

U.S. Customs and Border Protection

CBP Dec. 16-08

**WESTERN HEMISPHERE TRAVEL INITIATIVE:
DESIGNATION OF AN APPROVED NATIVE AMERICAN
TRIBAL CARD ISSUED BY THE HYDABURG
COOPERATIVE ASSOCIATION OF ALASKA AS AN
ACCEPTABLE DOCUMENT TO DENOTE IDENTITY AND
CITIZENSHIP FOR ENTRY IN THE UNITED STATES AT
LAND AND SEA PORTS OF ENTRY**

AGENCY: U.S. Customs and Border Protection, DHS.

ACTION: Notice.

SUMMARY: This notice announces that the Commissioner of U.S. Customs and Border Protection is designating an approved Native American Tribal Card issued by the Hydaburg Cooperative Association of Alaska (HCA Tribe) to U.S. and Canadian citizens as an acceptable travel document for purposes of the Western Hemisphere Travel Initiative. The approved card may be used to denote identity and citizenship of HCA Tribe members entering the United States from contiguous territory or adjacent islands at land and sea ports of entry.

DATES: This designation will become effective on May 27, 2016.

FOR FURTHER INFORMATION CONTACT: Arthur A. E. Pitts, Director, Traveler Policies Division, Admissibility and Passenger Programs, Office of Field Operations, U.S. Customs and Border Protection, via email at arthur.a.pitts@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

The Western Hemisphere Travel Initiative

Section 7209 of the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA), Public Law 108-458, as amended, required the Secretary of Homeland Security (Secretary), in consultation with the Secretary of State, to develop and implement a plan to require U.S.

citizens and individuals for whom documentation requirements have previously been waived under section 212(d)(4)(B) of the Immigration and Nationality Act (8 U.S.C. 1182(d)(4)(B)) to present a passport or other document or combination of documents as the Secretary deems sufficient to denote identity and citizenship for all travel into the United States. *See* 8 U.S.C. 1185 note. On April 3, 2008, the Department of Homeland Security (DHS) and the Department of State promulgated a joint final rule, effective on June 1, 2009, that implemented the plan known as the Western Hemisphere Travel Initiative (WHTI) at U.S. land and sea ports of entry. *See* 73 FR 18384 (the WHTI land and sea final rule). It amended various sections of the Code of Federal Regulations (CFR), including 8 CFR 212.0, 212.1, and 235.1. The WHTI land and sea final rule specifies the documents that U.S. citizens and nonimmigrant aliens from Canada, Bermuda, and Mexico are required to present when entering the United States at land and sea ports of entry.

Under the WHTI land and sea final rule, one type of citizenship and identity document that may be presented upon entry to the United States at land and sea ports of entry from contiguous territory or adjacent islands¹ is a Native American Tribal Card that has been designated as an acceptable document to denote identity and citizenship by the Secretary, pursuant to section 7209 of IRTPA. Specifically, 8 CFR 235.1(e), as amended by the WHTI land and sea final rule, provides that upon designation by the Secretary of Homeland Security of a United States qualifying tribal entity document as an acceptable document to denote identity and citizenship for the purposes of entering the United States, Native Americans may be permitted to present tribal cards upon entering or seeking admission to the United States according to the terms of the voluntary agreement entered between the Secretary of Homeland Security and the tribe. It provides that the Secretary of Homeland Security will announce, by publication of a notice in the **Federal Register**, documents designated under this paragraph. It further provides that a list of the documents designated under this section will also be made available to the public.

A United States qualifying tribal entity is defined as a tribe, band, or other group of Native Americans formally recognized by the United States Government which agrees to meet WHTI document standards.² Native American tribal cards are also referenced in 8 CFR 235.1(b) which lists the documents U.S. citizens may use to establish

¹ Adjacent islands is defined in 8 CFR 212.0 as Bermuda and the islands located in the Caribbean Sea, except Cuba. This definition applies to 8 CFR 212.1 and 235.1.

² *See* 8 CFR 212.0. This definition applies to 8 CFR 212.1 and 235.1.

identity and citizenship when entering the United States. *See* 8 CFR 235.1(b)(7).

The Secretary has delegated to the Commissioner of U.S. Customs and Border Protection (CBP) the authority to designate certain documents as acceptable border crossing documents for persons arriving in the United States by land or sea from within the Western Hemisphere, including certain United States Native American tribal cards. *See* DHS Delegation Number 7105 (Revision 00), dated January 16, 2009.

Tribal Card Program

The WHTI land and sea final rule allowed U.S. federally recognized Native American tribes to work with CBP to enter into agreements to develop tribal ID cards that can be designated as acceptable to establish identity and citizenship when entering the United States at land and sea ports of entry from contiguous territory or adjacent islands. CBP has been working with various U.S. federally recognized Native American tribes to facilitate the development of such cards.³ As part of the process, CBP will enter into one or more agreements with a U.S. federally recognized tribe that specify the requirements for developing and issuing WHTI-compliant tribal cards, including a testing and auditing process to ensure that the cards are produced and issued in accordance with the terms of the agreements.

After production of the cards in accordance with the specified requirements, and successful testing and auditing by CBP of the cards and program, the Secretary of Homeland Security or the Commissioner of CBP may designate the tribal card as an acceptable WHTI-compliant document for the purpose of establishing identity and citizenship when entering the United States by land or sea from contiguous territory or adjacent islands. Such designation will be announced by publication of a notice in the **Federal Register**. More information about WHTI-compliant documents is available at www.cbp.gov/travel.

The Pascua Yaqui Tribe of Arizona became the first Native American tribe to have its tribal card designated as a Western Hemisphere Travel Initiative compliant document by the Commissioner of CBP. This designation was announced in a notice published in the **Federal Register** on June 9, 2011 (76 FR 33776). Subsequently, the Commissioner of CBP announced the designation of the tribal cards of the Kootenai Tribe of Idaho and the Seneca Nation of Indians as Western Hemisphere Travel Initiative compliant documents. *See* 77 FR 4822 (January 31, 2012) and 80 FR 40076 (July 13, 2015).

³ The Native American tribal cards qualifying to be a WHTI-compliant document for border crossing purposes are commonly referred to as “Enhanced Tribal Cards” or “ETCs.”

HCA Tribe WHTI-Compliant Tribal Card Program

The HCA Tribe has voluntarily established a program to develop a WHTI-compliant tribal card that denotes identity and U.S. or Canadian citizenship. On May 11, 2011, CBP and the HCA Tribe signed a Memorandum of Agreement (MOA) to develop, issue, test, and evaluate tribal cards to be used for border crossing purposes. Pursuant to this MOA, the cards are issued to members of the HCA Tribe who can establish identity, tribal membership, and U.S. or Canadian citizenship. The cards incorporate physical security features acceptable to CBP as well as facilitative technology allowing for electronic validation of identity, citizenship, and tribal membership by CBP. On August 27, 2014, the HCA Tribe and CBP signed an addendum to the April 1, 2010 Pascua Yaqui Tribe Service Level Agreement that provides that the Pascua Yaqui Tribe would serve as the Information Technology Coordinator and the manufacturer of the tribal cards on behalf of the HCA Tribe.

CBP has tested the cards developed by the HCA Tribe pursuant to the above agreements and has performed an audit of the tribe's card program. On the basis of these tests and audit, CBP has determined that the cards meet the requirements of section 7209 of the IRTPA and are acceptable documents to denote identity and U.S. and Canadian citizenship for purposes of entering the United States at land and sea ports of entry from contiguous territory or adjacent islands.⁴ CBP's continued acceptance of the tribal card as a WHTI-compliant document is conditional on compliance with the MOA and all related agreements.

Acceptance and use of the WHTI-compliant tribal card is voluntary for tribe members. If an individual is denied a WHTI-compliant tribal card, he or she may still apply for a passport or other WHTI-compliant document.

Designation

This notice announces that the Commissioner of CBP designates the tribal card issued by the HCA Tribe in accordance with the MOA and all related agreements between the tribe and CBP as an acceptable WHTI-compliant document pursuant to section 7209 of the

⁴ The Native American Tribal Card issued by the HCA Tribe may not, by itself, be used by Canadian citizen tribal members to establish that they meet the requirements of section 289 of the Immigration and Nationality Act (INA) [8 U.S.C. 1359]. INA § 289 provides that nothing in this title shall be construed to affect the right of American Indians born in Canada to pass the borders of the United States, but such right shall extend only to persons who possess at least 50 per centum of blood of the American Indian race. While the tribal card may be used to establish a card holder's identity for purposes of INA § 289, it cannot, by itself, serve as evidence of the card holder's Canadian birth or that he or she possesses at least 50% American Indian blood, as required by INA § 289.

IRTPA and 8 CFR 235.1(e). In accordance with these provisions, the approved card, if valid and lawfully obtained, may be used to denote identity and U.S. or Canadian citizenship of HCA Tribe members for the purposes of entering the United States from contiguous territory or adjacent islands at land and sea ports of entry.

Dated: May 19, 2016.

R. GIL KERLIKOWSKIE,
Commissioner.

[Published in the Federal Register, May 5, 2016 (81 FR 33686)]

**NOTICE OF ISSUANCE OF FINAL DETERMINATION
CONCERNING CERTAIN NETWORK CABLES AND
TRANSCEIVERS**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of final determination.

SUMMARY: This document provides notice that U.S. Customs and Border Protection (“CBP”) has issued a final determination concerning the country of origin of certain network cables and transceivers. Based upon the facts presented, CBP has concluded that the country of origin of the network cables and transceivers is China for purposes of U.S. Government procurement.

DATES: The final determination was issued on May 19, 2016. A copy of the final determination is attached. Any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of this final determination within June 30, 2016.

FOR FURTHER INFORMATION CONTACT: Grace A. Kim, Valuation and Special Programs Branch, Regulations and Rulings, Office of International Trade (202) 325–7941.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on May 19, 2016, pursuant to subpart B of Part 177, U.S. Customs and Border Protection Regulations (19 CFR part 177, subpart B), CBP issued a final determination concerning the country of origin of certain network cables and transceivers, which may be offered to the U.S. Government under an undesignated government procurement contract. This final determination, HQ H273091, was issued under procedures set forth at 19 CFR part 177, subpart B, which implements Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2511–18). In the

final determination, CBP concluded that the processing in the U.S. does not result in a substantial transformation. Therefore, the country of origin of the certain network cables and transceivers is China for purposes of U.S. Government procurement.

Section 177.29, CBP Regulations (19 CFR 177.29), provides that a notice of final determination shall be published in the **Federal Register** within 60 days of the date the final determination is issued. Section 177.30, CBP Regulations (19 CFR 177.30), provides that any party-at-interest, as defined in 19 CFR 177.22(d), may seek judicial review of a final determination within 30 days of publication of such determination in the **Federal Register**.

Dated: May 19, 2016.

MYLES B. HARMON,

CATEGORY: Origin

MR. STUART P. SEIDEL
BAKER & MCKENZIE, LLP
815 CONNECTICUT AVE. NW
WASHINGTON, DC 20006-4078

RE: U.S. Government Procurement; Country of Origin Marking; Network Transceivers and High Speed Cabling Devices; Substantial Transformation

DEAR MR. SEIDEL:

This is in response to your letter dated October 24, 2014, requesting a final determination on behalf of AddOn Computer Peripherals LLC (“AddOn”) pursuant to Subpart B of Part 177 of the U.S. Customs & Border Protection (“CBP”) Regulations (19 CFR part 177). Under these regulations, which implement Title III of the Trade Agreements Act of 1979 (“TAA”), as amended (19 U.S.C. 2511 *et seq.*), CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain “Buy American” restrictions in U.S. law or for products offered for sale to the U.S. Government. This final determination concerns the country of origin of AddOn’s network transceivers and high speed cabling devices. As a U.S. importer, AddOn is a party-at-interest within the meaning of 19 CFR 177.22(d)(1) and is entitled to request this final determination. You also request a country of origin marking determination.

In your letter, you requested confidential treatment for certain information contained in the file. Pursuant to 19 CFR 177.2(b)(7), the identified information has been bracketed and will be redacted in the public version of this final determination.

FACTS:

The products at issue are network transceivers and high speed cabling devices. You state that network transceivers are used for transmitting and receiving information between two network devices. The medium of transmission is usually copper or fiber optic cables and you claim that AddOn’s network transceivers can work with one or the other. There are different models of transceivers based on the technology employed for a particular network device, transmission medium, speed and/or distance. Depending on the original equipment manufacturer (“OEM”), technology, and applications, the sales price for the transceivers range from [*****] to [*****]. You claim that the difference in cost and the sales price is attributable to the software program and subsequent testing and quality assurance process. The transceiver also “hot plugs,” which means that it can be plugged into a network device while the transceiver is working, and connect that device to a network.

You state that most transceivers are built to a Multi-Source Agreement (“MSA”) standard to provide common formats and functions to ensure that transceivers can operate with systems and each other. The MSA standard is said to incorporate a programmable memory, called an EEPROM. The EEPROM can also be used to tell the transceiver to enable functionality that

goes beyond the MSA standard, which can be unique to the network device manufacturer. You claim that sometimes the EEPROM is programmed to allow the transceiver to perform a proprietary handshake and be identified as capable of certain advanced features. You further claim that if the transceiver fails the proprietary handshake, it may be rendered inoperable. You state that AddOn's transceivers conform to the MSA standard and to the OEM's higher level of compatibility.

You provided two scenarios in transceiver production. In both scenarios, the hardware components are manufactured in China or other Asian country. In Scenario 1, AddOn purchases the "blank" transceivers from an unrelated supplier in China or other Asian country. You state that "blank" transceivers are just hardware without any programming. AddOn downloads its proprietary software, which was developed in the U.S. and you claim that this makes the transceivers functional. This scenario applies to over 95% of the imported transceivers. In Scenario 2, AddOn purchases transceivers that have already been programmed with a generic program, which is removed and AddOn's proprietary software is installed to provide interoperability between different OEMs' systems. AddOn's transceivers are then tested for compatibility in its Certification Test Lab. In both scenarios, the programming and testing are conducted in the U.S.

The second product is a high speed cabling device, which comprises two transceivers and a transmission medium (copper or fiber optic cable) in one integrated part. All programming and testing are said to be the same as the transceivers, except that AddOn programs and tests two transceivers instead of one for each product.

AddOn's proprietary operational firmware/software was developed and programmed in the U.S. You state that the amount of time invested in development was approximately [*****] hours and the software developers have a Bachelors of Science or better or equivalent work experience. You also state that the dollar value increases significantly after programming, which ranges from [*****] depending on the part type, application and customer.

ISSUE:

What is the country of origin of the network transceivers and high speed cabling devices for purposes of U.S. government procurement and marking?

LAW AND ANALYSIS:

Government Procurement

Pursuant to Subpart B of Part 177, 19 CFR 177.21 *et seq.*, which implements Title III of the Trade Agreements Act of 1979, as amended (19 U.S.C. 2511 *et seq.*), CBP issues country of origin advisory rulings and final determinations as to whether an article is or would be a product of a designated country or instrumentality for the purposes of granting waivers of certain "Buy American" restrictions in U.S. law or practice for products offered for sale to the U.S. Government.

Under the rule of origin set forth under 19 U.S.C. 2518(4)(B):

An article is a product of a country or instrumentality only if (i) it is wholly the growth, product, or manufacture of that country or instrumentality, or (ii) in the case of an article which consists in whole or in part of materials from another country or instrumentality, it has been substantially transformed

into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed.

See also 19 CFR 177.22(a).

In rendering advisory rulings and final determinations for purposes of U.S. government procurement, CBP applies the provisions of subpart B of part 177 consistent with the Federal Acquisition Regulations. *See* 19 CFR 177.21. In this regard, CBP recognizes that the Federal Acquisition Regulations restrict the U.S. Government's purchase of products to U.S.-made or designated country end products for acquisitions subject to the TAA. *See* 48 CFR 25.403(c)(1). The Federal Acquisition Regulations define "U.S.-made end product" as:

...an article that is mined, produced, or manufactured in the United States or that is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

48 CFR 25.003.

In *Data General v. United States*, 4 Ct. Int'l Trade 182 (1982), the court determined that for purposes of determining eligibility under item 807.00, Tariff Schedules of the United States (predecessor to subheading 9802.00.80, Harmonized Tariff Schedule of the United States), the programming of a foreign PROM (Programmable Read-Only Memory chip) in the United States substantially transformed the PROM into a U.S. article. In programming the imported PROMs, the U.S. engineers systematically caused various distinct electronic interconnections to be formed within each integrated circuit. The programming bestowed upon each circuit its electronic function, that is, its "memory" which could be retrieved. A distinct physical change was effected in the PROM by the opening or closing of the fuses, depending on the method of programming. This physical alteration, not visible to the naked eye, could be discerned by electronic testing of the PROM. The court noted that the programs were designed by a U.S. project engineer with many years of experience in "designing and building hardware." In addition, the court noted that while replicating the program pattern from a "master" PROM may be a quick one-step process, the development of the pattern and the production of the "master" PROM required much time and expertise. The court noted that it was undisputed that programming altered the character of a PROM. The essence of the article, its interconnections or stored memory, was established by programming. The court concluded that altering the non-functioning circuitry comprising a PROM through technological expertise in order to produce a functioning read only memory device, possessing a desired distinctive circuit pattern, was no less a "substantial transformation" than the manual interconnection of transistors, resistors and diodes upon a circuit board creating a similar pattern.

In *Texas Instruments v. United States*, 681 F.2d 778, 782 (CCPA 1982), the court observed that the substantial transformation issue is a "mixed question of technology and customs law."

In C.S.D. 84-85, 18 Cust. B. & Dec. 1044, CBP stated:

We are of the opinion that the rationale of the court in the *Data General* case may be applied in the present case to support the principle that the

essence of an integrated circuit memory storage device is established by programming; . . . [W]e are of the opinion that the programming (or reprogramming) of an EPROM results in a new and different article of commerce which would be considered to be a product of the country where the programming or reprogramming takes place.

Accordingly, the programming of a device that confers its identity as well as defines its use generally constitutes substantial transformation. *See also* Headquarters Ruling Letter (“HQ”) 558868, dated February 23, 1995 (programming of SecureID Card substantially transformed the card because it gave the card its character and use as part of a security system and the programming was a permanent change that could not be undone); HQ 735027, dated September 7, 1993 (programming blank media (EEPROM) with instructions that allowed it to perform certain functions that prevented piracy of software constituted substantial transformation); and, HQ 733085, dated July 13, 1990; *but see* HQ 732870, dated March 19, 1990 (formatting a blank diskette did not constitute substantial transformation because it did not add value, did not involve complex or highly technical operations and did not create a new or different product); and, HQ 734518, dated June 28, 1993, (motherboards were not substantially transformed by the implanting of the central processing unit on the board because, whereas in *Data General* use was being assigned to the PROM, the use of the motherboard had already been determined when the importer imported it).

In this case, the hardware components of the transceivers in both scenarios are wholly manufactured in a foreign country and imported into the U.S. In Scenario 1, the transceivers are “blanks”, and in Scenario 2, the transceivers are preprogrammed with a generic program. In both scenarios, AddOn will download its proprietary software onto the transceivers which will transform them into a proprietary network device capable of performing its intended functions. You argue that in both scenarios, the imported hardware is substantially transformed by the development, configuration, and download operations of the U.S. origin software. In Scenario 1, you argue that the completely non-functional hardware is transformed into a transceiver and in Scenario 2, you argue that the hardware with generic software is substantially transformed into a fully functional network device that is capable of performing their intended functions. You also state that the expenses for the work performed in the U.S. far outweigh the work performed abroad. In support of your argument, you cite to HQ 562964, dated March 29, 2004; HQ H034843, dated May 5, 2009; and HQ H175415, dated October 4, 2011.

