System”), an international nomenclature system, form the core of the U.S. tariff, the Harmonized Tariff Schedule of the United States. The Harmonized System Convention is under the jurisdiction of the World Customs Organization (established as the Customs Cooperation Council).

Article 6 of the Harmonized System Convention establishes a Harmonized System Committee (“HSC”). The HSC is composed of representatives from each of the contracting parties to the Harmonized System Convention. The HSC’s responsibilities include issuing classification decisions on the interpretation of the Harmonized System. Those decisions may take the form of published tariff classification opinions concerning the classification of an article under the Harmonized System or amendments to the Explanatory Notes to the Harmonized System. The HSC also considers amendments to the legal text of the Harmonized System. The HSC meets twice a year in Brussels, Belgium. The next session of the HSC will be the twenty-ninth, and it will be held from May 22–31, 2002.

In accordance with section 1210 of the Omnibus Trade and Competitiveness Act of 1988 (Pub. L. 100–418), the Department of the Treasury, represented by the U.S. Customs Service, the Department of Commerce, represented by the Census Bureau, and the U.S. International Trade Commission (“IT”), jointly represent the U.S. government at the sessions of the HSC. The Customs Service representative serves as the head of the delegation at the sessions of the HSC.
Set forth below is the draft agenda for the next session of the HSC. Copies of available agenda-item documents may be obtained from either the Customs Service or the ITC. Comments on agenda items may be directed to the above-listed individuals.

Dated: April 17, 2002.

DATES OF NEXT SESSIONS
DEPARTMENT OF THE TREASURY,
OFFICE OF THE COMMISSIONER OF CUSTOMS,
Washington, DC, April 17, 2002.

The following documents of the United States Customs Service, Office of Regulations and Rulings, have been determined to be of sufficient interest to the public and U.S. Customs Service field offices to merit publication in the CUSTOMS BULLETIN.

DOUGLAS M. BROWNING,
Acting Assistant Commissioner,
Office of Regulations and Rulings.

PROPOSED REVOCATION OF RULING LETTER AND TREATMENT RELATING TO TARIFF CLASSIFICATION OF GUN BOOT SKINS

AGENCY: U.S. Customs Service; Department of the Treasury.

ACTION: Notice of proposed revocation of a tariff classification ruling letter and treatment relating to the classification of textile gun boot skins.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. 1625(c)), this notice advises interested parties that Customs intends to revoke New York Ruling Letter (NY) ES9014, relating to the tariff classification under the Harmonized Tariff Schedule of the United States Annotated (HTSUSA), of textile gun boot skins. Similarly, Customs proposes to revoke any treatment previously accorded by it to substantially identical merchandise that is contrary to the position set forth in this notice. Comments are invited on the correctness of the intended actions.

DATE: Comments must be received on or before May 31, 2002.

