

CBP Automated Commercial Environment

Sea Automated Manifest System (AMS) Data Processing Provider List

May 2024

U.S. Customs and
Border Protection

In response to requests from the trade community, the Office of Trade has assembled a list of companies/persons offering ACE eManifest - Ocean data processing services to the trade community. Inclusions on this list do not constitute any form of an endorsement by the U.S. Customs and Border Protection (CBP) as to the nature, extent or quality of the services, which may be provided.

Attachment (1) lists Service Centers (SC), Port Authorities (PA) and Software Vendors with Import manifest programming. Also listed are providers of Importer Security Filing (ISF) programming. **NOTE:** The last column identifies those parties that have developed an Export manifest program (EXP). The Export manifest program is currently in a pilot stage. All of the above presently have the capability to provide a party with an interface with the U.S. Customs and Border Protection. Inquiries concerning specific capabilities should be addressed to the individual organization.

The selection of a particular data processing service is strictly an individual user decision. This list will be updated periodically.