In HQ 562964, CBP considered certain network tape drive units and its components, including “bare bones” (basic) tape drives, imported into Country X where the components were assembled into a Small Computer System Interface (“SCSI”) tape drive rack unit. The assembly process involved approximately eight major components, simple operations, and required approximately twenty minutes. In Scenario 1, the “bare bones” tape drives were preprogrammed with the OEM’s firmware prior to importation, which allowed the tape drives to be recognized and controlled by the OEM’s network. CBP found that the assembly operations did not alter the function of the tape drive, and that its character and use as a network storage device was defined prior to importation into Country X, and therefore the tape drive rack unit was not substantially transformed. In Scenario 2, the “bare bones” tape

drives were imported with a universal firmware that was installed only for testing and diagnostic purposes and the OEM proprietary firmware was burned onto the tape drives in Country X. CBP found that the OEM firmware allowed the tape drives to be recognized and controlled by the OEM's network and defined the character and use of the tape drive as a network storage device and concluded that the tape drive rack unit had been substantially transformed.

In HQ H034843, CBP held that USB flash drives were products of Israel because, though the assembly process began in China and the software and firmware were developed in Israel, the installation and customization of the firmware and software that took place in Israel made the USB flash drives functional, permitted them to execute their security features, and increased their value. In HQ H175415, CBP held that Ethernet switches were products of the U.S. because, though the hardware components were fully assembled into Ethernet switches in China, they were programmed with U.S.-origin operating software enabling them to interact and route within the network, and to monitor, secure, and access control of the network.

However, in HQ H241177, dated December 3, 2013, Ethernet switches were assembled to completion in Malaysia and then shipped to Singapore, where U.S.-origin software was downloaded onto the switches. CBP further found that software downloading did not amount to programming, which involved writing, testing and implementing code necessary to make the computer function a certain way. *See also* HQ H240199, dated March 10, 2015 (the notebook computer was not substantially transformed when the computer was assembled in Country A, imported into Country F, and Country D-origin BIOS was downloaded). CBP concluded in HQ H241177, that the software downloading performed in Singapore did not amount to programming and that the country of origin was Malaysia, where the last substantial transformation occurred.

In Scenario 1, the imported transceivers are completely non-functional and AddOn's proprietary software is downloaded in the U.S., making the transceivers functional and compatible with the OEM technology. The proprietary software was developed in the U.S. at significant cost to AddOn over many years. Without the proprietary software, the transceivers could not function as a network device in any capacity. In accordance with HQ H175415, we find that the non-functional transceivers are substantially transformed as a result of downloading performed in the U.S., with proprietary software developed in the U.S. Therefore, the country of origin of the transceivers in Scenario 1 is the U.S.

In Scenario 2, the imported transceivers are preprogrammed with a generic program prior to importation, which is replaced with the proprietary software in the U.S. While the transceivers have generic network functionality, it is stated that they will not be recognized by or work on proprietary networks. As HQ 732870 and HQ 734518 point out, when programming does not actually create a new or different product, it may not constitute a substantial transformation. Given these considerations, it would appear that programming an imported, already functional, transceiver just to customize its network compatibility, would not actually change the identity of the imported transceiver. *See* HQ H241177 *supra*. Also, in HQ 562964, CBP found that the "bare bones" tape drives were substantially transformed when the universal firmware was replaced with the proprietary firmware because the universal firmware was

only for testing and diagnostic purposes. In this case, while the preprogrammed transceivers cannot function as intended by AddOn's market and its customers, the transceivers are capable of generic network functionality at the time of importation. Downloading the AddOn proprietary software does not actually change the identity of the imported transceiver and its name, character, and use remain the same. Therefore, in Scenario 2, we find that the imported transceivers with a generic program will not be substantially transformed in the U.S. Therefore, we find that the country where the last substantial transformation occurs is China or other Asian country where the hardware components are manufactured. The country of origin of the transceivers in Scenario 2 is China or other Asian country.

Marking

Section 304 of the Tariff Act of 1930, as amended (19 U.S.C. 1304), provides that, unless excepted, every article of foreign origin imported into the U.S. shall be marked in a conspicuous place as legibly, indelibly, and permanently as the nature of the article (or container) will permit, in such manner as to indicate to the ultimate purchaser in the U.S. the English name of the country of origin of the article.

Part 134, CBP Regulations (19 CFR part 134), implements the country of origin marking requirements and exceptions of 19 U.S.C. 1304. Section 134.1(b), CBP Regulations (19 CFR 134.1(b)), defines the country of origin of an article as the country of manufacture, production, or growth of any article of foreign origin entering the U.S. Further work or material added to an article in another country must effect a substantial transformation in order to render such other country the country of origin for country of origin marking purposes.

Thus, the issue in determining the country of origin of the transceivers is whether the transceivers of Chinese (or other Asian country) origin are substantially transformed as a result of the operations performed in the U.S. As indicated above, in Scenario 1, we have found that the Chinese (or other Asian country) origin transceivers are substantially transformed in the U.S., but not in Scenario 2. Therefore, pursuant to 19 U.S.C. 1304, the country of origin for marking purposes of the transceivers is the U.S. in Scenario 1, and China or other Asian country in Scenario 2.

HOLDING:

Based on the facts of this case, the country of origin of transceivers and high speed cabling devices is the U.S. in Scenario 1, and China or other Asian country in Scenario 2 for purposes of U.S. Government procurement and country of origin marking.

Notice of this final determination will be given in the **Federal Register**, as required by 19 CFR 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 CFR 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 CFR 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

MYLES B. HARMON

**DETERMINATION THAT COBRA FEES ARE NOT BEING
ADJUSTED FOR INFLATION IN APRIL 2016**

The Fixing America's Surface Transportation Act (FAST Act) (Pub. L. 114-94, December 4, 2015) amended section 13031 of the Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985 (19 U.S.C. 58c), by requiring the customs user fees established by COBRA in subsection (a) and certain limitations on those fees identified in subsection (b) to be adjusted for inflation by the Secretary of the Treasury.

In accordance with the FAST Act, these COBRA fees and limitations are to be adjusted on April 1, 2016, and at the beginning of each fiscal year thereafter to reflect the percent increase (if any) in the average of the Consumer Price Index (CPI) for the preceding 12-month period compared to the CPI for fiscal year 2014. According to the statute, if the increase in the CPI for the preceding 12-month period is less than one (1) percent when so compared, the Treasury Department has discretion to determine whether the fees and limitations should be adjusted.

The increase in the CPI based on the last 12 months of data available (February 2015- January 2016) as compared to the CPI for fiscal year 2014 is less than one (1) percent. Accordingly, Treasury and U.S. Customs and Border Protection (CBP) determined that an adjustment to these customs user fees and limitations was not necessary in April 2016.

It is noted that CBP is currently developing a rulemaking document which will be published in the **Federal Register** that will implement the COBRA fee adjustment requirements of the FAST Act. The rulemaking document will include the methodology for determining the parameters for whether a COBRA fee adjustment is necessary as well as the timing of any fee adjustment announcements and effective dates.

**PROPOSED REVOCATION OF ONE RULING LETTER AND
REVOCATION OF TREATMENT RELATING TO THE
TARIFF CLASSIFICATION OF JEFFAMINE® D-2000**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed revocation of one ruling letter and revocation of treatment relating to the tariff classification of JEFFAMINE® D-2000.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to revoke one ruling letter concerning tariff classification of JEFFAMINE® D-2000 under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments on the correctness of the proposed actions are invited.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of International Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: Nicholai Diamond, Tariff Classification and Marking Branch, Regulations and Rulings, Office of International Trade, at (202) 325–0292.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L.

103–182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to revoke one ruling letter pertaining to the tariff classification of JEFFAMINE® D-2000. Although in this notice, CBP is specifically referring to New York Ruling Letter (“NY”) N255361, dated August 13, 2014 (Attachment A), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the one identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer’s failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY N255361, CBP classified JEFFAMINE® D-2000 in heading 3911, HTSUS, specifically in subheading 3911.90.90, HTSUS, which

provides for “Petroleum resins, coumarone-indene resins, polyterpenes, polysulfides, polysulfones and other products specified in note 3 to this chapter, not elsewhere specified or included, in primary forms: Other: Other: Other.” CBP has reviewed NY N255361 and has determined the ruling letter to be in error. It is now CBP’s position that JEFFAMINE® D-2000 is properly classified, by operation of GRI 1, in heading 3907, HTSUS, specifically in subheading 3907.20.00, HTSUS, which provides for “Polyacetals, other polyethers and epoxide resins, in primary forms; polycarbonates, alkyd resins, polyallyl esters and other polyesters, in primary forms: Other polyethers.”

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to revoke NY N255361 and to revoke or modify any other ruling not specifically identified to reflect the analysis contained in the proposed Headquarters Ruling Letter (“HQ”) H262287, set forth as Attachment B to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

CATEGORY: Classification

TARIFF NO.: 3911.90.9010

Ms. DINA DONNELLY
ACETO CORPORATION
4 TRI HARBOR COURT
PORT WASHINGTON, NY 11050

RE: The tariff classification of JEFFAMINE D-2000 (CAS-9046-10-0) from China

DEAR Ms. DONNELLY:

In your letter dated July 17, 2014, you requested a tariff classification ruling.

Technical information was provided with your request. JEFFAMINE D-2000 polyoxypropylenediamine (CAS-9046-10-0) is a member of a family of polyamines having repeat oxypropylene units in its backbone. It is a difunctional primary amine with an average molecular weight of approximately 2000. Its amine groups are located on secondary carbon atoms at the ends of an aliphatic polyether chain.

The applicable subheading for the JEFFAMINE D-2000 polyoxypropylenediamine will be 3911.90.9010, Harmonized Tariff Schedule of the United States (HTSUS), which provides for petroleum resins, coumarone-indene resins, polyterpenes, polysulfides, polysulfones and other products specified in note 3 to this chapter, not elsewhere specified or included, in primary forms: Other: Other: Other: Other: Thermoplastic. The rate of duty will be 6.5 percent ad valorem.

This merchandise may be subject to the requirements of the Toxic Substances Control Act (TSCA), which are administered by the U.S. Environmental Protection Agency. Information on the TSCA can be obtained by contacting the EPA at 1200 Pennsylvania Avenue N.W., Washington, D.C., 20460, by calling the TSCA Assistance Line at (202) 554-1404, by e-mail to tsca-hotline@epa.gov, or by visiting their website at www.epa.gov.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Joan Mazzola at joan.m.mazzola@cbp.dhs.gov.

Sincerely,

GWENN KLEIN KIRSCHNER

Director

National Commodity Specialist Division

PATTI CORDO
 DIRECTOR OF IMPORT
 AMERICAN CARGO EXPRESS, INC.
 2345 VAUXHALL RD.
 UNION, NJ 07083

RE: Revocation of NY N255361; classification of JEFFAMINE® D-2000

DEAR Ms. CORDO:

This is in reference to your letter of December 29, 2014, submitted on behalf of Huntsman Petrochemical LLC (“Huntsman”), requesting reconsideration of New York Ruling Letter (NY) N255361, dated August 13, 2014. NY N255361 was issued to Huntsman by U.S. Customs and Border Protection (CBP) in response to Huntsman’s July 17, 2014 request for a ruling as to the proper classification of the JEFFAMINE® D-2000 under the Harmonized Tariff Schedule of the United States (HTSUS). We have reviewed NY N255361, have determined that it is incorrect, and, for the reasons set forth below, are revoking that ruling.

FACTS:

NY N255361 contains the following description of JEFFAMINE® D-2000 excerpted from a technical bulletin for the product:

JEFFAMINE D-2000 polyoxypropylenediamine (CAS-9046-10-0) is a member of a family of polyamines having repeat oxypropylene units in its backbone. It is a difunctional primary amine with an average molecular weight of approximately 2000. Its amine groups are located on secondary carbon atoms at the ends of an aliphatic polyether chain.

A more recent technical bulletin for JEFFAMINE® D-2000 states as follows:

JEFFAMINE D-2000 polyetheramine is characterized by repeating oxypropylene units in the backbone. As shown by the representative structure, JEFFAMINE D-2000 polyetheramine is a difunctional, primary amine with average molecular weight of about 2000. The primary amine groups are located on secondary carbon atoms at the end of the aliphatic polyether chains.

The “representative structure” referenced in this excerpt is depicted below:

In NY N255361, CBP classified JEFFAMINE® D-2000 in heading 3911, HTSUS, specifically in subheading 3911.90.90, HTSUS, which provides for “Petroleum resins, coumarone-indene resins, polyterpenes, polysulfides,

polysulfones and other products specified in note 3 to this chapter, not elsewhere specified or included, in primary forms: Other: Other: Other.”

ISSUE:

Whether JEFFAMINE® D-2000 is properly classified in heading 3907, HTSUS, as an “other” polyether, or in heading 3911, HTSUS, as an “other” synthetic polymer specified in Note 3 to Chapter 39.

LAW AND ANALYSIS:

Merchandise imported into the United States is classified under the HTSUS. Tariff classification is governed by the principles set forth in the General Rules of Interpretation (GRIs) and, in the absence of special language or context which requires otherwise, by the Additional U.S. Rules of Interpretation. The GRIs and the Additional U.S. Rules of Interpretation are part of the HTSUS and are to be considered statutory provisions of law for all purposes.

GRI 1 requires that classification be determined first according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the heading and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

The Harmonized Commodity Description and Coding System Explanatory Notes (“ENs”) constitute the official interpretation of the Harmonized System at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of these headings. See T.D. 89–80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

The HTSUS provisions under consideration are as follows:

3907	Polyacetals, other polyethers and epoxide resins, in primary forms; polycarbonates, alkyd resins, polyallyl esters and other polyesters, in primary forms:
3907.20.00	Other polyethers
3911	Petroleum resins, coumarone-indene resins, polyterpenes, polysulfides, polysulfones and other products specified in note 3 to this chapter, not elsewhere specified or included, in primary forms:
3911.90	Other:
	Other:
3911.90.90	Other

Heading 3907, HTSUS, provides, *inter alia*, for “other” polyethers. Note 3 to Chapter 39 states, in relevant part, as follows:

Headings 39.01 to 39.11 apply only to goods of a kind produced by chemical synthesis, falling in the following categories...

(c) Other synthetic polymers with an average of at least 5 monomer units....

Note 5 to Chapter 39 states as follows:

Chemically modified polymers, that is those in which only appendages to the main polymer chain have been changed by chemical reaction, are to be classified in the heading appropriate to the unmodified polymer. This provision does not apply to graft copolymers.

Note 6 to Chapter 39 states as follows with respect to “primary forms”:

6. In headings 3901 to 3914, the expression “*primary forms*” applies only to the following forms:

- (a) Liquids and pastes, including dispersions (emulsions and suspensions) and solutions;
- (b) Blocks of irregular shape, lumps, powders (including molding powders), granules, flakes and similar bulk forms.

Pursuant to Note 3 to Chapter 39, heading 3907 applies to, among other products, synthetic polymers with an average of at least five monomer units. See Note 3(c) to Chapter 39. While a definition of “polymer” is absent from the HTSUS, the General EN to Chapter 39 describes “polymers” within the meaning of Note 3 to Chapter 39 as “molecules which are characterised by the repetition of one or more types of monomer units.” See also Richard J. Lewis, Sr., HAWLEY’S CONDENSED CHEMICAL DICTIONARY 1013 (15th ed. 2007) (defining “polymer” as “a macromolecule formed by the chemical union of five or more identical combining units called monomers”) [hereinafter Hawley’s]¹.

With respect to the specific types of polymers classifiable in heading 3907, EN 39.07 provides as follows:

This heading covers...

(2) **Other polyethers.** Polymers obtained from epoxides, glycols or similar materials and characterised by the presence of ether-functions in the polymer chain. They are not to be confused with the polyvinyl ethers of heading 39.05, in which the ether-functions are substituents on the polymer chain. The most important members of this group are poly(oxyethylene) (polyethylene glycol), polyoxypropylene and polyphenylene oxide (PPO) (more correctly named poly(dimethylphenylene-oxide)). These products have a variety of uses, PPO being used, like the polyacetals, as engineering plastics, polyoxypropylene as an intermediate for polyurethane foam...

Here, the technical bulletins pertaining to JEFFAMINE® D-2000 indicate that the product is in liquid form. It is consequently in a “primary form” pursuant to Note 6 to Chapter 39. Moreover, the technical bulletins and included representative structure indicate that JEFFAMINE® D-2000 contains, on average, thirty-three oxypropylene units as its repeating monomer units. Therefore, JEFFAMINE® D-2000 both meets the definition of a polymer and satisfies Note 3(c) to Chapter 39. Because its repeating units are oxypropylene monomers, it is, prior to any modification, a polyoxypropylene, which is specifically identified in EN 39.07 as an “other” polyether classifiable in heading 3907. While the original polyoxypropylene has in fact been modified to the effect that its appendages contain amine groups, Note 5 to Chapter 39 requires that JEFFAMINE® D-2000 be classified as if it were an unmodified polymer. As a chemically modified polyoxypropylene, JEFFAMINE® D-2000 is therefore classifiable as an “other” polyether in heading 3907,

¹ It is well-established that when a tariff term is not defined by the HTSUS or its legislative history, its correct meaning is its common or commercial meaning, which can be ascertained through reference to “dictionaries, scientific authorities, and other reliable information sources and lexicographic and other materials.” See *Rocknell Fastener, Inc. v. United States*, 267 F.3d 1354 (Fed. Cir. 2001).

HTSUS. See NY N242035, dated June 14, 2013; NY N116392, dated August 5, 2010; and NY 804057, dated December 7, 1994 (all classifying polyoxypropylene derivatives in heading 3907, HTSUS).

We next consider whether JEFFAMINE® D-2000 is classifiable in heading 3911, HTSUS, which provides for “other products specified in note 3 to [Chapter 39], not elsewhere specified or included, in primary forms.” As discussed above, JEFFAMINE® D-2000 is in a primary form pursuant to Note 6 to Chapter 39, and can be described as “a polymer with an average of at least 5 monomer units” within the meaning of Note 3(c) to Chapter 39. However, it is elsewhere specified in heading 3907, HTSUS, as explained above. See *R.T. Foods, Inc. v. United States*, 757 F.3d 1349, 1354 (Fed. Cir. 2014) (stating that a provision that contains the terms “not elsewhere specified or included” is a basket provision, in which classification of a given product “is only appropriate if there is no tariff category that covers the merchandise more specifically”).

HOLDING:

By application of GRI 1, JEFFAMINE® D-2000 is properly classified in heading 3907, HTSUS. It is specifically classified in subheading 3907.20.0000, HTSUSA (Annotated), which provides for: “Polyacetals, other polyethers and epoxide resins, in primary forms; polycarbonates, alkyd resins, polyallyl esters and other polyesters, in primary forms: Other polyethers.” The 2016 column one general rate of duty is 6.1% *ad valorem*.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the internet at www.usitc.gov/tata/hts/.

EFFECT ON OTHER RULINGS:

New York Ruling Letter N255361, dated August 13, 2014, is hereby REVOKED in accordance with the above analysis.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

MODIFICATION OF TWO RULING LETTERS AND REVOCATION OF TREATMENT RELATING TO THE APPLICABILITY OF SUBHEADING 9801.00.20, HTSUS TO CERTAIN AUTOMOBILE PARTS

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of modification of two ruling letters and the revocation of treatment relating to the applicability of subheading 9801.00.20, Harmonized Tariff Schedule of the United States (HTSUS) to certain automobile parts.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. 1625 (c)), as amended by section 623 of Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) is modifying two New York ruling letters pertaining to the applicability of subheading 9801.00.20, HTSUS to certain automobiles parts. Similarly, CBP is revoking any treatment previously accorded by CBP to substantially identical transactions. Notice of the proposed action was published in the *Customs Bulletin*, Vol. 50, No. 10, on March 9, 2016, No comments were received in response to that notice.