ADDRESS: Written comments are to be addressed to U.S. Customs Service, Office of Regulations and Rulings, Attention: Regulations Branch, 1300 Pennsylvania Avenue, N.W., Washington, D.C. 20229. Submitted comments may be inspected at the same location during regular business hours.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI, (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L.
103–182, 107 Stat. 2057) (hereinafter “Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “informed compliance” and “shared responsibility.” These concepts are premised on the idea that in order to maximize voluntary compliance with Customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations. Accordingly, the law imposes a greater obligation on Customs to provide the public with improved information concerning the trade community’s responsibilities and rights under the Customs and related laws. In addition, both the trade and Customs share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. §1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and provide any other information necessary to enable Customs to properly assess duties, collect accurate statistics and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. 1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that Customs intends to revoke one ruling relating to the tariff classification of gun boot skins. Although in this notice Customs is specifically referring to the revocation of New York decision (NY) E89014, dated December 1, 1999, (attachment A), this notice covers any rulings on this merchandise which may exist but have not been specifically identified. Customs has undertaken reasonable efforts to search existing data bases for rulings in addition to the one identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., ruling letter, internal advice memorandum or decision or protest review decision) on the merchandise subject to this notice, should advise Customs during this notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. 1625(c)(2)), as amended by section 623 of Title VI, Customs intends to revoke any treatment previously accorded by Customs to substantially identical merchandise. This treatment may, among other reasons, be the result of the importer’s reliance on a ruling issued to a third party, Customs personnel applying a ruling of a third party to importations of the same or similar merchandise, or the importer’s or Customs previous interpretation of the HTSUSA. Any person involved with substantially identical merchandise should advise Customs during this notice period. An importer’s failure to advise Customs of substantially identical merchandise or of a specific ruling not identified in this notice, may raise issues of reasonable care on the part of the importer or their agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY E89014, Customs classified a gun boot skin constructed of thin polyester lycra fabric, under heading 4202, HTSUSA, which provides for, among other things, gun cases, holsters, and similar containers.
Customs has reviewed the classification of the gun boot skin and has determined that the cited ruling is in error. Accordingly, we intend to revoke NY E89014 to reflect the proper classification of the goods under subheading 6307.90.9889, HTSUSA, the provision for “Other made up articles. Customs also intends to revoke any other ruling not specifically identified, to reflect the proper classification of the merchandise pursuant to the analysis set forth in proposed HQ 963696 (attachment B). Additionally, pursuant to 19 U.S.C. 1625(c)(2), Customs intends to revoke any treatment previously accorded by Customs to substantially identical merchandise. Before taking this action, consideration will be given to any written comments timely received.

JOHN ELKINS,
(for John Durant, Director,
Commercial Rulings Division.)

Re: The tariff classification of a gun container from China.

DEAR MR. PARSONS:

In your letter dated November 15th, 1999, you requested a classification ruling.

The sample submitted with your request is identified as "gun boot skin." A sample number was not indicated in your inquiry. The item is a container that is specially shaped and fitted to hold a gun. It is manufactured wholly of textile material of man-made fibers. The openings of the container are located on the underside and rear of the container and are both secured by hook and loop closures.

The applicable subheading for the "gun boot skin" will be 4202.92.9026, Harmonized Tariff Schedule of the United States (HTS), which provides for gun cases, holsters, and similar containers * * * other of man-made fibers. The duty rate will be 18.8% ad valorem.

Items classifiable under HTS subheading 4202.92.9026 fall within textile category designation 670. Based upon international textile trade agreements products of China are subject to quota and the requirement of a visa.

The designated textile and apparel categories and their quota and visa status are the result of international agreements that are subject to frequent renegotiations and changes. To obtain the most current information, we suggest that you check, close to the time of shipment, the U.S. Customs Service Textile Status Report, an internal issuance of the U.S. Customs Service, which is available at the Customs Web site at www.customs.gov. In addition, the designated textile and apparel categories may be subdivided into parts. If so, visa
and quota requirements applicable to the subject merchandise may be affected and should also be verified at the time of shipment.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

Your sample is being returned as requested.

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time the merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Kevin Gorman at 212-637-7091.

MR. TIM PARSONS

DEAR MR. PARSONS:

This letter is in response to your letter dated December 27, 1999, in which you requested reconsideration of New York Ruling Letter (NY) E89014, issued on December 1, 1999, in which Customs classified a camouflage printed “gun boot skin” in subheading 4202.92.9026, Harmonized Tariff Schedule of the United States Annotated (HTSUSA), which provides for “Trunks, * * * gun cases, holsters and similar containers; traveling bags, * * *, sportsbags, * * * and similar containers * * *: Other: With outer surface of sheeting of plastic or of textile materials: Other: Other: Of man-made fibers.” Your letter along with a sample was forwarded to this office for our reply. We have reviewed that ruling and have found it to be in error.

Therefore, this ruling revokes NY E89014.