EFFECTIVE DATE: This action is effective for merchandise entered or withdrawn from warehouse for consumption on or after August 15, 2016.

FOR FURTHER INFORMATION CONTACT: Teresa M. Frazier, Valuation and Special Programs Branch, Regulations and Rulings, Office of International Trade at (202) 325–0139.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057) (hereinafter “Title VI”), became effective. Title VI amends many sections of the Tariff Act of 1930, as amended, and related laws. Two concepts which emerge from the law are “informed compliance” and “shared responsibility.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the trade and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. § 1625(c)(1)), as amended by section 623 of Title VI (Customs Modern-

ization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), a notice was published in the *Customs Bulletin*, Vol. 50, No. 10, on March 9, 2016, proposing to modify two ruling letters pertaining to the applicability of subheading 9801.00.20, HTSUS to certain automobile parts. As stated in the proposed notice, this action will cover New York Ruling Letter (NY) N263924, dated May 5, 2015, (Attachment A), and N260230, dated December 30, 2014 (Attachment B), as well as any rulings on the merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the two identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e. a ruling letter, internal advice memorandum or decision or protest review decision) on the merchandise subject to this notice should have advised CBP during the comment period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. § 1625(c)(2)), as amended by section 623 of Title VI, CBP is revoking any treatment previously accorded by CBP to substantially identical transactions. Any person involved in seeking duty-free treatment of substantially identical transactions under subheading 9801.00.20, HTSUS should have advised CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of this notice.

In NY N263924 to be modified, CBP found imported products consisting of brake pad hardware kits to be exempt from duties pursuant to subheading 9801.00.20, HTSUS. In NY N260230, also to be modified, CBP determined that certain automobile parts, such as tie rods, slip sleeves, oil seals, brake pad and hub assemblies, were exempt from duties under subheading 9801.00.20, HTSUS. It is now CBP's position that these two decisions are incorrect and that the goods in both decisions are not eligible for duty-free treatment under subheading 9801.00.20, HTSUS.

Pursuant to 19 U.S.C. § 1625(c)(1), CBP is modifying NY N263924 and NY N260230 (set forth in Attachments A and B to this document), and any other ruling not specifically identified in order to reflect the proper tariff treatment of the merchandise pursuant to the analysis in Headquarters Ruling (HQ) H270377, (set forth as Attachment C to this document). Additionally, pursuant to 19 U.S.C. 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions.

In accordance with 19 U.S.C. § 1625(c), this ruling will become

effective 60 days after publication in the *Customs Bulletin*.

Dated: May 9, 2016

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

CLA-2-98:OT:RR:NC:N1:106

CATEGORY: Classification

TARIFF NO.: 9801.00.2000

LYNN MAYNE

NORTH AMERICAN TRADE COMPLIANCE MANAGER

FEDERAL MOGUL MOTORPARTS CORPORATION

27300 WEST ELEVEN MILE ROAD S

SOUTHFIELD, MI 48034-6147

RE: The applicability of subheading 9801.00.2000, HTSUS, to various automobile parts from China, Taiwan, South Korea, Denmark and Germany, re-packaged in Mexico

DEAR Ms. MAYNE:

In your letter dated April 17, 2015, you requested a ruling on whether various automobile parts were eligible for treatment under subheading 9801.00.20, Harmonized Tariff Schedule of the United States (HTSUS).

As per your telephone conversation with this office on Monday, April 27, 2015, you stated that this ruling request differs from NY N260230, dated December 30, 2014, due to the fact that even though the same process is being performed, it is done at a different facility in Mexico with a different product line.

The imported products consist of the components of brake pad hardware kits. The complete "bill of materials" list of these individual items was e-mailed to this office on Monday, April 27, 2015. In your request, you state that these items were manufactured in either China, Taiwan, South Korea, Denmark or Germany and are imported in bulk by Federal Mogul Motorparts Corporation (FMM). Either FMM pays customs duties on these articles or it purchases them from US distributors who have already paid the respective duties. Following importation or purchase, FMM will export the various components, in-bond, to a warehouse located in Juarez, Mexico where they will pack them into retail packaging.

Section 141.2 of the Customs Regulations (19 CFR 141.2) states that "Dutiable merchandise imported and afterwards exported even though duty thereon may have been paid on the first importation, is liable to duty on every subsequent importation into the Customs territory of the United States" unless specifically exempted therefrom under the Harmonized Tariff Schedule of the United States (HTSUS). Subheading 9801.00.2000, HTSUS, provides for duty-free treatment for "articles previously imported, with respect to which the duty was paid upon such previous importation or which were previously free of duty pursuant to the Caribbean Basin Economic Recovery Act of Title V of the Trade Act of 1974 if (1) reimported, without having been advanced in value or improved in condition by any process of manufacture or other means while abroad, after having been exported under lease or similar use agreements, and (2) reimported by or for the account of the same person who imported it into, and exported it from, the United States."

Customs does not consider the mere packaging of a good for retail sale as an advancement in value or improvement in condition. See *John v. Carr & Sons, Inc.*, 69 Cust. Ct. 78, C.D. 4377 (1972), *aff'd*, 61 CCPA 52, C.A.D. 1118

(1974). Also see Headquarters Ruling Letter (HRL) 555624, dated May 1, 1990, which ruled that perfumes packaged into sample pouches abroad were not advanced in value or improved in condition for purposes of subheading 9801.00.10, HTSUS, treatment.

Section 10.108, Customs Regulations (19 CFR 10.108), provides, in relevant part, that free entry shall be accorded under subheading 9801.00.20, HTSUS, whenever it is established to the satisfaction of the district director that the article for which free entry is claimed was exported from the United States under a lease or similar use agreement. According to Black's Law Dictionary 179 (5th ed. 1979), a bailment is "a delivery of goods of personal property, by one person to another, in trust for the execution of a special object upon or in relation to such goods, beneficial to either the bailor or bailee or both, and upon a contract, express or implied, to perform the trust and carry out such object, and thereupon either to redeliver the goods to the bailor or otherwise dispose of the same in conformity with purpose of the trust." Headquarters ruled, in HRL 560511, dated November 18, 1997, that "bailment" is a "similar use agreement" for the purposes of subheading 9801.00.20, HTSUS.

You assert that your transaction meets all the requirements for consideration of duty free entry under subheading 9801.00.2000, HTSUS. Specifically, you indicate that the components of brake pad hardware kits, being previously imported and duty paid where applicable, would be subject solely to packaging operations while in Mexico. Further, the subject automotive parts would be exported under conditions that would constitute exportation pursuant to a lease or similar use agreement and FMM, would be the importer, exporter and reimporter of the merchandise.

Based on the information submitted, the components of the brake pad hardware kits that are manufactured in either China, Taiwan, South Korea, Denmark and Germany and are re-packaged in Mexico will be eligible for duty-free treatment under subheading 9801.00.2000, HTSUS, when returned to the United States, provided that the district director at the port of entry (El Paso, Texas) is satisfied that FMM previously imported the various automobile parts in bulk and paid duty thereon; FMM purchases them from US distributors that have already paid customs duties on the articles; they are reimported by or for the account of FMM; and the documentary requirements of section 10.108, Customs Regulations, are satisfied. This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177). A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, please contact National Import Specialist Matthew Sullivan at matthew.sullivan@cbp.dhs.gov.

Sincerely,

GWENN KLEIN KIRSCHNER

TARIFF NO.: 9801.00.2000

SYDNEY H. MINTZER

ATTORNEY

MAYER BROWN, LLP

1999 K STREET, NW

WASHINGTON, DC 20006-1101

RE: The applicability of subheading 9801.00.2000, HTSUS, to various automobile parts from China and South Korea, re-packaged in Mexico

DEAR MR. MINTZER:

In your letter dated December 16, 2014, you requested a ruling on behalf of Federal-Mogul Motorparts (FMM) Corporation of Southfield, Michigan on whether various automobile parts were eligible for treatment under subheading 9801.00.20, Harmonized Tariff Schedule of the United States (HTSUS).

The imported products consist of automobile parts, such as tie rods, slip sleeves, oil seals, brake pads and hub assemblies. You state that these items were manufactured in China or South Korea and imported in bulk by FMM. Either FMM pays customs duties on these articles or it purchases them from US distributors who have already paid the respective duties. Following importation or purchase, FMM will export the various automobile parts to a contractor in Mexico who will pack them into retail packaging. FMM will retain ownership of all of the articles shipped to Mexico. They will then reimport the packaged various automobile parts back into the United States.

Section 141.2 of the Customs Regulations (19 CFR 141.2) states that “Dutiable merchandise imported and afterwards exported even though duty thereon may have been paid on the first importation, is liable to duty on every subsequent importation into the Customs territory of the United States” unless specifically exempted therefrom under the Harmonized Tariff Schedule of the United States (HTSUS). Subheading 9801.00.2000, HTSUS, provides for duty-free treatment for “articles previously imported, with respect to which the duty was paid upon such previous importation or which were previously free of duty pursuant to the Caribbean Basin Economic Recovery Act of Title V of the Trade Act of 1974 if (1) reimported, without having been advanced in value or improved in condition by any process of manufacture or other means while abroad, after having been exported under lease or similar use agreements, and (2) reimported by or for the account of the same person who imported it into, and exported it from, the United States.”

Customs does not consider the mere packaging of a good for retail sale as an advancement in value or improvement in condition. *See John v. Carr & Sons, Inc.*, 69 Cust. Ct. 78, C.D. 4377 (1972), *aff'd*, 61 CCPA 52, C.A.D. 1118 (1974). Also *see* Headquarters Ruling Letter (HRL) 555624, dated May 1, 1990, which ruled that perfumes packaged into sample pouches abroad were not advanced in value or improved in condition for purposes of subheading 9801.00.10, HTSUS, treatment.

Section 10.108, Customs Regulations (19 CFR 10.108), provides, in relevant part, that free entry shall be accorded under subheading 9801.00.20,

HTSUS , whenever it is established to the satisfaction of the district director that the article for which free entry is claimed was exported from the United States under a lease or similar use agreement. According to Black's Law Dictionary 179 (5th ed. 1979), a bailment is "a delivery of goods of personal property, by one person to another, in trust for the execution of a special object upon or in relation to such goods, beneficial to either the bailor or bailee or both, and upon a contract, express or implied, to perform the trust and carry out such object, and thereupon either to redeliver the goods to the bailor or otherwise dispose of the same in conformity with purpose of the trust." Headquarters ruled, in HRL 560511, dated November 18, 1997, that "bailment" is a "similar use agreement" for the purposes of subheading 9801.00.20, HTSUS.

You assert that your client's transaction meets all the requirements for consideration of duty free entry under subheading 9801.00.2000, HTSUS. Specifically, you indicate that the various automobile parts, being previously imported and duty paid where applicable, would be subject solely to packaging operations and would not be otherwise advanced in value or improved in condition by any process or manufacture while in Mexico. Further, the subject automotive parts would be exported under conditions that would constitute exportation pursuant to a lease or similar use agreement and your client, FMM, would be the importer, exporter and reimporter of the merchandise.

Based on the information submitted, the various automobile parts that are manufactured in either China or South Korea and re-packaged in Mexico will be eligible for duty-free treatment under subheading 9801.00.2000, HTSUS, when returned to the United States, provided that the district director at the port of entry is satisfied that FMM previously imported the various automobile parts in bulk and paid duty thereon; FMM purchases them from US distributors that have already paid customs duties on the articles; they are reimported by or for the account of FMM; FMM exported the bags from the U.S. under a lease or a similar use agreement; and the documentary requirements of section 10.108, Customs Regulations, are satisfied. Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>. This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177). A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, please contact National Import Specialist Matthew Sullivan at matthew.sullivan@cbp.dhs.gov.

Sincerely,

TARIFF NO.: 9801.00.20

LYNN MAYNE,
NORTH AMERICAN TRADE COMPLIANCE MANAGER
FEDERAL MOGUL MOTORPARTS CORPORATION
27300 WEST ELEVEN MILE ROAD
SOUTHFIELD, MICHIGAN 48034-6147

RE: Modification of New York Ruling Letters (NY) N260230, dated December 30, 2014 and N263924, dated May 5, 2015; Applicability of subheading 9801.00.20, HTSUS, to foreign automobile parts re-packaged in Mexico

DEAR MS. MAYNE:

This letter is to inform you that U.S. Customs and Border Protection (CBP) has reconsidered New York Ruling Letters (NY) N263924, dated May 5, 2015 and N260230, dated December 30, 2014. In both rulings, CBP determined that various automobile parts were eligible for duty-free treatment under subheading 9801.00.20, Harmonized Tariff Schedules of the United States (HTSUS). On March 9, 2016, pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. § 1625(c)(1)), as amended by section 623 of title VI, notice of the proposed action was published in the *Customs Bulletin*, Vol. 50, No. 10. No comments were received in response to this notice.

FACTS:

In NY N260230, Federal Mogul Motorparts Corporation (FMM) purchased automobile parts, such as tire rods, slip sleeves, oil seals, brake pads and hub assemblies and paid duty thereon, or purchased them from U.S. distributors who had already paid the respective duties. FMM shipped the parts to Mexico, and then reimported the packaged various automobile parts back into the United States. In NY N263924, components of brake pad hardware manufactured in either China, Taiwan, South Korea, Denmark or Germany were imported in bulk by FMM. Similarly, the ruling states that “[e]ither FMM pays customs duties on these articles or it purchases them from U.S. distributors who have already paid the respective duties.” The ruling also states that “N263924 differs from NY N260230, due to the fact that even though the same process is being performed, following importation or purchase, FMM will export the various components, in-bond, to a warehouse in Juarez, Mexico where the goods will be packed into retail packaging for a different product line.”

In both rulings, CBP found the goods were previously imported, duty was paid where applicable, and there was no advancement in value or improvement in condition by any process or manufacture while in Mexico. In addition, both rulings noted that the requester stated that the goods would be exported from Mexico under conditions that would constitute exportation under a lease or similar use agreement, and FMM would be the importer, exporter and reimporter of the merchandise.

ISSUE:

Whether the merchandise described in NY N263924 and NY N260230 qualifies for duty-free treatment under subheading 9801.00.20, HTSUS.

LAW AND ANALYSIS:

Subheading 9801.00.20, HTSUS, provides duty-free treatment for:

[a]rticles, previously imported, with respect to which the duty was paid upon such previous importation or which were previously free of duty pursuant to the Caribbean Basin Economic Recovery Act (CBERA) or Title V of the Trade Act of 1974 (Generalized System of Preferences)(GSP), if (1) reimported, without having been advanced in value or improved in condition by any process of manufacture or other means while abroad, after having been exported under lease or similar use agreements, and (2) **reimported by or for the account of the person who imported it into, and exported it from, the United States** [*emphasis added*].

Section 10.108 of the U.S. Customs and Border Protection (“CBP”) Regulations, 19 C.F.R. § 10.108, provides that free entry shall be accorded under subheading 9801.00.20, HTSUS, whenever it is established to the satisfaction of the port director that the article for which free entry is claimed was duty paid on a previous importation, is being reimported without having been advanced in value or improved in condition by any process of manufacture or other means, was exported from the United States under a lease or similar use agreement, and is being reimported by or for the account of the person who previously imported it into, and exported it from the United States. It should be noted that CBP has denied subheading 9801.00.20, HTSUS, treatment in situations where such evidence was not provided. *See, e.g.,* Headquarters Ruling Letters (“HQ”) H232917, dated June 27, 2013 (denying protest and finding insulated concrete mold was not entitled to duty-free entry under subheading 9801.00.20, HTSUS because no evidence was provided to establish the previous importation and subsequent importation were by or for the account of the same person).

Under the CBP Regulations, an “importer” is “the person primarily responsible for the payment of any duties on the merchandise, or an authorized agent acting on his behalf.” 19 CFR § 101.1. Every importer is required to have an importer identification number. *See* 19 CFR § 24.5. We reviewed NY N263924 and N260230 and conclude that both decisions are not in conformity with the requirements of 19 C.F.R. § 10.108. The facts in each ruling state that either FMM pays the customs duties on the articles, or FMM purchases the goods from U.S. distributors who have already paid the respective duties. The rulings do not indicate that a U.S. distributor acted as an agent “by or for the account of FMM.” Subheading 9801.00.20, HTSUS, clearly requires that the re-importation must be by or for the account of the person or entity that imported it into, and exported it from the U.S. Therefore, based on the facts in both rulings, the U.S. distributor is the party who imported the parts in the first instance, and this does not satisfy the requirement that the parts are reimported by, or for the account of FMM. *See* HQ H232917, (citing to HQ 560256, dated July 23, 1997, and HQ 561005, dated Aug. 5, 1998). In sum, since both rulings failed to provide evidence that the previous importation or

subsequent importation is “by or for the account of FMM”, we find the requirements of subheading 9801.00.20, HTSUS, and 19 C.F.R. § 10.108 are not met, to the extent that the parts are acquired by FMM from a U.S. distributor.

HOLDING:

The merchandise described in New York Ruling Letters (NY) N263924 and N260230 is not entitled to duty-free entry under subheading 9801.00.20, HTSUS, to the extent that the parts are acquired by FMM from a U.S. distributor.

EFFECT ON OTHER RULINGS:

New York Ruling Letters N263924, dated May 5, 2015 and N260230, dated December 30, 2014, are hereby **MODIFIED**.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

**WITHDRAWAL OF PROPOSED MODIFICATION OF A
RULING LETTER AND PROPOSED REVOCATION OF
TREATMENT RELATING TO THE TARIFF
CLASSIFICATION OF A FISHING ROD HOLDER WITH
BOAT MOUNT**

AGENCY: U.S. Customs and Border Protection; Department of Homeland Security.

ACTION: Withdrawal of notice of proposed modification of a ruling letter and proposed revocation of treatment relating to tariff classification of a fishing rod holder with boat mount.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. 1625 (c)), as amended by Section 623 of Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub.L. 103–182, 107 Stat. 2057), Customs and Border Protection (CBP) proposed to modify one ruling letter relating to the tariff classification of a fishing rod holder with boat mount under the Harmonized Tariff Schedule of the United States (HTSUS). CBP also proposed to revoke any treatment previously accorded by CBP to substantially identical transactions. Notice of the proposed action was published in the *Customs Bulletin*, Vol. 49, No. 9, on March 4, 2015. CBP published a correction of the proposed modification in the *Customs Bulletin*, Vol. 49, No. 30 on July 29, 2015. No comments were received in response to either notice. After further review, we have determined that no modification of the subject ruling is necessary.

EFFECTIVE DATE: This action is effective immediately.

FOR FURTHER INFORMATION CONTACT: Peter Martin,
Tariff Classification and Marking Branch: (202) 325-0048.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1993, Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057) (hereinafter “Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations. Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the trade and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. §1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, a notice was published in the *Customs Bulletin*, Vol. 49, No. 9, on March 4, 2015, proposing to modify New York Ruling Letter (NY) R00811, dated September 16, 2004, which classified fishing rod holder with a boat mounting device under heading 9507, HTSUS, and specifically under subheading 9507.10.00 (2004), which provides for “Fishing rods, fish hooks and other line fishing tackle; fish landing nets, butterfly nets and similar nets; decoy “birds” (other than those of heading 9208 or 9705) and similar hunting or shooting equipment; parts and accessories thereof: Fishing rods and parts and accessories thereof.” In the notice of March 4, 2015, we proposed to modify the tariff classification of the fishing rod holder with boat mounting device. No comments were received in response to the notice. However, after additional review, we have determined that the fishing rod holder is properly classified in in subheading 9507.10.00, HTSUS. Therefore the classification of the fishing rod holder with a boat mounting device set forth in R00811 is correct.

Pursuant to 19 U.S.C. §1625(c), and 19 C.F.R. §177.7(a), which states, in pertinent part, that “[n]o ruling letter will be issued... in any instance in which it appears contrary to the sound administration of the Customs and related laws to do so”, CBP is withdrawing its proposed modification of NY R00811.

Dated: May 19, 2016

GREG CONNOR

**PROPOSED MODIFICATION OF ONE RULING LETTER
AND REVOCATION OF TREATMENT RELATING TO THE
TARIFF CLASSIFICATION OF A TWIN POSTER BED
SHIPPED COMPLETE OR ITS HEADBOARD, FOOTBOARD
AND SIDE RAILS SHIPPED SEPARATELY FROM CHINA.**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed modification of one ruling letter and revocation of treatment relating to the tariff classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to modify one ruling letter concerning tariff classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China, under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP intends to modify any treatment previously accorded by CBP to substantially identical transactions. Comments on the correctness of the proposed actions are invited.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted

comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325-0118.

FOR FURTHER INFORMATION CONTACT: George Aduhene, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade, at (202) 325-0184.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility.**” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to modify one ruling letter pertaining to the tariff classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China.. Although in this notice, CBP is specifically referring to New York Ruling Letter (“NY”) NY N220458, dated June 8, 2012 (Attachment A), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the one identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or

protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY N220458, CBP classified the bed when shipped complete, and its headboard, footboard and side rails, when shipped separately in subheading 9403.50, HTSUS, which provides for "Other furniture and parts thereof: Wooden furniture of a kind used in the bedroom." CBP has reviewed NY N220458 and find the portion that relates to the classification of the headboard, footboard and side rails, when shipped separately to be in error. It is now CBP's position that separately shipped headboard, footboard and side rails are properly classified, by operation of GRIs 1, 3(b) and 6, in heading 9403, HTSUS, specifically in subheading 9403.90.70, HTSUS, which provides for "Other furniture and parts thereof: Parts: Other: Of wood" by application of GRIs 3(b) and 6. By application of GRIs 1 and 6, the side rails are classified in subheading 9403.90.70, HTSUS.

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to modify NY N220458, and to revoke or modify any other ruling not specifically identified to reflect the analysis contained in the proposed Headquarters Ruling Letter ("HQ") H230217, set forth as Attachment B to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

Dated: May 19, 2016

DENISE N. YAPP
IMPORTS ENTRY/CLASSIFICATION COORDINATOR
ASHLEY FURNITURE INDUSTRIES, INC.
ONE ASHLEY WAY
ARCADIA, WI 54612

RE: The tariff classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China.

DEAR Ms. YAPP:

This letter replaces the ruling letter we sent to you under file number N216121 issued on June 1, 2012, in which the merchandise concerned was misclassified at the ninth and tenth digit suffix level. The purpose of this replacement letter is to correct the classification of the merchandise concerned. A corrected letter follows.

Illustrative literature and composition breakdowns were provided. When imported complete, the furniture piece is referenced as the B188 Exquisite Twin Poster Bed. The items consist of the following: B188-77 twin poster headboard, B188-74 twin poster footboard, and B188-81 twin poster rails. These items may be shipped together to make a complete bed or shipped separately.

The B188-77 twin poster headboard is constructed of an outer-structure of a cast poly frame and poly-posts with wood cores, and has an inner-structure of a cushion insert covered in faux leather (PU) vinyl with a wood core. Photos indicate that the underlying wood is completely covered by either the poly material or vinyl material.

The B188-74 twin poster footboard is constructed of an outer-structure of a cast poly frame and poly-posts with wood cores, and has an inner-structure of a cushion insert covered in faux leather (PU) vinyl with a wood core. Photos indicate that the underlying wood is completely covered by either the poly material or vinyl material.

The B188-81 twin poster rails (side rails) are constructed of wood.

You suggest that the plastic components impart the essential character of the complete bed, for the wood is completely covered and not visible, and moreover, the headboard and footboard feature detailed and ornate designs which are key selling features of the bed. It is your position that the completed bed is classified in subheading 9403.70.8015 of the Harmonized Tariff Schedule of the United States (HTSUS), which provides for furniture made of plastic.

The Exquisite Twin Poster Bed when imported complete as a bed or shipped separately as a headboard and footboard, are composed of different components (wood, plastic {acrylic}, faux leather, etc.) and are considered composite goods. The Explanatory Notes to the HTSUS, GRI 3 (b), (VIII), state that the factor which determines essential character will vary between different kinds of goods. It may for example, be determined by the nature of the materials or components, its bulk, quantity, weight or value, or by the role

of a constituent material in relation to the use of the goods. When the essential character of a composite good can be determined, the whole product is classified as if it consisted only of the material or component that imparts the essential character to the composite good.

Upon review of relevant essential character factors, we are of the opinion that the wood imparts the essential character to the completed bed, and the headboard and footboard when shipped separately. The following essential character factors were examined: (1) the weight and cost of the underlying wood, acrylic outer-coverings and faux leather inserts; (2) the underlying structural forms and shapes of the headboard and footboard; and (3) the physical appearance of the Exquisite Twin Poster Bed when imported complete or when the headboard and footboard are shipped separately.

For the headboard the wood components cost more than the acrylic components and significantly weigh more than the acrylic components, and for the footboard the acrylic components cost more, but significantly weigh less than the wood components. Although visually decorative, the faux leather insert does not define the essential character to the merchandise concerned, it merely embellishes the headboard and footboard. Acknowledging that the headboard and footboard have detailed and ornate designs covered in acrylic, does not change the fact that the wood components, including the side rails, provide the structure and shape of the Exquisite Twin Poster Bed. The wood components also provide the structure and shape of the headboard and footboard. It is the bulk and weight of the underlying wood that allows for the detailed and ornate designs of the acrylic to be imposed onto the surface of the headboard and footboard. As such, the bed when shipped complete, and the headboard and footboard (unit furniture) when shipped separately, are classified as wooden bedroom furniture in subheading 9403.50, HTSUS.

The applicable subheading for the Exquisite Twin Poster Bed when shipped complete, and the headboard and footboard and side rails when shipped separately, will be 9403.50.9045, Harmonized Tariff Schedule of the United States (HTSUS), which provides for "Other Furniture and parts thereof: Wooden furniture of a kind used in the bedroom: Other: Other: Beds: Other." The rate of duty will be free.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Neil H. Levy at (646) 733-3036.

Sincerely,

THOMAS J. RUSSO

RE: Modification of NY N220458; Classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China.

DEAR Ms. YAPP:

This is in reference to New York Ruling Letter (“NY”) N220458, dated June 8, 2012, issued to Ashley Furniture Industries, Inc. (“Ashley”) concerning the tariff classification of a twin poster bed shipped complete or its headboard, footboard and side rails shipped separately from China, under the Harmonized Tariff Schedule of the United States (HTSUS). In NY N220458, U.S. Customs and Border Protection (CBP) determined that the bed when shipped complete, and the headboard and footboard and side rails when shipped separately are classified in subheading 9403.50.9045, HTSUSA, which provides for “Other furniture and parts thereof: Wooden furniture of a kind used in the bedroom: Other: Other: Beds: Other.” We have reviewed NY N220458 and find the portion that relates to the classification of the headboard and footboard and rails when shipped separately to be in error. The classification of the bed when shipped complete remains unmodified. For the reasons set forth below, we hereby modify NY N220458.

FACTS:

In NY N220458, the subject merchandise was described as follows:

When imported complete, the furniture piece is referenced as the B188 Exquisite Twin Poster Bed. The items consist of the following: B188–77 twin poster headboard, B188–74 twin poster footboard, and B188–81 twin poster rails. These items may be shipped together to make a complete bed or shipped separately.

The B188–77 twin poster headboard is constructed of an outer-structure of a cast poly frame and poly-posts with wood cores, and has an inner-structure of a cushion insert covered in faux leather (PU) vinyl with a wood core. Photos indicate that the underlying wood is completely covered by either the poly material or vinyl material.

The B188–74 twin poster footboard is constructed of an outer-structure of a cast poly frame and poly-posts with wood cores, and has an inner-structure of a cushion insert covered in faux leather (PU) vinyl with a wood core. Photos indicate that the underlying wood is completely covered by either the poly material or vinyl material.

The B188–81 twin poster rails (side rails) are constructed of wood.

ISSUE:

Whether the headboard and footboard are classified in subheading 9403.50, HTSUS, as wooden furniture of a kind used in the bedroom, or in subheading 9403.90, HTSUS, as parts of furniture.

LAW AND ANALYSIS:

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (GRIs). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

There is no dispute that the merchandise is appropriately classified in heading 9403, HTSUS. At issue is the applicable six-digit subheading. Therefore, we must apply GRI 6 to determine the correct classification of the merchandise. GRI 6 provides:

For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

In light of the fact that the subject headboard and footboard consists of more than one material, classification at the subheading level is governed by GRIs 3 and 6. GRI 3 provides, in pertinent part, as follows:

When, by application of rule 2(b) or for any other reason, good are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:

- (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

* * * *

The HTSUS provisions under consideration are as follows:

9403	Other furniture and parts thereof:
9403.50	Wooden furniture of a kind used in the bedroom:
9403.90	Parts:
9403.90.70	Of wood:

* * * *

The Explanatory Notes to the Harmonized Commodity Description and Coding System (ENs) represent the official interpretation of the Harmonized System at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS, and are generally indicative of the proper interpretation of these

headings. See T.D. 89–90, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

The ENs to GRI 3(b) provide, in pertinent part, that:

- (VII) In all these cases the goods are to be classified as if they consisted of the material or component **which gives them their essential character**, insofar as this criterion is applicable.
- (VIII) The factor which determines essential character will vary as between different kinds of goods. It may, for example, be determined by the nature of the material or component, its bulk, quantity, weight or value, or by the role of a constituent material in relation to the use of the goods.

* * * * *

Under GRI 3(b), composite goods must be classified according to the material or component that imparts the article with its essential character. The “essential character” of an article is “that which is indispensable to the structure, core or condition of the article, i.e., what it is.” *Structural Industries v. United States*, 360 F. Supp. 2d 1330, 1336 (Ct. Int’l Trade 2005). EN VIII to GRI 3(b) explains that “[t]he factor which determines essential character will vary as between different kinds of goods. It may, for example, be determined by the nature of the material or component, its bulk, quantity, weight or value, or by the role of the constituent material in relation to the use of the goods.” Recent court decisions on the essential character for GRI 3(b) purposes have looked primarily to the role of the constituent material in relation to the use of the goods. See *Estee Lauder, Inc. v. United States*, 815 F. Supp. 2d 1287, 1296 (Ct. Int’l Trade 2012); *Structural Industries*, 360 F. Supp. 2d 1330; *Conair Corp. v. United States*, 29 C.I.T. 888 (2005); *Home Depot USA, Inc. v. United States*, 427 F. Supp. 2d 1278 (Ct. Int’l Trade 2006), aff’d 491 F.3d 1334 (Fed. Cir. 2007).

The headboard features wood components that cost more than the acrylic components and weigh significantly more than the acrylic components. The footboard features acrylic components that cost more, but weigh significantly less than the wood components. Although the headboard and footboard have detailed and ornate designs covered in acrylic, the wood components, provide the structure and shape of the headboard and footboard. It is the bulk and weight of the underlying wood that allows for the detailed and ornate designs of the acrylic to be impressed onto the surface of the headboard and footboard.

In accord with the meaning of “essential character” under GRI 3(b), we agree with the conclusion set forth in NY N220458 that wood is the essential component of the headboard and footboard. Therefore, the aforementioned components when imported together, constitute an unassembled article of wooden bedroom furniture of subheading 9403.50, HTSUS.

However, the headboard, footboard, and side rails (which are composed entirely of wood) when shipped separately do not constitute bedroom furniture of subheading 9403.50, HTSUS. Rather, they are properly classified as parts of furniture of wood under subheading 9403.90, HTSUS.

HOLDING:

By application of GRIs 1, 3(b), and 6, the headboard, footboard and side rails, when shipped separately are classified in heading 9403, HTSUS, specifically in subheading 9403.90.70, HTSUS, which provides for “Other furni-

ture and parts thereof: Parts: Other: Of wood” by application of GRIs 3(b) and 6. By application of GRIs 1 and 6, the side rails are classified in subheading 9403.90.70, HTSUS. The general column one rate of duty is “Free.”

Duty rates are provided for your convenience and subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the World Wide Web at www.usitc.gov.

EFFECT ON OTHER RULINGS:

NY N220458, dated June 8, 2012, is hereby MODIFIED.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

**PROPOSED REVOCATION OF TWO RULING LETTERS
AND REVOCATION OF TREATMENT RELATING TO THE
TARIFF CLASSIFICATION OF BUFFALO MILK
MOZZARELLA CHEESE**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed revocation of two ruling letters and revocation of treatment relating to the tariff classification of buffalo mozzarella.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to revoke two ruling letters concerning the tariff classification of buffalo mozzarella under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments on the correctness of the proposed actions are invited.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted comments may be inspected at the address stated above during

regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325-0118.

FOR FURTHER INFORMATION CONTACT: Beth Jenior, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade, at (202) 325-0347.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to revoke two ruling letters pertaining to the tariff classification of buffalo mozzarella. Although in this notice, CBP is specifically referring to Headquarters Ruling Letter (“HQ”) 956094, dated May 3, 1994 (Attachment A), and New York Ruling Letter (NY) 870353, dated January 28, 1992 (Attachment B), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the two rulings identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or

protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In HQ 956094 and NY 870353, CBP classified the buffalo mozzarella in heading 0406, HTSUS, specifically in subheading 0406.90.80, HTSUS, which provides for "Cheese and curd: Other cheese: Other cheeses...: Other ...: Other." CBP has reviewed HQ 956094 and NY 870353 and has determined the ruling letters to be in error. It is now CBP's position that the buffalo mozzarella is properly classified, by operation of GRIs 1 and 6, in heading 0406, HTSUS, specifically in subheading 0406.10.95, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd: Other: Other: Other: Other."

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to revoke HQ 956094 and NY 870353, and to revoke or to modify any other ruling not specifically identified to reflect the analysis contained in the proposed HQ H274747, set forth as Attachment C to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

REF: Classification of Mozzarella from Buffalo Milk

DEAR MR. URDANETA:

Your letter of March 18, 1994, concerns the tariff classification of mozzarella cheese made from water buffalo milk under the Harmonized Tariff Schedule of the United States.

FACTS:

Inquiry concerns the classification of mozzarella cheese made from water buffalo milk. No country of origin was given.

ISSUE:

Classification of mozzarella cheese made from water buffalo milk.

LAW & ANALYSIS:

Mozzarella cheese made from water buffalo milk is classifiable under the provision for other cheeses and substitutes for cheese in subheading 0406.90.8075, HTSUS.

It might be noted that cheese, like all food products, is subject to the pure food laws. Therefore, if you have not done so already, it is suggested that you contact the Food & Drug Administration, 200 C Street, N.W., Washington, D.C., 20204, for information on this point.

HOLDING:

Mozzarella cheese made from water buffalo milk is classifiable in subheading 0406.90.8075, HTSUS. The general rate of duty is 10 percent ad valorem.

Sincerely,

JOHN DURANT,

Director

Commercial Rulings Division

MR. JAMES REDMAN
PATRICK POWERS CUSTOMS BROKERS INC.
P.O. BOX 30155
JFK AIRPORT STATION
JAMAICA, NY 11430

RE: The tariff classification of BUFFALO MILK MOZZARELLA Cheese from Italy.

DEAR MR. REDMAN:

In your letter dated January 7, 1992, you requested a tariff classification ruling on behalf of Crystal Food Import Corporation of East Boston, Massachusetts.

The product in question is described as MOZZARELLA Cheese made from pure Water Buffalo milk, produced by C. Galdi SPA of Eboli, Italy. A sample of the product consisted of approximately eight ounces of a white cheese, in a retail plastic bag. The sample had the texture and mildly sweet, milky taste of a Buffalo milk mozzarella cheese. An analysis by the Customs Laboratory at New York found the sample to consist, by weight, of 55.8 percent moisture, 28.4 percent fat (64.1 percent on a dry basis), 15.4 percent protein, and 0.8 percent salt, with a pH of 6.1. The sample was found to be made from Buffalo milk.

The applicable subheading for this BUFFALO MILK MOZZARELLA Cheese will be 0406.90.8075, Harmonized Tariff Schedule of the United States (HTS), which provides for "Other cheese...Other, including mixtures of the above: Other... Other: Other: Other." The rate of duty will be 10 percent ad valorem.

This ruling is being issued under the provisions of Section 177 of the Customs Regulations (19 C.F.R. 177).

A copy of this ruling letter should be attached to the entry documents filed at the time this merchandise is imported. If the documents have been filed without a copy, this ruling should be brought to the attention of the Customs officer handling the transaction.

Sincerely,
Jean F. Maguire

Re: Revocation of HQ 956094 and NY 870353: Classification of Buffalo Milk Mozzarella Cheese

DEAR MR. URDANETA:

This is in reference to Headquarters Ruling Letter (HQ) 956094, dated May 3, 1994, which was issued to you concerning the tariff classification of buffalo milk mozzarella cheese (buffalo mozzarella) under the Harmonized Tariff Schedule of the United States (HTSUS). In HQ 956094, U.S. Customs and Border Protection (CBP) classified the buffalo mozzarella under subheading 0406.90, HTSUS, which provides for cheeses which are not specified elsewhere. We have reviewed HQ 956094 and find it to be in error. For the reasons set forth below, we hereby revoke HQ 956094 and New York Ruling Letter (NY) 870353, dated January 28, 1992, which covers substantially similar merchandise.

FACTS:

In HQ 956094, the subject merchandise was described as “mozzarella cheese made from water buffalo milk.” In NY 870353, the subject merchandise was described as follows:

[It is] mozzarella cheese made from pure water buffalo milk, produced by C. Galdi SPA of Eboli, Italy. A sample of the product consisted of approximately eight ounces of a white cheese, in a retail plastic bag. The sample had the texture and mildly sweet, milky taste of a buffalo milk mozzarella cheese. An analysis by the Customs Laboratory at New York found the sample to consist, by weight, of 55.8 percent moisture, 28.4 percent fat (64.1 percent on a dry basis), 15.4 percent protein, and 0.8 percent salt, with a pH of 6.1. The sample was found to be made from buffalo milk.

ISSUE:

Is the buffalo mozzarella classified under subheading 0406.10, HTSUS, as a fresh cheese, or under subheading 0406.90, HTSUS, as a cheese that is not specified elsewhere?

LAW AND ANALYSIS:

Classification under the Harmonized Tariff Schedule of the United States (HTSUS) is made in accordance with the General Rules of Interpretation (GRI). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative Section or Chapter Notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs may then be applied. Under GRI 6, the classification of goods in the subheadings of a heading shall be deter-

mined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to GRIs 1 through 5.

The HTSUS provisions at issue provide, in pertinent part, as follows:

0406	Cheese and curd:
0406.10	Fresh (unripened or uncured) cheese, including whey cheese, and curd:
	Other:
	Other:
	Other:
0406.10.95	Other.
* * *	
0406.90	Other cheese:
	Other:
	Other cheeses, and substitutes for cheese, including mixtures of the above:
	Other, including mixtures of the above ...:
0406.90.99	Other.
* * *	

The Explanatory Notes (EN) to the Harmonized Commodity Description and Coding System represent the official interpretation of the tariff at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of these headings at the international level. *See* T.D. 89–80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

EN 04.06 states:

This heading covers all kinds of cheese, *viz.*:

(1) Fresh cheese (including cheese made from whey or buttermilk) and curd. Fresh cheese is an unripened or uncured cheese which is ready for consumption shortly after manufacture (e.g., Ricotta, Broccio, cottage cheese, cream cheese, Mozzarella).