Facts:

The merchandise at issue is described as a camouflage dressing for a Gun Boot that is permanently attached to an All Terrain Vehicle (ATV). The Gun Boot is used to hold a rifle/shotgun and is comprised of a hard plastic outer shell with a soft padded interior lining. The Gun Boot is opened by removing a pin directly behind the handle, and the whole “butt” portion comes off to reveal the stock of the rifle/shotgun. The Gun Boot Skin is comprised of two main pieces of textile material both shaped like a bag. One piece is approximately 40 inches long by 9 inches in width at its widest part (and 2½ inches in width at its narrowest); it would be used to slide over the “muzzle” end of the boot. The second piece is approximately 16 inches long by 9 inches in width at its widest part and 7 inches in width at its narrowest part; it would slip over the wider “butt” end of the gun boot. The two pieces are secured together by hook and loop closures and have sewn-in slots that are specifically located at the attachment points of the gun boot to the ATV. The articles are composed of 100 percent stretch polyester lycra knit fabric. At the top inside of the bags, there are a number of strips of Velcro®. We are advised that these strips help to keep the “skin” located most effectively as camouflage. Each bag also contains a slit opening near the nar-
row end. We understand these slots are specifically located at attachment points of the Gun Boot to the ATV. The Gun Boot Skin is merely designed to camouflage the Gun Boot and is not intended as a container. It is claimed that the material is very thin, stretchy, and would neither provide protection to a gun against knocks, water, or dirt. Nor is it intended to carry either a gun or the case; there is no form or handle attached to the Gun Skin, as the material is too light and would rip if it were used to carry a gun.

**Issue:**

Whether the merchandise is classified in heading 4202, HTSUS, as a traveling bag; in heading 8708, HTSUS, as a motor vehicle part or accessory; or in heading 6307, HTSUS, as an other made up textile article.

**Law and Analysis:**

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (GRI). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative Section or Chapter Notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRI may then be applied. The Explanatory Notes (EN) to the Harmonized Commodity Description and Coding System, which represent the official interpretation of the tariff at the international level, facilitate classification under the HTSUS by offering guidance in understanding the scope of the headings and GRI.

Heading 4202, HTSUS, provides for:

- Trunks, suitcases, vanity cases, attache cases, briefcases, school satchels, spectacle cases, binocular cases, camera cases, musical instrument cases, gun cases, holsters and similar containers; traveling bags, insulated food or beverage bags, toiletry bags, knapsacks and backpacks, handbags, shopping bags, wallets, purses, map cases, cigarette cases, tobacco pouches, tool bags, sports bags, bottle cases, jewelry boxes, powder cases, cutlery cases and similar containers, of leather or of composition leather, of sheeting of plastics, of textile materials, of vulcanized fiber, or of paperboard, or wholly or mainly covered with such materials or with paper.

In order to warrant classification under heading 4202, HTSUSA, the gun boot skin must be found to share the fundamental characteristics attributable to containers of heading 4202, HTSUSA. In Totes, Incorporated v. United States, 18 C.I.T. 919, 865 F Supp. 867 (1994), aff’d, 69 F3d 495 (Fed. Cir. 1995), the Court of International Trade (CIT) examined the classification of automobile trunk organizers (described as bags or cases designed to store trunk necessities such as jumper cables, tire inflator, tools, antifreeze, oil, and other fluids, etc., in a neat and orderly manner) and the application of ejusdem generis, to determine whether the organizers were of the same class or kind of containers as the listed 4202 exemplars. The Court found significant disparity in the physical characteristics, purposes, and uses of the individual heading 4202 exemplars, but emphasized that the essential characteristics and purposes of all of the exemplars were to organize, store, protect and carry various items. The capability of the trunk organizers to carry—not to organize, store, and protect—was a central issue in the case. After having stipulated to the fact that the organizers had hefty web handles for easy carrying, the plaintiff subsequently attempted to minimize the organizers’ carrying capacity and function. The Court, however, rejected any requirement that the principal design feature of an article classified as a “similar container” under heading 4202 be portability or transportation of the contents.

Like the trunk organizers, the subject textile article is not designed for the transportation of contents. The CIT in Totes, recognized that portability is usually an incidental purpose of jewelry boxes and certain tool chests classifiable in heading 4202, HTSUS, but noted that those containers nevertheless retained their primary uses to organize, store and protect articles. However, unlike the trunk organizers—which featured internal movable dividers by which a variety of items could be compartmentalized—the subject gun boot skin shares none of the essential characteristics and purposes of articles of heading 4202, i.e., to organize, store, protect and carry various items. We find that the clear absence of the essential characteristics of heading 4202 exemplars provides no basis upon which to classify the gun boot skin as a “similar container.”

Among other goods, heading 8708, HTSUS, covers parts and accessories of motor vehicles. The EN to heading 8708 state that the heading covers parts and accessories of the
motor vehicles of headings 8701 to 8705, provided that the parts and accessories fulfill both of the following conditions:

(i) They must be identifiable as being suitable for use solely or principally with the above-mentioned vehicles; and

(ii) They must not be excluded by the provisions of the Notes to Section XVII.

Textile articles used to camouflage gun boots on ATVs are not excluded by the provisions of the Notes to Section XVII. To determine whether the gun boot skin is suitable for use solely or principally with a motor vehicle so as to be classified as a part or accessory, we look to a discussion of the term “part” in United States v. Willoughby Camera Stores, Inc. (hereinafter Willoughby), 21 C.C.P.A. 322 (1933). The case involved the classification of an imported tripod which was not solely used with cameras and had various other purposes. The Customs Court stated that a part “is an integral, constituent, or component *** without which the article to which it is to be joined, could not function as such article.” In United States v. Pompei (hereinafter Pompei), 43 C.C.P.A. 9 (1955), the issue was whether an imported supercharger was properly considered a part of an automobile. The Government had argued that, because an automobile was able to function with or without it, the supercharger was not a part. The Court disagreed, focusing on the nature of the supercharger, which was “dedicated irrevocably for use upon automobiles,” and held that the article was properly classified as a part of an automobile.

The article at issue here does not satisfy the requirements of a “part” under the standards of either Willoughby or Pompei, or fulfill the conditions of the EN to heading 8708 for classification as a part or accessory. It is never “joined” to the ATV, is not actually used upon the automobile itself, and does not affect the vehicle’s function. Since the bag is used only on the gun boot, it cannot be found to be suitable for use solely or principally with the vehicle. The gun boot skin is therefore not classified as a part or accessory of a motor vehicle. (But see NY 873356, issued April 21, 1992, and NY 864763, issued July 8, 1991, in which an automobile trunk cover and an article specifically designed and fitted to cover the windows and roof of a Chevrolet Corvette automobile, respectively, were classified under heading 8708, HTSUS. Unlike the subject textile article, however, each of those items was intended for attachment directly to, and suitable for use solely or principally with, a motor vehicle.)

Heading 6307, HTSUS, covers other made up textile articles, including dress patterns. The EN to heading 6307 indicate that the heading covers made up articles of any textile material which are not included more specifically in other headings of Section XI or elsewhere in the Nomenclature. The EN indicate that the heading excludes travel goods (suitcases, rucksacks, etc.), shopping-bags, toilet-cases, etc., and all similar containers of heading 4202. The EN also state, in pertinent part, that the heading includes loose covers for motor-cars, domestic laundry or shoe bags and similar articles. In light of this fact and the foregoing discussion, we find that the gun boot skin is classified in subheading 6307.90.9889, HTSUSA.

**Holding:**

The Gun Boot Skin, a camouflage dressing for a gun boot permanently attached to an ATV is properly classified in subheading 6307.90.9889, HTSUSA, the provision for “Other made up articles, including dress patterns: Other: Other; Other: Other: Other.” The general column one duty rate is 7 percent ad valorem.

NY E89014, issued on December 1, 1999, is hereby revoked.