* * *

In both HQ 956094 and NY 870353, CBP classified buffalo mozzarella in residual subheading 0406.90, HTSUS, which covers cheeses which are not specifically provided for elsewhere in the nomenclature. However, we are of the view that buffalo mozzarella is a fresh cheese which is specifically described in subheading 0406.10, HTSUS. For support, we note the descriptions of mozzarella which are provided below:

Many soft, unripened varieties of Italian cheese exist, but the two most important are Mozzarella and Ricotta ... Mozzarella cheese was traditionally made from the high fat milk of the water buffalo. In southern Italy, including areas a few miles from Naples, the water buffalo still supplies milk for this type of cheese. For many decades, however, Italians have made Mozzarella cheese from cow's milk and in this form it is highly acceptable. Frank Kosikowski, *Cheese and Fermented Milk Foods*, 153 (1966).

Mozzarella. Mozzarella is a soft, plastic-curd cheese that is made in some parts of Latium and Campania in southern Italy. It originally was made only from buffalo's milk, but now it is made also from cow's milk. It is made in much the same way as Caciocavallo and Scamorze; however, it more nearly

resembles Scamorze, as both Mozzarella and Scamorze are eaten while fresh, with little or no ripening. Dairy Products Laboratory, U.S. Dep't. of Agriculture, Agriculture Handbook No. 54, Cheese Varieties and Descriptions 80 (1969).

We also note the EN 04.06 specifically names mozzarella cheese as a type of fresh cheese. In NY N130960, dated November 5, 2010, and in NY K81170, dated November 19, 2003, CBP classified buffalo milk mozzarella cheese in subheading 0406.10, HTSUS. For all of the aforementioned reasons, we find that buffalo mozzarella is properly classified under subheading 0406.10, HTSUS, as a fresh cheese.

HOLDING:

By application of GRI 1 and GRI 6, the buffalo mozzarella is classified under subheading 0406.10.95, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd: Other: Other: Other: Other." The 2016 column one, general rate of duty is 8.5 percent ad valorem.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the World Wide Web at www.usitc.gov.

EFFECT ON OTHER RULINGS:

HQ 956094, dated May 3, 1994, and NY 870353, dated January 28, 1992, are hereby revoked.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

PROPOSED MODIFICATION OF TWO RULING LETTERS AND REVOCATION OF TREATMENT RELATING TO THE TARIFF CLASSIFICATION OF COW'S MILK MOZZARELLA CHEESE

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed modification of two ruling letters and revocation of treatment relating to the tariff classification of cow's milk mozzarella.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to modify two ruling letters concerning the tariff classification of cow's milk mozzarella under the Harmonized Tariff Schedule of the United

States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments on the correctness of the proposed actions are invited.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: Beth Jenior, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade, at (202) 325–0347.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to modify two ruling letters pertaining to the tariff classification of cow’s milk mozzarella. Al-

though in this notice, CBP is specifically referring to Headquarters Ruling Letter (HQ) 957175, dated July 11, 1995 (Attachment A), and New York Ruling Letter (NY) E83545, dated August 23, 1999 (Attachment B), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the two rulings identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In HQ 957175 and NY E83545, CBP classified the cow's milk mozzarella in heading 0406, HTSUS, specifically in subheading 0406.90.95, HTSUS, which provides for "Cheese and curd: Other cheese: Other cheeses, and substitutes for cheese, including mixtures of the above: Other, including mixtures of the above ...: Other: Other: Containing cow's milk (except soft-ripened cow's milk cheese): Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions."

CBP has reviewed HQ 957175 and NY E83545 and has determined the ruling letters to be in error with regard to the classification of the mozzarella. It is now CBP's position that the cow's milk mozzarella is properly classified, by operation of GRIs 1 and 6, in heading 0406, HTSUS, specifically in subheading 0406.10.84, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd: Other: Other: Other: Other cheese and substitutes for cheese (except cheese not containing cow's milk, and soft ripened cow's milk cheese): Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions."

If the quantitative limits of subheading 0406.10.84, HTSUS, have been exceeded, then the mozzarella is properly classified in subheading 0406.10.88, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd:

Other: Other: Other: Other cheese and substitutes for cheese (except cheese not containing cow's milk, and soft ripened cow's milk cheese): Other.”

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to modify HQ 957175 and NY E83545, and to revoke or to modify any other ruling not specifically identified to reflect the analysis contained in the proposed HQ H274749, set forth as Attachment C to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

RE: Classification of cheeses

DEAR MR. GIANNOTTI

This is in response to your letter requesting a binding classification ruling for eight different cheeses.

FACTS:

You describe the subject cheeses, to be imported from Argentina, as follows:

Colonia Argentino

Flavor: Lightly sweet, pleasant soft smell

Consistency: Semi-hard, elastic, fusing in ones mouth

Texture: Spread eyes

Color: Yellowish

Form: Flat cylindrical

Rind: Smooth, covered with polyvinyl painting

Fat in dry matter: 40–44%

Moisture: 40%

Age: 60 days

Shell-life: Six months

Net weight: 3.5 kg

Danbo Argentino

Flavor: Lightly sweet (nutlike), pleasant soft smell

Consistency: Semi-hard, elastic

Texture: Smooth with some spread eyes

Color: Yellowish

Form: Parallelepiped

Rind: Without rind, cryovac vacuum packed

Fat in dry matter: 40%

Moisture: 44%

Age: 75 days

Shell-life: Six months

Net weight: 4.2 kg

Gouda

Flavor: Lightly sweet

Consistency: Semi-hard, elastic

Texture: Smooth with some small eyes

Color: Yellowish

Form: Cylindrical, parallel sides, convex profile

Rind: Smooth, covered with polyvinyl painting

Fat in dry matter: 40–44%

Moisture: 44%

Age: Four to five weeks

Shell-life: Four months

Net weight: 3.0–3.3 kg

Mozzarella

Flavor: Soft, lightly developed

Consistency: Soft, rather consistent, lightly elastic

Texture: Smooth, thread-like dough

Color: Creamy white

Form: Parallelepiped or in 20kg block

Rind: Without rind, cryovac vacuum packed

Fat in dry matter: 36–40%

Moisture: 42%

Age: Fresh

Shell-life: Six months

Net weight: 3.5 and 20,000 kg

Port Salut

Flavor: Sweet, soft, strong smell

Consistency: Soft, elastic

Texture: Smooth, soft, creamy

Color: Creamy white

Form: Square

Rind: Without rind, cryovac vacuum packed

Fat in dry matter: 50–52%

Moisture: 48%

Age: 30 days

Shell-life: Three months

Net weight: 4.2 and 1,000 kg

Queso Rallado

Flavor: Rich, lightly salty, clean and developed smell

Consistency: Hard

Texture: Small separated particles

Color: Yellowish white

Fat in dry matter: 40–44%

Moisture: 35%

Age: Six months

Shell-life: One year

Packing: Bags

Regianitto

Flavor: Rich, lightly salty, clean and developed smell

Consistency: Hard

Texture: Grandular

Color: Yellowish white

Fat in dry matter: 37%

Moisture: 35%

Age: Six months

Shell-life: Six months

Packing: Bags

Sbrinz

Flavor: Rich, lightly salty, clean and developed smell

Consistency: Hard

Texture: Granular

Color: Yellowish white

Rind: Smooth, well formed, treated with oil

Fat in dry matter: 40–44%

Moisture: 35%

Age: Six months

Shell-life: One year

Packing: Bags

You seek a ruling stating the cheeses are soft or semi-soft because you believe soft or semi-soft cheeses are exempt from quota and do not require special licensing.

On April 4, 1995, you told Headquarters personnel the cheeses are all to be made from cow's milk. You did not submit samples.

ISSUE:

What is classification of the cheeses under the Harmonized Tariff Schedule of the United States (HTSUS)?

LAW AND ANALYSIS:

The General Rules of Interpretation (GRIs) taken in their appropriate order provide a framework for classification of merchandise under the HTSUS. Most imported goods are classified by application of GRI 1, that is, according to the terms of the headings of the tariff schedule and any relative section or chapter notes. The Explanatory Notes (ENs) to the Harmonized Commodity Description and Coding System, which represent the official interpretation of the tariff at the international level, facilitate classification under the HTSUS by offering guidance in understanding the scope of the headings and GRIs.

The Colonia Argentino falls into subheading 0406.90.4600, HTSUS, as "Described in additional U.S. note 25 to this chapter and entered pursuant to its provisions." The additional U.S. note 25 to chapter four states, in relevant part, "The aggregate quantity of Swiss and Emmentaler cheese with eye formation, the foregoing goods entered under subheading 0406.90.46 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 80,000 kg. ... Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval."

The Danbo Argentino falls into subheading 0406.90.9500, HTSUS, as "Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions." The additional U.S. note 16 to chapter four states, in relevant part, "The aggregate quantity of cheeses and substitutes for cheese (except (i) cheese not containing cow's milk; (ii) soft ripened cow's milk cheese; (iii) cheese (except cottage cheese) containing 0.5 percent or less by weight of butterfat; and, (iv) articles within the scope of other import quotas provided for in additional U.S. notes 17 through 25, inclusive, to this chapter), the foregoing goods entered under subheadings 0406.10.04, 0406.10.84,

0406.20.89, 0406.30.89 and 0406.90.95 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 100,000 kg. ...Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

The Gouda falls into 0406.90.1600 HTSUS, as “Described in additional U.S. note 20 to this chapter and entered pursuant to its provisions.” The additional U.S. note 20 to chapter four states, in relevant part, “The aggregate quantity of Edam and Gouda cheeses and of cheese and substitutes for cheese containing, or processed from, Edam and Gouda cheese, the foregoing goods entered under subheadings 0406.10.44, 0406.20.44, 0406.20.73, 0406.30.44, 0406.30.73, 0406.90.16 and 0406.90.86 in any calendar year shall not exceed the quantities specified in this note... Argentina — 235,500 kg. ...Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

The Mozzarella falls into 0406.90.9500 HTSUS, as “Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions.” The additional U.S. note 16 to chapter four states, in relevant part, “The aggregate quantity of cheeses and substitutes for cheese (except (i) cheese not containing cow’s milk; (ii) soft ripened cow’s milk cheese; (iii) cheese (except cottage cheese) containing 0.5 percent or less by weight of butterfat; and, (iv) articles within the scope of other import quotas provided for in additional U.S. notes 17 through 25, inclusive, to this chapter), the foregoing goods entered under subheadings 0406.10.04, 0406.10.84, 0406.20.89, 0406.30.89 and 0406.90.95 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 100,000 kg. ...Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

The Port Salut falls into 0406.90.9500 HTSUS, as “Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions.” The additional U.S. note 16 to chapter four states, in relevant part, “The aggregate quantity of cheeses and substitutes for cheese (except (i) cheese not containing cow’s milk; (ii) soft ripened cow’s milk cheese; (iii) cheese (except cottage cheese) containing 0.5 percent or less by weight of butterfat; and, (iv) articles within the scope of other import quotas provided for in additional U.S. notes 17 through 25, inclusive, to this chapter), the foregoing goods entered under subheadings 0406.10.04, 0406.10.84, 0406.20.89, 0406.30.89 and 0406.90.95 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 100,000 kg. ...Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

The Regianitto falls into 0406.90.4100 HTSUS, as “Described in additional U.S. note 21 to this chapter and entered pursuant to its provisions.” The additional U.S. note 21 to chapter four states, in relevant part, “The aggregate quantity of Italian-type cheeses, made from cow’s milk, in original loaves (Romano made from cow’s milk, Reggiano, Parmesan, Provolone, Provoletti and Sbrinz); and Italian-type cheeses, made from cow’s milk, not in original loaves (Romano made from cow’s milk, Reggiano, Parmesan, Provolone, Provoletti, Sbrinz and Goya) and of cheese and substitutes for cheese containing, or processed from, such Italian-type cheeses, whether or not in original loaves, the foregoing goods entered under subheading 0406.10.54, 0406.20.51, 0406.20.77, 0406.30.77, 0406.90.31, 0406.90.36, 0406.90.41 and 0406.90.66 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 6,383,000 kg. ... Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

The Sbrinz falls into 0406.90.3600, as “Described in additional U.S. note 21 to this chapter and entered pursuant to its provisions.” The additional U.S. note 21 to chapter four states, in relevant part, “The aggregate quantity of Italian-type cheeses, made from cow’s milk, in original loaves (Romano made from cow’s milk, Reggiano, Parmesan, Provolone, Provoletti and Sbrinz); and Italian-type cheeses, made from cow’s milk, not in original loaves (Romano made from cow’s milk, Reggiano, Parmesan, Provolone, Provoletti, Sbrinz and Goya) and of cheese and substitutes for cheese containing, or processed from, such Italian-type cheeses, whether or not in original loaves, the foregoing goods entered under subheading 0406.10.54, 0406.20.51, 0406.20.77, 0406.30.77, 0406.90.31, 0406.90.36, 0406.90.41 and 0406.90.66 in any calendar year shall not exceed the quantities specified in this note ... Argentina — 6,383,000 kg. ... Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.”

We did not find “Queso Rallado”, described or named as such, in the HTSUS. You would need to submit a sample for us to classify it.

In sum, it is our understanding that whether cheese is soft or semi-soft is not the criterion for quota or license requirements. According to the information you have submitted, the cheeses are subject to quota and licensing requirements.

HOLDING:

The Colonia Argentino falls into subheading 0406.90.4600 HTSUS, dutiable at 6.4 percent ad valorem. The Danbo Argentino falls into subheading 0406.90.9500 HTSUS, dutiable at 10 percent ad valorem. The Gouda falls into 0406.90.1600 HTSUS, dutiable at 15 percent ad valorem. The Mozzarella falls into 0406.90.9500 HTSUS, dutiable at 10 percent ad valorem. The Port Salut falls into 0406.90.9500 HTSUS, dutiable at 10 percent ad valorem. The

Regianitto falls into 0406.90.4100, dutiable at 15 percent ad valorem. The Sbrinz falls into 0406.90.3600, dutiable at 19 percent ad valorem. The Queso Rallado is not found.

Visas and quota requirements applicable to the subject cheeses may be affected. The Status Report on Current Import Quotas (Restraint Levels), issued by Customs, provides current and vital information in this regard.

Sincerely,

JOHN DURANT,

Director

Commercial Rulings Division

MR. CHARLES GABBERT
ATLANTA CORPORATION
ATLANTA PLAZA
ELIZABETH, NJ 07206

RE: The tariff classification of provolone and mozzarella cheese from Canada.

DEAR MR. GABBERT:

In your letter, dated June 17, 1999, you have requested a tariff classification ruling.

The merchandise is described thus:

1. Provolone is a pasta filata cheese. The ingredients are milk, bacterial culture, rennet, lipase, and 1.4 percent salt. The pH is 5.2-5.3. The moisture content is 42 percent and the fat content is 24 percent. During processing the milk to vat temperature is 32 degrees Centigrade, and the cooking temperature is 48 degrees Centigrade. This provolone is not aged, as is provolone produced in Italy. Characteristic features of provolone cheese are the presence of lipase and a sharp taste.

2. Mozzarella (whole milk) is a pasta filata cheese. The ingredients are whole milk, bacterial culture, rennet, and 1.4 percent salt. The pH is 5.2-5.3. The moisture content is 48 percent and the fat content is 23 percent. The milk to vat temperature is 32 degrees Centigrade, and the cooking temperature is 45 degrees Centigrade. Mozzarella does not contain lipase, and it has a characteristic bland taste.

The two manufacturing processes are similar except for the final stage of forming. Mozzarella is formed in block form, while provolone is tubular in shape. Both products fall in the pulled-curd category.

The applicable subheading for provolone cheese, if entered under quota, will be 0406.90.4100, Harmonized Tariff Schedule of the United States (HTS), which provides for cheese and curd, other cheese, Romano made from cow's milk, Reggiano, Parmesan, Provolone and Provoletti cheeses, other, made from cow's milk, described in additional U.S. note 21 to chapter 4 and entered pursuant to its provisions. The general rate of duty will be 15 percent ad valorem.

The applicable subheading for provolone cheese, if entered outside the quota, will be 0406.90.4200, HTS, which provides for cheese and curd, other cheese, Romano made from cow's milk, Reggiano, Parmesan, Provolone and Provoletti cheeses, other, made from cow's milk, other. The rate of duty will be \$2.209 per kilogram. In addition, products classified in subheading 0406.90.4200, HTS, are subject to additional duties based on their value, as described in subheadings 9904.05.95 - 9904.06.05. However, U.S. Note 1 to Subchapter IV, Chapter 99, states, "Goods of Canada or Mexico imported into the United States shall not be subject to any of the provisions, duties or limitations of this subchapter." Accordingly, since the provolone is a product

of Canada, the additional duties provided for in subheadings 9904.05.95 - 9904.06.05 shall not apply (these subheadings fall within subchapter IV).

The applicable subheading for mozzarella cheese, if entered under quota, will be 0406.90.9500, HTS, which provides for cheese and curd, other cheese, other cheeses, and substitutes for cheese, including mixtures of the above, other, including mixtures of the above (excluding goods containing mixtures of subheadings 0406.90.61 or 0406.90.63), other, other, containing cow's milk (except soft-ripened cow's milk cheese), described in additional U.S. note 16 to chapter 4 and entered pursuant to its provisions. The general rate of duty will be 10 percent ad valorem.

The applicable subheading for mozzarella cheese, if entered outside the quota, will be 0406.90.9700, HTS, which provides for cheese and curd, other cheese, other cheeses, and substitutes for cheese, including mixtures of the above, other, including mixtures of the above (excluding goods containing mixtures of subheadings 0406.90.61 or 0406.90.63), other, other, containing cow's milk (except soft-ripened cow's milk cheese), other. The rate of duty will be \$1.553 per kilogram. In addition, products classified in subheading 0406.90.9700, HTS, are subject to additional duties based on their value, as described in subheadings 9904.06.38 - 9904.06.49. However, U.S. Note 1 to Subchapter IV, Chapter 99, states, "Goods of Canada or Mexico imported into the United States shall not be subject to any of the provisions, duties or limitations of this subchapter." Accordingly, since the mozzarella cheese is a product of Canada, the additional duties provided for in subheadings 9904.06.38 - 9904.06.49 shall not apply (these subheadings fall within Subchapter IV).

For goods classified in subheadings 0406.90.4100 and 0406.90.9500, an import license, issued to the importer by the United States Department of Agriculture, will be required at the time such merchandise is entered for consumption into the United States.

Questions regarding licensing procedures and applications for licenses to import cheese subject to quota should be addressed to:

Import Quota Manager for Dairy Products
STOP 1029/Room 5531-S
U.S. Department of Agriculture
1400 Independence Avenue, S.W.
Washington, DC 20250-1029

This ruling is being issued under the provisions of Part 177 of the Customs Regulations 19 CFR 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Thomas Brady at (212) 637-7064.

Sincerely,

ROBERT B. SWIERUPSKI,
Director

National Commodity Specialist Division

ALEJANDRO C. GIANNOTTI
A.G. ENGINEERING
4848 LOOP CENTRAL
HOUSTON, TX 77081

Re: Modification of HQ 957175 and NY E83545: Classification of Cow's Milk Mozzarella Cheese

DEAR MR. GIANNOTTI:

This is in reference to Headquarters Ruling Letter (HQ) 957175, dated July 11, 1995, which was issued to you concerning the tariff classification of several types of cheeses, including cow's milk mozzarella cheese, under the Harmonized Tariff Schedule of the United States (HTSUS). In HQ 957175, U.S. Customs and Border Protection (CBP) classified the mozzarella under subheading 0406.90, HTSUS, which provides for cheeses which are not specified elsewhere. We have reviewed HQ 957175 and find it to be in error. For the reasons set forth below, we hereby modify HQ 957175 and New York Ruling Letter (NY) E83545, dated August 23, 1999, with regard to the classification of cow's milk mozzarella cheese.

FACTS:

In HQ 957175, the subject merchandise was described as follows:

Mozzarella

Flavor: Soft, lightly developed

Consistency: Soft, rather consistent, lightly elastic

Texture: Smooth, thread-like dough

Color: Creamy white

Form: Parallelepiped or in 20kg block

Rind: Without rind, cryovac vacuum packed

Fat in dry matter: 36-40%

Moisture: 42%

Age: Fresh

Shell-life: Six months

Net weight: 3.5 and 20,000 kg ...

On April 4, 1995, you told Headquarters personnel the cheeses are all to be made from cow's milk.

In NY E83545, the subject merchandise was described as follows:

Mozzarella (whole milk) is a pasta filata cheese. The ingredients are whole milk, bacterial culture, rennet, and 1.4 percent salt. The pH is 5.2-5.3. The moisture content is 48 percent and the fat content is 23 percent. The milk to vat temperature is 32 degrees Centigrade, and the cooking temperature is 45 degrees Centigrade. Mozzarella does not contain lipase, and it has a characteristic bland taste.

ISSUE:

Is the cow's milk mozzarella classified under subheading 0406.10, HTSUS, as a fresh cheese, or under subheading 0406.90, HTSUS, as an "other" cheese that is not specified elsewhere?

LAW AND ANALYSIS:

Classification under the Harmonized Tariff Schedule of the United States (HTSUS) is made in accordance with the General Rules of Interpretation (GRI). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative Section or Chapter Notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs may then be applied. Under GRI 6, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to GRIs 1 through 5.

The HTSUS provisions at issue provide, in pertinent part, as follows:

0406	Cheese and curd:	
0406.10	Fresh (unripened or uncured) cheese, including whey cheese, and curd:	
	Other:	
	Other:	
	Other	
		Other cheese and substitutes for cheese (except cheese not containing cow's milk, and soft ripened cow's milk cheese):
0406.10.84		Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions.
0406.10.88	Other.	
* * *		
0406.90	Other cheese:	
	Other cheeses, and substitutes for cheese, including mixtures of the above:	
	Other, including mixtures of the above ...:	
	Other:	
	Other:	Containing cow's milk (except soft-ripened cow's milk cheese):
0406.90.95		Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions.
0406.90.97	Other.	
* * *		

Additional U.S. Note 16 to Chapter 4, HTSUS, provides as follows:

16. The aggregate quantity of cheeses and substitutes for cheese (except (i) cheese not containing cow's milk; (ii) soft ripened cow's milk cheese;

(iii) cheese (except cottage cheese) containing 0.5 percent or less by weight of butterfat; and, (iv) articles within the scope of other import quotas provided for in additional U.S. notes 17 through 25, inclusive, to this chapter), the foregoing goods entered under subheadings 0406.10.04, 0406.10.84, 0406.20.89, 0406.30.89 and 0406.90.95 in any calendar year shall not exceed the quantities specified in this note (articles the product of Mexico shall not be permitted or included under the aforementioned quantitative limitation and no such articles shall be classifiable therein).

	<u>Quantity (kg)</u>
Argentina	100,000
Australia	3,050,000
Canada	1,141,000
Costa Rica	1,550,000
EU 27	27,846,224
Iceland	323,000
Israel	673,000
New Zealand	11,322,000
Norway	150,000
Switzerland	1,720,000
Uruguay	250,000
Other countries or areas	201,635
Any country	300,000

Of the quantitative limitations provided for in this note for the EU 27, Portugal shall have access to a quantity of not less than 353,000 kilograms. Of the quantitative limitations provided for in this note for Israel, no more than 160,000 kilograms shall contain more than 3 percent by weight of butterfat.

Imports under these provisions require import licenses, in accordance with terms and conditions provided in regulations issued by the Secretary of Agriculture, subject to the approval of the United States Trade Representative (USTR). The regulations may provide for the reallocation among supplying countries or areas of unfilled quantities, subject to USTR approval.

* * *

The Explanatory Notes (EN) to the Harmonized Commodity Description and Coding System represent the official interpretation of the tariff at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of these headings at the international level. *See* T.D. 89-80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

EN 04.06 states:

This heading covers all kinds of cheese, viz. :

- (1) Fresh cheese (including cheese made from whey or buttermilk) and curd. Fresh cheese is an unripened or uncured cheese which is ready for consumption shortly after manufacture (e.g., Ricotta, Broccio, cottage cheese, cream cheese, Mozzarella).

* * *

In both HQ 957175 and NY E83545, CBP classified the mozzarella in residual subheading 0406.90, HTSUS, which covers cheeses which are not specifically provided for elsewhere in the nomenclature. However, we are of the view that mozzarella is a fresh cheese which is specifically described in subheading 0406.10, HTSUS. For support, we note the descriptions of mozzarella which are provided below:

Many soft, unripened varieties of Italian cheese exist, but the two most important are Mozzarella and Ricotta ... Mozzarella cheese was traditionally made from the high fat milk of the water buffalo. In southern Italy, including areas a few miles from Naples, the water buffalo still supplies milk for this type of cheese. For many decades, however, Italians have made Mozzarella cheese from cow's milk and in this form it is highly acceptable. Frank Kosikowski, *Cheese and Fermented Milk Foods*, 153 (1966).

Mozzarella. Mozzarella is a soft, plastic-curd cheese that is made in some parts of Latium and Campania in southern Italy. It originally was made only from buffalo's milk, but now it is made also from cow's milk. It is made in much the same way as Caciocavallo and Scamorze; however, it more nearly resembles Scamorze, as both Mozzarella and Scamorze are eaten while fresh, with little or no ripening. Dairy Products Laboratory, U.S. Dep't. of Agriculture, *Agriculture Handbook No. 54, Cheese Varieties and Descriptions* 80 (1969).

We also note that EN 04.06 specifically names mozzarella cheese as a type of fresh cheese. In NY N257393, dated October 3, 2014, and in NY N242316, dated June 5, 2013, CBP classified cow's milk mozzarella cheese in subheading 0406.10, HTSUS. For all of the aforementioned reasons, we find that the mozzarella is properly classified under subheading 0406.10, HTSUS, as a fresh cheese.

Additional U.S. Note 16 to Chapter 4 sets forth a quota which limits importations of goods classified under subheading 0406.10.84, HTSUS. If the mozzarella is imported in quantities that fall under the limit set forth in additional U.S. Note 16 to Chapter 4, it shall remain classified in subheading 0406.10.84, HTSUS. However, if the quantitative limits of additional U.S. Note 16 to Chapter 4, HTSUS, have been reached, the subject mozzarella will be classified in subheading 0406.10.88, HTSUS.

HOLDING:

If imported in quantities that fall within the limits described in additional U.S. Note 16 to Chapter 4, the mozzarella will be classified in subheading 0406.10.84, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd: Other: Other: Other: Other cheese and substitutes for cheese (except cheese not containing cow's milk, and soft ripened cow's milk cheese): Described in additional U.S. note 16 to this chapter and entered pursuant to its provisions." The 2016 column one, general rate of duty is 10 percent *ad valorem*.

If the quantitative limits of Additional U.S. Note 16 to Chapter 4, HTSUS, have been reached, the mozzarella will be classified in subheading 0406.10.88, HTSUS, which provides for "Cheese and curd: Fresh (unripened or uncured) cheese, including whey cheese, and curd: Other: Other: Other:

Other cheese and substitutes for cheese (except cheese not containing cow's milk, and soft ripened cow's milk cheese): Other." The 2016 column one, general rate of duty is \$1.509 per kilogram. Furthermore, if classified in subheading 0406.10.88, HTSUS, the mozzarella will also be subject to the additional duty rates specified in subheadings 9904.06.38 - 9904.06.49, HTSUS, as applicable.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the World Wide Web at *www.usitc.gov*.

EFFECT ON OTHER RULINGS:

HQ 957175, dated July 11, 1995, and NY E83545, dated August 23, 1999, are hereby modified with respect to the classification of cow's milk mozzarella cheese.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

**REVOCATION OF THREE RULING LETTERS AND
REVOCATION OF TREATMENT RELATING TO THE
TARIFF CLASSIFICATION OF WOVEN
POLYPROPYLENE/POLYETHYLENE SHEETING**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of revocation of three ruling letters and revocation of treatment relating to the tariff classification of woven polypropylene/polyethylene sheeting.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. § 1625(c)), as amended by section 623 of Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection ("CBP") is revoking three rulings concerning the tariff classification of woven polypropylene/polyethylene sheeting under the Harmonized Tariff Schedule of the United States ("HTSUS"). CBP is also revoking any treatment previously accorded by it to substantially identical transactions. Notice of the proposed revocation was published on January 27, 2016, in the Customs Bulletin, Volume 50, Number 4. No comments were received in response to this notice.

DATES: This action is effective for merchandise entered or withdrawn from warehouse for consumption on or after August 15, 2016.

FOR FURTHER INFORMATION CONTACT: Robert Shervette, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade at (202) 325-0274.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057) (hereinafter “Title VI”), become effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations. Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the trade and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. § 1625(c)(1)), as amended by section 623 of Title VI, a notice was published on January 27, 2016, in the Customs Bulletin, Volume 50, No. 4, proposing to revoke three ruling letters pertaining to the tariff classification of woven polypropylene/polyethylene sheeting. Although in this notice, CBP is specifically referring to the revocation of New York Ruling Letters (“NY”) NY N213335, dated April 23, 2012, NY N213337, dated April 23, 2012, and NY N213340, dated April 25, 2012, this notice covers any rulings on this merchandise which may exist but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the one identified. No further rulings were found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision or protest review decision) on the merchandise subject to this notice should have advised CBP during this notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. § 1625(c)(2)), as amended by section 623 of Title VI, CBP intends to

revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in a substantially identical transaction should have advised CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision of this notice.

In NY N213335, NY N213337 and NY N213340, CBP classified woven polypropylene/polyethylene sheeting under subheading 4601.99.9000, HTSUSA, as “[p]laits and similar products of plaiting materials, whether or not assembled into strips; plaiting materials, plaits and similar products of plaiting materials, bound together in parallel strands or woven, in sheet form, whether or not being finished articles (for example, mats, matting, screens): [o]ther: [o]ther: [o]ther.” Upon our review of these three rulings, we determined that the merchandise described in the rulings are properly classified under subheading 4602.90.0000, HTSUSA, as “[b]asketwork, wickerwork and other articles, made directly to shape from plaiting materials or made up from articles of heading 4601; articles of loofah: [o]ther.”

Pursuant to 19 U.S.C. § 1625(c)(1), CBP is revoking NY N213335, NY N213337 and NY N213340, and revoking or modifying any other ruling not specifically identified to reflect the proper classification of the subject merchandise according to the analysis contained in Headquarters Ruling Letter (“HQ”) H230079, set forth as an attachment to this document. Additionally, pursuant to 19 U.S.C. § 1625(c)(2), CBP is revoking any treatment previously accorded by CBP to substantially identical transactions.

MS. COLLEEN CAMPBELL
INTERTAPE POLYMER GROUP
17 BEACHGROVE CRES.
STONEY CREEK, ONTARIO
CANADA L8J 2N8

RE: Revocation of Ruling Letters: NY N213335, dated April 23, 2012; NY N213337, dated April 23, 2012; and NY N213340, dated April 25, 2012.

DEAR MS. CAMPBELL:

This letter is to inform you that U.S. Customs and Border Protection ("CBP") has reconsidered New York ("NY") Ruling letters N213335, dated April 23, 2012; N213337, dated April 23, 2012; and N213340, dated April 25, 2012, issued to you on behalf of your company, Intertape Polymer Group regarding the classification, under the Harmonized Tariff Schedule of the United States ("HTSUS"), of woven polypropylene/polyethylene sheeting. In NY N213335, NY N213337, and NY N213340, CBP classified woven polypropylene/polyethylene sheeting under heading 4601, HTSUS, as plaits and similar articles of plaiting materials. CBP has determined that NY N213335, NY N213337, and NY N213340 are in error. Accordingly, we are revoking NY N213335, NY N213337, and NY N213340 to reflect the proper classification of woven polypropylene/polyethylene sheeting as discussed herein.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. § 1625(c)(1)), as amended by section 623 of Title VI, notice of the proposed action was published on January 27, 2016, in Volume 50, Number 4, of the *Customs Bulletin*. CBP did not receive any comments during the notice period.

FACTS:

The merchandise at issue in NY N213335 is described as follows:

The sheets consist of flat, closely woven white polypropylene/polyethylene strips which you state in your letter measure 5.1 mm or greater in width. The strips are laminated to a brown Kraft paper backing. You state that the product will be imported in roll form in varying widths and lengths.

The merchandise at issue in NY N213337 is described as follows:

The sheets consist of flat, closely interwoven white polypropylene/polyethylene strips which you state in your letter measure 5.1 mm or greater in width. The sheet is coated on one side. You state that the product will be imported in roll form in varying widths and lengths.

The merchandise at issue in NY N213340 is described as follows:

The sheets consist of flat, closely interwoven polypropylene/polyethylene strips which you state in your letter measure 5.1 mm or greater in width. Both sides of the sheet are coated with polypropylene/polyethylene. You state that the product will be imported in roll form in varying widths and lengths.

Samples of the merchandise have been provided and will be returned.

ISSUE:

What is the proper classification of the woven polypropylene/polyethylene sheeting?

LAW AND ANALYSIS:

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (GRI). GRI 1 provides that the classification of goods shall be “determined according to the terms of the headings and any relative section or chapter notes.” In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs 2 through 6 may be applied in order.

In understanding the language of the HTSUS, the Explanatory Notes (ENs) of the Harmonized Commodity Description and Coding System, which constitute the official interpretation of the Harmonized System at the international level, may be utilized. The ENs, although not dispositive or legally binding, provide a commentary on the scope of each heading, and are generally indicative of the proper interpretation of the HTSUS. *See* T.D. 89–80, 54 Fed. Reg. 35127 (August 23, 1989).

The following HTSUS provisions are under consideration:

- | | |
|------|---|
| 4601 | Plaits and similar products of plaiting materials, whether or not assembled into strips; plaiting materials, plaits and similar products of plaiting materials, bound together in parallel strands or woven, in sheet form, whether or not being finished articles (for example, mats, matting, screens): |
| 4602 | Basketwork, wickerwork and other articles, made directly to shape from plaiting materials or made up from articles of heading 4601; articles of loofah: |

The relevant Legal Notes to Chapter 46, HTSUS, state in pertinent part:

1. In this chapter the expression “plaiting materials” means materials in a state or form suitable for plaiting, interlacing or similar processes; it includes straw, osier or willow, bamboos, rattans, rushes, reeds, strips of wood, strips of other vegetable material (for example, strips of bark, narrow leaves and raffia or other strips obtained from broad leaves), unspun natural textile fibers, monofilament and strip and the like of plastics and strips of paper, but not strips of leather or composition leather or of felt or nonwovens, human hair, horsehair, textile rovings or yarns, or monofilament and strip and the like of chapter 54.
3. For the purposes of heading 4601, the expression “plaiting materials, plaits and similar products of plaiting materials, bound together in parallel strands” means plaiting materials, plaits and similar products of plaiting and similar products of plaiting materials, placed side by side and bound together, in the form of sheets, whether or not binding materials are of spun textile materials.

The merchandise at issue in NY N213335, NY N213337, and NY N213340, are all woven polypropylene/polyethylene sheeting that are coated on either one or two sides with a plastic film or laminated to a paper backing.

The coating of such sheeting is a level of manufacturing that is beyond the scope of heading 4601. CBP has consistently classified such merchandise

under heading 4602. *See* HQ 960304, dated November 10, 1997 (determining that plastic plaiting materials in sheet form that are reinforced with plastic are precluded from classification under heading 4601, HTSUS, but are classified under heading 4602, HTSUS). *See also*, NY B81776, dated February 21, 1997; and NY 860405, dated March 6, 1991.

Therefore, the woven polypropylene/polyethylene sheeting in rulings NY N213335, NY N213337, and NY N213340, are classified under heading 4602, HTSUS, as “[b]asketwork, wickerwork and other articles, made directly to shape from plaiting materials or made up from articles of heading 4601; articles of loofah.”

HOLDING:

Pursuant to GRI 1, the woven polypropylene/polyethylene sheeting is classified under subheading 4602.90.0000, HTSUSA, as “[b]asketwork, wickerwork and other articles, made directly to shape from plaiting materials or made up from articles of heading 4601; articles of loofah: [o]ther.” The general, column one, rate of duty is 3.5 percent *ad valorem*.

EFFECTS ON OTHER RULINGS:

NY N213335 and NY N213337, both dated April 23, 2012, and NY N213340, dated April 25, 2012, are hereby revoked.

In accordance with 19 U.S.C. § 1625(c), this ruling will become effective 60 days after its publication in the *Customs Bulletin*.

Sincerely,

IEVA K. O’ROURKE
for

MYLES B. HARMON,
Director

Commercial and Trade Facilitation Division

**PROPOSED REVOCATION OF TWO RULING LETTERS
AND REVOCATION OF TREATMENT RELATING TO THE
TARIFF CLASSIFICATION OF CERTAIN
COMMEMORATIVE GOLD ROUNDS**

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed revocation of two ruling letters and revocation of treatment relating to the tariff classification of certain commemorative gold rounds.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to revoke two ruling letters concerning tariff classification of certain commemorative gold rounds under the Harmonized Tariff Schedule of

the United States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments are invited on the correctness of the proposed actions.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of International Trade, Regulations & Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1179. Submitted comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: Lynne Robinson, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade, at (202) 325–0067.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to revoke two ruling letters

pertaining to the tariff classification of commemorative gold rounds. Although in this notice, CBP is specifically referring to New York Ruling Letter (“NY”) N260757, dated February 2, 2015 (Attachment A), and NY N260343, dated January 16, 2015 (Attachment B) this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the two identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer’s failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY N260757, CBP classified a gold round from New Zealand in heading 7115, HTSUS, specifically in subheading 7115.90.30, HTSUS, which provides for “Other articles of precious metal or of metal clad with precious metal: Other: Other: Of gold, including metal clad with gold.”

Similarly, in NY N260343, CBP classified a gold round from Switzerland in subheading 7115.90.30, HTSUS. CBP has reviewed NY N260757 and NY 260343 and has determined the ruling letters to be in error.

It is now CBP’s position that commemorative gold rounds are properly classified, by operation of GRI 1, in heading 7114, HTSUS, specifically in subheading 7114.19.00, HTSUS, which provides for “Articles of goldsmiths’ or silversmiths’ wares and parts thereof, of precious metal or of metal clad with precious metal: Of other precious metal whether or not plated or clad with precious metal.”

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to revoke NY N260757 and NY N260343 and to revoke any other ruling not specifically identified to reflect the tariff classification of the subject merchandise according to the analysis contained in the proposed Headquarters Ruling Letter (“HQ”) H266605, set forth as Attachment C to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP

is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

OKLAHOMA CITY, OK 73102

RE: The tariff classification of a gold round from New Zealand.

DEAR MS. HOOKER:

In your letter dated January 13, 2015 you requested a tariff classification ruling. Illustrative literature was provided.

The item is identified as the New Zealand Mint, "1oz. Gold Kiwi." Present on the obverse surface of the round are the four stars of the Southern Cross, the word in all capitalized letters "AOTEAROA" – the traditional Maori name for New Zealand, and the words in all capitalized letters 1 OUNCE FINE GOLD .9999. Present on the reverse surface of the round is the New Zealand's iconic flightless bird (the Kiwi) with head held high to reflect the nation's optimistic and proud spirit, NZ representing the New Zealand Mint, 1oz, and the words in all capitalized letters NEW ZEALAND GOLD KIWI. This round is not legal tender, has no engraved nominal value, and the purchasing and selling price are determined by the current spot price for its metal content.

The applicable subheading for the 1oz. Gold Kiwi will be 7115.90.3000, Harmonized Tariff Schedule of the United States (HTSUS), which provides for "Other articles of precious metal or of metal clad with precious metal: Other: Other: Of gold, including metal clad with gold." The rate of duty will be 3.9% ad valorem.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Neil H. Levy at E-mail address: neil.h.levy@cbp.dhs.gov.

Sincerely,

GWENN KLEIN KIRSCHNER

OKLAHOMA CITY, OK 73102

RE: The tariff classification of a gold round from Switzerland.

DEAR MS. HOOKER:

In your letter received by the National Commodity Specialist Division on December 21, 2014, you requested a tariff classification ruling. Illustrative literature was provided.

The item is identified as the "Valcambi Suisse Minted Gold Round Bar." The item is a 1 oz., gold "minted" round, weighing 31.10 grams, having a fineness of 999.9. Present on the obverse surface of the round is the Valcambi's Hallmark (logo, weight, metal, name, fineness, essayeur fondeur and bar number). Present on the reverse surface of the round is the official Valcambi SA. Stamp. This round is not legal tender, has no engraved nominal value, and the selling price is determined by the current spot price for its metal content.

Although called a gold round bar, its shape is in the form of a round coin, and is therefore precluded from being classified in subheading 7115.90.0530 of the Harmonized Tariff Schedule of the United States (HTSUS). Consequently, the Valcambi Suisse Minted Gold Round Bar is classified in subheading 7115.90.3000, HTSUS. The applicable subheading for the Valcambi Suisse Minted Gold Round Bar will be 7115.90.3000, HTSUS, which provides for "Other articles of precious metal or of metal clad with precious metal: Other: Other: Of gold, including metal clad with gold." The rate of duty will be 3.9% ad valorem. Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Neil H. Levy at E-mail address: neil.h.levy@cbp.dhs.gov.

RE: Revocation of NY N206343, Revocation of NY N260757; Tariff classification of gold rounds

DEAR MS. HOOKER:

U.S. Customs and Border Protection (CBP) issued you New York Ruling Letter (NY) N206343, dated January 16, 2015 and NY N260757, dated January 29, 2015. Both rulings pertain to the tariff classification under the Harmonized Tariff Schedule of the United States, (HTSUS) of gold rounds, from Switzerland and New Zealand, respectively. We have since reviewed these rulings and find them to be in error, which is described in detail herein.

FACTS:

NY N260757 states the following, in relevant part:

The item is identified as the New Zealand Mint, “1 oz. Gold Kiwi.” Present on the obverse surface of the round are the four stars of the Southern Cross, the word in all capitalized letters “AOTEAROA” – the traditional Maori name for New Zealand, and the words in all capitalized letters 1 OUNCE FINE GOLD .9999. Present on the reverse side of the round is the [sic] New Zealand’s iconic flightless bird (the Kiwi) with head held high to reflect the nation’s optimistic and proud spirit, NZ representing the New Zealand Mint, 1 oz, and the words in all capitalized letters NEW ZEALAND GOLD KIWI. This round is not legal tender, has no engraved nominal value, and the purchasing and selling price are determined by the current spot price for its metal content.

The applicable subheading for the 1oz. Gold Kiwi will be 7115.90.3000, Harmonized Tariff Schedule of the United States (HTSUS), which provides for, “Other articles of precious metal, or of metal clad with precious metal: Other: Other: Of gold, including metal clad with gold.” The rate of duty will be 3.9% ad valorem.

NY N206343 states the following, in relevant part:

The item is identified as the “Valcambi Suisse Minted Gold Round Bar.” The item is a 1 oz., gold “minted” round, weighting 31.10 grams, having a fineness of 999.9. [sic] Present on the obverse surface of the round is the Valcambi’s Hallmark (logo, weight, metal, name, fineness, essayeur fondeur [the official stamp of the refinery that manufactured the bullion] and bar number). Present on the reverse surface of the round is the official Valcambi SA Stamp. This round is not legal tender, has no engraved nominal value, and the selling price is determined by the current spot price for its metal content.

Although called a gold round bar, its shape is in the form of a round coin, and is therefore precluded from being classified in subheading

7115.90.0530, of the Harmonized Tariff Schedule of the United States (HTSUS). Consequently, the Valcambi Suisse Minted Gold Round Bar is classified in subheading 7115.90.30000, HTSUS.

The applicable subheading for the Valcambi Suisse Minted Gold Round Bar will be 7115.90.3000, HTSUS, which provides for “Other articles of precious metal or of metal clad with precious metal: Other: Other: Of gold, including metal clad with gold.” The rate of duty will be 2.9% ad valorem.

ISSUE:

Whether the subject gold rounds are classified as goldsmiths’ wares, of heading 7114, HTSUS, or as other articles of precious metal, in heading 7115, HTSUS.

LAW AND ANALYSIS:

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (GRIs). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

The HTSUS provisions under consideration in this case are as follows:

7114	Articles of goldsmiths’ or silversmiths’ wares and parts thereof, of precious metal or of metal clad with precious metal:
7114.19.00	Of other precious metal whether or not plated or clad with precious metal.

7115	Other articles of precious metal or of metal clad with precious metal:
7115.90.	Other:
7115.90.30	Of gold, including metal clad with gold

Note 4(a) to Chapter 71 states the following:

The expression “*precious metal*” means silver, gold and platinum.

The subject rounds are made of gold, and classification in Chapter 71 is not in dispute.

Note 10 to Chapter 71 states the following:

For purposes of heading 7114, the expression “*articles of goldsmiths’ or silversmiths’ wares*” includes such articles as ornaments, tableware, toilet-ware, smokers’ articles and other articles of household, office or religious use.

In understanding the language of the HTSUS, the Explanatory Notes (ENs) of the Harmonized Commodity Description and Coding System, which constitute the official interpretation of the HTSUS at the international level, may be utilized. The ENs, although not dispositive or legally binding, provides a commentary on the scope of each heading, and are generally indicative of the proper interpretation of the HTSUS. See T.D. 89–80, 54 Fed. Reg 35127 (August 23, 1989).

The EN 71.14, Subpart (E) states the following, in relevant part:

This heading covers articles of goldsmiths' or silversmiths' wares as defined in Note 10 to this Chapter wholly or partly of precious metal or metal clad with precious metal. In general these goods are larger than articles of jewellery of heading 71.13; they include:

(E) Other articles for domestic or similar use, for example, busts, statuettes and other figures for interior decoration; jewel cases; table centre-pieces, vases, jardinières; picture frames; lamps, candelabra, candlesticks, chandeliers; mantelpiece ornaments, decorative dishes and plates, medals and medallions (other than those for personal adornment); sporting trophies; perfume burners, etc.

The EN 71.15 states the following, in relevant part:

This heading is therefore largely confined to articles for technical or laboratory use such as crucibles, cupels and certain spatulas (e.g. of platinum or metals of the platinum group); platinum or platinum alloy in the form of cloth or grill for use as catalysts, etc.; vessels (whether or not lined or heat-insulated), not fitted nor designed to be fitted with mechanical or thermal equipment; electroplating anodes. Gold anodes may be in the form of sheets of pure gold cut to the required size and drilled at two corners for attachment of hooks for suspending them in the electroplating tank. ...

We note at the outset the rounds at issue are not legal tender. They are not struck by a national issuing authority, they do not have a face value, and they cannot be spent in their country of issue. It is for this reason that heading 7118, HTSUS, which provides for coins, is not being considered. See Headquarters Ruling (HQ) H074995, dated July 29, 2010 (classifying gold and silver coins by differentiating legal tender from commemorative coins), and see NY N016199, dated September 11, 2007 (classifying silver commemorative coins).

The classification of imported merchandise is determined by its condition as imported. *Amersham Corp. v. United States*, 5 C.I.T. 49, 53 (Ct. Int'l Trade 1982), citing *Mitsubishi International Corp. v. United States*, 78 Cust. Ct. 4, C.D. 4686 (1977). Note 10 to Chapter 71 defines the relevant text of heading 7114, HTSUS. Specifically, it states that articles of goldsmiths' wares includes "ornaments". The term "ornament" is not defined in the tariff, and as such, it must be construed in accordance with its common and commercial meanings. See *Nippon Kogaku (USA) Inc., v. United States*, 69 CCPA 89, 673 F.2d 380 (1982). The common meaning of a term used in commerce is presumed to be the same as its commercial meaning. *Simod Am. Corp. v. United States*, 872 F.2d 1572, 1576 (Fed. Cir. 1989). To ascertain the common meaning of a term, a court may consult, "dictionaries, scientific authorities, and other reliable information sources" and "lexicographic and other materials." *C.J. Tower & Sons v. United States*, 69 C.C.P.A. 128, 673 F.2d 1268, 1271 (CCPA 1982); *Simod*, 872 F.2d at 1576. As the Courts are so empowered, it is prudent for CBP to do so as well. Merriam-Webster defines "ornament" as a small fancy object that is put on something else to make it more attractive; a

useful accessory; something that lends grace or beauty¹. Merriam-Webster defines “decorative” as an object which is purely ornamental², as opposed to an object with a utilitarian function.

The ENs to heading 71.14 clarifies the tariff text “other articles for domestic or similar use” as including figures for interior decoration, mantelpiece ornaments, medals and medallions, among other listed articles. The myriad listed articles vary in size, shape, and purpose and so could be challenging to find unifying characteristics beyond aesthetics. However, in this context, the use of the word “etc.” [et cetera] indicates that this list is not exhaustive, but rather is illustrative. Medals and medallions, which are provided for in the ENs share similar characteristics as commemorative coins insofar as they are for decorative or ornamental use, to be viewed and enjoyed by its owner or guests, or could be given as gifts to memorialize a certain event or milestone. They are unlikely to be hoarded to build wealth or maintain oneself in a downward economy. As such, the subject coins are classified alongside medals and medallions, or decorative ornaments, and are properly classified in heading 7114, HTSUS, as an article of goldsmiths’ wares.

This is consistent with prior CBP rulings on commemorative coins. *See* NY N200016, dated January 24, 2010; NY N200017, dated January 24, 2010; NY N249940, dated February 20, 2014; NY R01031, dated November 15, 2004; NY A86378, dated August 6, 1996.

Furthermore, the tariff text itself, as well as the EN 71.15 clarifies that this heading is reserved for articles for technical or laboratory use, and the subject coins have no technical or laboratory use. *See* EN 71.15, *and see* NY N264210, dated May 19, 2015 (classifying 24K gold flakes in a solution of butylene glycol in subheading 7115.90.3000, HTSUSA, because gold flakes in a solution of 99 grams of butylene glycol which is added to a cosmetic lotion post-importation in the manufacture of skincare products is not an article of goldsmiths’ wares). *See also Salem Minerals Inc. v. United States*, 34 Int’l Trade Rep. (BNA) 1747, Slip Op. 12–88 (Ct. Int’l Trade June 26, 2012), where the Court of International Trade found that “gold leaf vials filled with clear liquid” lacked any constituent component that a goldsmith would make and that the goods could not be concluded to be more than the sum of its constituent parts. In other words, “taken as a whole, those gold leaf vials do not reach to the level of the work, or the ware, of a goldsmith within the purview of HTSUS heading 7114.” *Id.* * 21. Consequently, the Court held that the gold leaf vials were properly classifiable under subheading 7115.90.30, HTSUS.

HOLDING:

By application of GRI 1, the subject “Valcambi Suisse Minted Gold Round Bar” and the New Zealand “1 oz. Gold Kiwi” commemorative coins are classified in heading 7114, HTSUS. They are specifically provided for in subheading 7114.19.00, HTSUS, which provides for, “Articles of goldsmiths’ or silversmiths’ wares and parts thereof, of precious metal or of metal clad

¹ “Ornament.” *Merriam-Webster.com*. Merriam-Webster, n.d. Web. 16 July 2015. <<http://www.merriam-webster.com/dictionary/ornament>>.

² “Decorative.” *Merriam-Webster.com*. Merriam-Webster, n.d. Web. 16 July 2015. <www.merriam-webster.com/dictionary/decorative>.

with precious metal: Of other precious metal whether or not plated or clad with precious metal.” The column one general rate of duty is 7.9% ad valorem.

Duty rates are provided for your convenience and subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided at *www.usitc.gov*

EFFECT ON OTHER RULINGS

NY N206343, dated January 16, 2015, and NY N260757, dated February 2, 2015, are hereby REVOKED.

PROPOSED MODIFICATION OF ONE RULING LETTER AND REVOCATION OF TREATMENT RELATING TO THE TARIFF CLASSIFICATION OF CERTAIN PLASTIC PIPES

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed modification of one ruling letter and revocation of treatment relating to the tariff classification of plastic pipes from Mexico.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends to modify one ruling letter concerning tariff classification of plastic pipes from Mexico under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments are invited on the correctness of the proposed actions.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: George Aduhene, Tariff Classification and Marking Branch, Regulations and Rulings, Office of Trade, at (202) 325-0184.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “informed compliance” and “shared responsibility.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to modify one ruling letter pertaining to the tariff classification of plastic pipes from Mexico. Although in this notice, CBP is specifically referring to New York Ruling Letter (“NY”) N235599, dated December 17, 2012 (Attachment A), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the one identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to revoke any treatment previously accorded by CBP to substantially

identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer's failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY N235599, CBP classified plastic pipes from Mexico in heading 3917, HTSUS, specifically in subheading 3917.22.0000, HTSUSA, which provides for, "Tubes, pipes and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: Tubes, pipes and hoses, rigid: Of polymers of ethylene." CBP has reviewed NY N235599 and has determined the ruling letter to be in error. It is now CBP's position that product PP9816W described as a branch tailpiece is properly classified, by operation of GRIs 1 and 6, in heading 3917, HTSUS, specifically in subheading 3917.40.00, HTSUS, which provides for "Tubes, pipes and hoses and fittings therefor (for example, joints elbows, flanges), of plastics: Fittings." The classification of remaining products subject to NY N235599 is not affected by this proposed action.

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to modify N235599 and to revoke or modify any other ruling not specifically identified to reflect the analysis contained in the proposed HQ H260228, set forth as Attachment "B" to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

712 MAIN STREET, SUITE 1600
HOUSTON, TX 77002

RE: The tariff classification of plastic pipes from Mexico

DEAR Ms. JOINER:

In your letter dated November 19, 2012, on behalf of DBHL, Inc., Ohio, you requested a tariff classification ruling.

Descriptive literature for four items was included with your request. All are pipe sections used in plumbing applications. Product HP9005 is described as a plastic wall tube. The tube/pipe section is made of polypropylene plastic and has an inner diameter of 1 ¼ inches. A similar style is available with an inner diameter of 1 ½ inches. The pipe is curved at one end and has a ball joint finishing at the curved end.

Product P9046A is described as a double slip joint trap offset. It is made of polyvinyl chloride plastic and has an inner diameter of 1 ½ inches. It is available in lengths of 12 to 14 inches. The offset pipe section is threaded at both ends. A wing-nut and washer are assembled on each end.

Product P9790 is described as an extension tube with slip joint. The pipe section is made of polypropylene and is threaded on one end where a wing-nut and washer are connected. The component is generally used in bathroom or kitchen sinks when a drain pipe needs to be extended or lengthened. When used in connection with a P-trap, the extension directs water into the drain system in a house or building. The pipe has an inner diameter of 1 ¼ inches and measures 6 inches in length. Similar styles are available in diameters of 1 ¼ inches or 1 ½ inches and in lengths from 6 inches to 16 inches.

Product PP9816W is described as a branch tailpiece with nut. It is made of polypropylene plastic and has a diameter of 1 ½ inches. It measures 8 inches in length. The branch tailpiece is a specially designed portion of drain pipe with a fitting at one end and a branch that extends from the bottom. It allows a dishwasher drain to be connected directly to a drain assembly.

The applicable subheading for HP9005, P9790 and PP9816W will be 3917.22.0000, Harmonized Tariff Schedule of the United States (HTSUS), which provides for tubes, pipes and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: tubes, pipes and hoses, rigid: of polymers of propylene. The general rate of duty will be 3.1 percent ad valorem.

The applicable subheading for P9046A will be 3917.23.0000, HTSUS, which provides for tubes, pipes and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: tubes, pipes and hoses, rigid: of polymers of vinyl chloride. The general rate of duty will be 3.1 percent ad valorem.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Joan Mazzola at (646) 733-3023.

Sincerely,

THOMAS J. RUSSO

Director

National Commodity Specialist Division

HOUSTON, TX 77002

RE: Modification of NY N235599; Classification of certain plastic pipes from Mexico

DEAR MS. JOINER:

This letter concerns New York Ruling Letter (“NY”) N235599, dated December 17, 2012, issued to you on behalf of your client DBHL, Inc., concerning the tariff classification of plastic pipes from Mexico, under the Harmonized Tariff Schedule of the United States (HTSUS). In NY N235599, U.S. Customs and Border Protection (CBP) classified a 4 pipe sections: Product HP9005, Product P9046A, Product P9790, and Product PP9816W, all used in plumbing applications. In that ruling, CBP classified Product HP9005, Product P9790, and Product PP9816W in subheading 3917.22.0000, HTSUSA, which provides for “Tubes, pipes, and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: Tubes, pipes and hoses, rigid: Of polymers of propylene.” Product P9046A was classified in subheading 3917.23.0000, HTSUSA, which provides for Tubes, pipes, and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: Tubes, pipes and hoses, rigid: Of polymers of vinyl chloride.” We have reviewed NY N235599 and find the portion that relates to the classification of Product PP9816W to be in incorrect. The classification of Product HP9005, Product P9046A, and Product P9790 remains unmodified. The reasons set forth below, we hereby modify N235599.

FACTS:

In NY N235599, the subject merchandise were described as follows:

Product HP9005, described as a plastic wall tube. The tube/pipe section is made of polypropylene plastic and has an inner diameter of 1 ¼ inches. A similar style is available with an inner diameter of 1 ½ inches. The pipe is curved at one end and has a ball joint finishing at the curved end.

Product P9046A was described as a double slip joint trap offset. It is made of polyvinyl chloride plastic and has an inner diameter of 1 ½ inches. It is available in lengths of 12 to 14 inches. The offset pipe section is threaded at both ends. A wing-nut and washer are assembled on each end.

Product P9790 was described as an extension tube with slip joint. The pipe section is made of polypropylene and is threaded on one end where a wing-nut and washer are connected. The component is generally used in bathroom or kitchen sinks when a drain pipe needs to be extended or lengthened. When used in connection with a P-trap, the extension directs water into the drain system in a house of building. The pipe has an inner diameter of 1¼ inches

and measures 6 inches in length. Similar styles are available in diameters of 1 ¼ inches or 1 ½ inches and in lengths from 6 inches to 16 inches.

Product PP9816W was described as a branch tailpiece with a nut. It is made of polypropylene plastic and has a diameter of ½ inches. It measures 8 inches in length. The branch tailpiece is a specially designed portion of drain pipe with a fitting at one end and a branch extends from the bottom. It allows a dishwasher drain to be connected directly to a drain assembly.

ISSUE:

Whether the plastic branch tailpiece for drainage is classified in subheading 3917.22, HTSUS, as a pipe, or in subheading 3917.40, HTSUS, as a fitting.

LAW AND ANALYSIS:

Classification under the HTSUS is made in accordance with the General Rules of Interpretation (GRIs). GRI 1 provides that the classification of goods shall be determined according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the headings and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

There is no dispute that the product is appropriately classified in heading 3917, HTSUS. At issue is the applicable six-digit subheading. Therefore, we must apply GRI 6 to determine the correct classification of the merchandise. GRI 6 provides:

For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

The HTSUS provisions under considerations are as follows:

3917	Tubes, pipes and hoses and fittings therefor (for example, joints, elbows, flanges), of plastic:
	Tubes, pipes and hoses, rigid:
3917.22.00	Of polymers of propylene
3917.40.00	Fittings

* * * * *

The text of heading 3917, HTSUS, covers tubes, pipes and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics. Neither the Harmonized Tariff Schedule of the United States (HTSUS), nor the Explanatory Notes (ENs) to the HTSUS, provide a definition of the term pipe “fittings.” A tariff term that is not defined in the HTSUS or in the ENs is construed in accordance with its common and commercial meanings, which are presumed to be the same. *Nippon Kogasku (USA) Inc. v. United States*, 69 C.C.P.A. 89, 673 F. 2d 380 (1982). Common and commercial meaning may be determined by consulting dictionaries, lexicons, scientific authorities and

other reliable sources. *C.J. Tower & Sons v. United States*, 69 C.C.P.A. 128, 673 F. 2d 1268 (1982).

Webster's Third New International Dictionary (unabridged; 1961) defines "fitting" as "something used in fitting up: accessory, adjunct, attachment . . . a small often standardized part (as a coupling, valve, gauge) entering into the construction of a boiler, steam, water or gas supply installation or other apparatus . . ." For over 25 years, CBP has relied on the plumbing trade practice that cut-to-length steel pipes sections, less than 12 inches in length, are regarded as fittings and not tubes or pipes. See HQ 951940, dated July 31, 1992. Here, Product PP9816W, described as the branch tailpiece measures 8 inches in length. Therefore, the branch tailpiece is properly classified as a fitting rather than a pipe.

HOLDING:

By application of GRIs 1 and 6, we find the Product PP9816W to be properly classified under heading 3917, HTSUS, specifically, in subheading 3917.40.00, HTSUS, which provides for "Tubes, pipes, and hoses and fittings therefor (for example, joints, elbows, flanges), of plastics: Fittings." The duty rate is 5.3 percent *ad valorem*.

Duty rates are provided for your convenience and subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the World Wide Web at www.usitc.gov.

EFFECT ON OTHER RULINGS:

NY N235599, dated December 17, 2012, is hereby MODIFIED.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

PROPOSED MODIFICATION OF ONE RULING LETTER AND MODIFICATION OF TREATMENT RELATING TO THE TARIFF CLASSIFICATION OF JEWELRY CHARMS CONTAINING CUBIC ZIRCONIA STONES

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of proposed modification of one ruling letter and revocation of treatment relating to the tariff classification of jewelry charms containing cubic zirconia stones.

SUMMARY: Pursuant to section 625(c), Tariff Act of 1930 (19 U.S.C. §1625(c)), as amended by section 623 of title VI (Customs Modernization) of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182, 107 Stat. 2057), this notice advises interested parties that U.S. Customs and Border Protection (CBP) intends

to modify one ruling letter concerning tariff classification of jewelry charms containing cubic zirconia stones under the Harmonized Tariff Schedule of the United States (HTSUS). Similarly, CBP intends to revoke any treatment previously accorded by CBP to substantially identical transactions. Comments on the correctness of the proposed actions are invited.

DATES: Comments must be received on or before July 15, 2016.

ADDRESSES: Written comments are to be addressed to the U.S. Customs and Border Protection, Office of International Trade, Regulations and Rulings, Attention: Trade and Commercial Regulations Branch, 90 K St., NE, 10th Floor, Washington, DC 20229–1177. Submitted comments may be inspected at the address stated above during regular business hours. Arrangements to inspect submitted comments should be made in advance by calling Mr. Joseph Clark at (202) 325–0118.

FOR FURTHER INFORMATION CONTACT: Nicholai Diamond, Tariff Classification and Marking Branch, Regulations and Rulings, Office of International Trade, at (202) 325–0292.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On December 8, 1993, Title VI (Customs Modernization), of the North American Free Trade Agreement Implementation Act (Pub. L. 103–182, 107 Stat. 2057) (“Title VI”), became effective. Title VI amended many sections of the Tariff Act of 1930, as amended, and related laws. Two new concepts which emerge from the law are “**informed compliance**” and “**shared responsibility**.” These concepts are premised on the idea that in order to maximize voluntary compliance with customs laws and regulations, the trade community needs to be clearly and completely informed of its legal obligations.

Accordingly, the law imposes a greater obligation on CBP to provide the public with improved information concerning the trade community’s responsibilities and rights under the customs and related laws. In addition, both the public and CBP share responsibility in carrying out import requirements. For example, under section 484 of the Tariff Act of 1930, as amended (19 U.S.C. § 1484), the importer of record is responsible for using reasonable care to enter, classify and value imported merchandise, and to provide any other information necessary to enable CBP to properly assess duties, collect accurate statistics, and determine whether any other applicable legal requirement is met.

Pursuant to section 625(c)(1), Tariff Act of 1930 (19 U.S.C. §1625(c)(1)), as amended by section 623 of Title VI, this notice advises interested parties that CBP is proposing to modify one ruling letter pertaining to the tariff classification of jewelry charms containing cubic zirconia stones. Although in this notice, CBP is specifically referring to New York Ruling Letter (“NY”) N053948, dated April 8, 2009 (Attachment A), this notice covers any rulings on this merchandise which may exist, but have not been specifically identified. CBP has undertaken reasonable efforts to search existing databases for rulings in addition to the one identified. No further rulings have been found. Any party who has received an interpretive ruling or decision (i.e., a ruling letter, internal advice memorandum or decision, or protest review decision) on the merchandise subject to this notice should advise CBP during the notice period.

Similarly, pursuant to section 625(c)(2), Tariff Act of 1930 (19 U.S.C. §1625(c)(2)), as amended by section 623 of Title VI, CBP is proposing to modify any treatment previously accorded by CBP to substantially identical transactions. Any person involved in substantially identical transactions should advise CBP during this notice period. An importer’s failure to advise CBP of substantially identical transactions or of a specific ruling not identified in this notice may raise issues of reasonable care on the part of the importer or its agents for importations of merchandise subsequent to the effective date of the final decision on this notice.

In NY N053948, CBP classified two jewelry charms containing cubic zirconia stones in heading 7117, HTSUS, specifically in subheading 7117.19.90, HTSUS, which provides for “Imitation jewelry: Of base metal, whether or not plated with precious metal: Other: Other: Other.” CBP has reviewed NY N053948 and has determined the ruling letter to be partially in error. It is now CBP’s position that the subject jewelry charms are properly classified, by operation of GRI 1, in heading 7116, HTSUS, specifically in subheading 7116.20.05, HTSUS, which provides for “Articles of natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed): Of precious or semiprecious stones (natural, synthetic or reconstructed): Articles of jewelry: Valued not over \$40 per piece.”

Pursuant to 19 U.S.C. §1625(c)(1), CBP is proposing to modify NY N053948 and to revoke or modify any other ruling not specifically identified to reflect the analysis contained in the proposed Headquarters Ruling Letter (“HQ”) H063616, set forth as Attachment B to this notice. Additionally, pursuant to 19 U.S.C. §1625(c)(2), CBP is proposing to revoke any treatment previously accorded by CBP to substantially identical transactions.

Before taking this action, consideration will be given to any written comments timely received.

CATEGORY: Classification

TARIFF NO.: 7117.19.9000

Ms. MARLENE COLLINS
LIZ CLAIBORNE, INC.
ONE CLAIBORNE AVENUE
NORTH BERGEN, NJ 07047

RE: The tariff classification of jewelry charms from China.

DEAR Ms. COLLINS:

In your letter dated March 9, 2009, you requested a tariff classification ruling. The samples which you submitted are being returned as requested.

Samples have been submitted for three jewelry charms.

Style number YJRU3179 is a one inch long Bat charm composed of brass that is plated with rhodium and palladium. The bat figure features wings ornamented with glass gemstones and one cubic zirconium. The back of the figure is inscribed "bite my couture." The charm has a brass clasp and clip for attaching to the charm bracelet.

Style number YJRU3175 is a Mouse & Cheese charm. The mouse figure is composed of brass plated with a worn rhodium antique finish. The clasp and clip are composed of brass. The charm has a metal base inscribed with the trademark "Juicy Couture". The sculpted cheese form is composed of plastic studded with one glass gemstone and three cubic zirconium gemstones.

Style number YJRU3181 is a cone-shaped Teepee charm measuring 1.25 inches high with a diameter of 1 inch at its widest point. This item is composed of brass that is plated with Ion gold and features a hinged bottom that opens to reveal a small figurine with a tribal headdress. The Teepee charm has brass ornamentation, and a brass clasp and clip for attaching to the charm bracelet. The bottom is inscribed "How Juicy."

Merchandise is classifiable under the HTSUS in accordance with the General Rules of Interpretation (GRIs). GRI 1, HTSUS, provides that classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes. In the event that the goods cannot be classified solely on the basis of GRI 1, HTSUS, and if the headings or notes do not require otherwise, the remaining GRIs 2 through 6, HTSUS, may be applied.

Referring to Note 11 to Chapter 71 of the HTSUS:

"For the purposes of heading 7117, the expression "imitation jewelry" means articles of jewelry within the meaning of paragraph (a) of note 9 above (but not including buttons or other articles of heading 9606, or dress combs, hair slides or the like, or hairpins, of heading 9615), not incorporating natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed) nor (except as plating or as minor constituents) precious metal or metal clad with precious metal."

As style numbers YJRU3179 and YJRU3175 are composed of brass, with only minor constituents of cubic zirconium, we find the classification to be imitation jewelry of base metal. Style YJRU3181 is composed of brass, and is

classified as imitation jewelry of base metal. See HQ 964475 dated May 7, 2001, HQ 961396 dated August 24, 1998, and HQ 557493 dated November 6, 1993, and HQ 088126 dated January 10, 1991.

The applicable subheading for the brass charms, will be 7117.19.9000, Harmonized Tariff Schedule of the United States (HTSUS), which provides for "Imitation jewelry: Of base metal, whether or not plated with precious metal: Other: Other: Other." The rate of duty will be 11% *ad valorem*.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on World Wide Web at <http://www.usitc.gov/tata/hts/>.

This ruling is being issued under the provisions of Part 177 of the Customs Regulations (19 C.F.R. 177).

A copy of the ruling or the control number indicated above should be provided with the entry documents filed at the time this merchandise is imported. If you have any questions regarding the ruling, contact National Import Specialist Neil H. Levy at (646) 733-3036.

Sincerely,

ROBERT B. SWIERUPSKI

Director

National Commodity Specialist Division

NORTH BERGEN, NJ 07047

RE: Modification of NY N053948; classification of jewelry charms containing cubic zirconia stones

DEAR Ms. COLLINS:

This is in response to your letter of April 29, 2009, submitted on behalf of Liz Claiborne, Inc. (“Liz Claiborne”), requesting reconsideration of New York Ruling Letter (NY) N053948, dated April 8, 2009. NY N053948 was issued to Liz Claiborne by U.S. Customs and Border Protection (CBP) in response to Liz Claiborne’s March 5, 2009 letter requesting a ruling as to the proper classification of three types of jewelry charms, two of which contain cubic zirconia stones, under the Harmonized Tariff Schedule of the United States (HTSUS). We have reviewed NY N053948, have determined that it is partially incorrect, and, for the reasons set forth below, are modifying that ruling.

FACTS:

The jewelry charms at issue in NY N053948 were described by CBP, based upon inspection of samples and review of pictures and product specifications, as follows:

Style number YJRU3179 is a one inch long Bat charm composed of brass that is plated with rhodium and palladium. The bat figure features wings ornamented with glass gemstones and one cubic zirconium.¹ The back of the figure is inscribed “bite my couture.” The charm has a brass clasp and clip for attaching to the charm bracelet.

Style number YJRU3175 is a Mouse & Cheese charm. The mouse figure is composed of brass plated with a worn rhodium antique finish. The clasp and clip are composed of brass. The charm has a metal base inscribed with the trademark “Juicy Couture”. The sculpted cheese form is composed of plastic studded with one glass gemstone and three cubic zirconium gemstones.

Style number YJRU3181 is a cone-shaped Teepee charm measuring 1.25 inches high with a diameter of 1 inch at its widest point. This item is composed of brass that is plated with Ion gold and features a hinged bottom that opens to reveal a small figurine with a tribal headdress. The Teepee charm has brass ornamentation, and a brass clasp and clip for attaching to the charm bracelet. The bottom is inscribed “How Juicy.”

¹ The term cubic zirconium, while commonly used, is a misnomer. The substance in reference to which this term is used is actually cubic zirconia, which is the cubic, crystalline form of zirconium dioxide. See RICHARD J. LEWIS, SR., HAWLEY’S CONDENSED CHEMICAL DICTIONARY 1353 (15th ed. 2007) (describing zirconium dioxide).

CBP classified all three types of charms in heading 7117, HTSUS, specifically in subheading 7117.19.90, HTSUS, which provides for “Imitation jewelry: Of base metal, whether or not plated with precious metal: Other: Other: Other.” In its April 29, 2009 letter, Liz Claiborne contends that two of the jewelry charm types, specifically Style Numbers YJRU3179 (“Bat charm”) and YJRU3175 (“Mouse & Cheese charm”), are instead properly classified in heading 7116, HTSUS, specifically subheading 7116.20.05, HTSUS, which provides for “Articles of natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed): Of precious or semiprecious stones (natural, synthetic or reconstructed): Articles of jewelry: Valued not over \$40 per piece.” Liz Claiborne does not contest CBP’s classification of Style Number YJRU3181 (“Teepee charm”) in subheading 7117.19.90, HTSUS.

ISSUE:

Whether the jewelry charms containing cubic zirconia stones are properly classified in heading 7116, HTSUS, as articles of semiprecious stones or in heading 7117, HTSUS, as imitation jewelry.

LAW AND ANALYSIS:

Merchandise imported into the United States is classified under the HTSUS. Tariff classification is governed by the principles set forth in the General Rules of Interpretation (GRIs) and, in the absence of special language or context which requires otherwise, by the Additional U.S. Rules of Interpretation. The GRIs and the Additional U.S. Rules of Interpretation are part of the HTSUS and are to be considered statutory provisions of law for all purposes.

GRI 1 requires that classification be determined first according to the terms of the headings of the tariff schedule and any relative section or chapter notes. In the event that the goods cannot be classified solely on the basis of GRI 1, and if the heading and legal notes do not otherwise require, the remaining GRIs 2 through 6 may then be applied in order.

The Harmonized Commodity Description and Coding System Explanatory Notes (“ENs”) constitute the official interpretation of the Harmonized System at the international level. While neither legally binding nor dispositive, the ENs provide a commentary on the scope of each heading of the HTSUS and are generally indicative of the proper interpretation of these headings. *See* T.D. 89–80, 54 Fed. Reg. 35127, 35128 (August 23, 1989).

The HTSUS provisions under consideration are as follows:

7116 Articles of natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed):

7116.20 Of precious or semiprecious stones (natural, synthetic or reconstructed):

 Articles of jewelry:

7116.20.05 Valued not over \$40 per piece

7117 Imitation jewelry:

 Of base metal, whether or not plated with precious metal:

7117.19 Other:

Other:

7117.19.90

Other

We initially consider whether the subject jewelry charms are *prima facie* classifiable in heading 7116, HTSUS, which provides, *inter alia*, for articles of semiprecious stones. Note 2(b) to Chapter 71 states as follows:

Heading 7116 does not cover articles containing precious metal or metal clad with precious metal (other than as minor constituents).

EN 71.16 states, in relevant part, as follows:

This heading covers all articles (**other than** those **excluded** by Notes 2 (B) and 3 to this Chapter), wholly of natural or cultured pearls, precious or semi-precious stones, or consisting partly of natural or cultured pearls or precious or semi-precious stones, but **not** containing precious metals or metals clad with precious metal (**except** as minor constituents) (see Note 2 (B) to this Chapter).

It thus includes:

- (A) **Articles of personal adornment and other decorated articles** (e.g., clasps and frames for handbags, etc.; combs, brushes; ear-rings; cuff-links, dress-studs and the like) containing natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed), set or mounted on base metal (whether or not plated with precious metal), ivory, wood, plastics, etc.

With respect to the tariff term “semiprecious stone,” EN 71.04 states as follows:

These stones are used for the same purposes as the natural precious or semi-precious stones of the two preceding headings.

(A) **Synthetic precious and semi-precious stones.** This expression covers a range of chemically produced stones which either:

- have essentially the same chemical composition and crystal structure as a particular natural stone (e.g., ruby, sapphire, emerald, industrial diamond, piezo-electric quartz); or
- because of their colour, brilliance, resistance to deterioration, and hardness are used by jewellers, goldsmiths and silversmiths in place of natural precious or semi-precious stones, even if they do not have the same chemical composition and crystal structure as the stones which they resemble, e.g., yttrium aluminium garnet and synthetic cubic zirconia, both of which are used to imitate diamond.

According to the plain language of heading 7116 and the above-cited EN 71.16 excerpt, heading 7116 applies to articles of personal adornment that contain precious or precious stones. The tariff term “semiprecious stone” is not defined in the HTSUS, but EN 71.04 identifies cubic zirconia as an example of such. It is CBP’s position, consistent both with EN 71.04 and with lexicographic sources, that cubic zirconia qualifies as a semiprecious stone for

tariff classification purposes.² See Headquarters Ruling Letter (HQ) H007655, dated September 28, 2007 (citing EN 71.04 and Merriam Webster Dictionary in deeming zirconia a semiprecious stone); HQ 950769, dated December 31, 1991; NY N270890, dated December 3, 2015; and NY N270428, dated November 12, 2015. An article of personal adornment to which at least one cubic zirconia is affixed can therefore be described as a product of heading 7116, HTSUS. See HQ H007655; NY N270890; NY N270428; and NY N264240, dated May 11, 2015 (all of which classify articles containing single cubic zirconia stones in heading 7116).

Here, as stated in NY N053948 and confirmed by the pictures and product specifications enclosed with Liz Claiborne's March 5, 2009 letter, the Bat and Mouse & Cheese charms each contain a cubic zirconia. Moreover, it is undisputed that both charms, while made primarily of base metal, do not contain any precious metal. Therefore, in accordance with the above-cited ENs and CBP precedent, both charms can be described as articles of semiprecious stones within the meaning of heading 7116, HTSUS, and are *prima facie* classifiable there. We note that the Teepee charm, which does not contain a cubic zirconia or any other type of precious or semiprecious stone, is not classifiable in heading 7116, HTSUS.

We next consider whether the subject charms are classifiable in heading 7117, HTSUS, which provides for imitation jewelry. Note 11 to Chapter 71 states as follows:

For the purposes of heading 7117, the expression "imitation jewelry" means articles of jewelry within the meaning of paragraph (a) of note 9 above (but not including buttons or other articles of heading 9606, or dress combs, hair slides or the like, or hairpins, of heading 9615), not incorporating natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed) nor (except as plating or as minor constituents) precious metal or metal clad with precious metal.

EN 71.17 states, in pertinent part, as follows:

For the purposes of this heading, the expression **imitation jewelry**, as defined in Note 11 to this Chapter, is restricted to small objects of personal adornment...**provided** they do not incorporate precious metal or metal clad with precious metal (except as plating or as minor constituents as defined in Note 2 (A) to this Chapter, e.g., monograms, ferrules and rims) nor natural or cultured pearls, precious or semi-precious stones (natural, synthetic or reconstructed).

Pursuant to Note 11 to Chapter 71, as explained in EN 71.17, articles to which one or more precious or semiprecious stones are affixed cannot be described as imitation jewelry within the meaning of heading 7117, HTSUS. It is therefore CBP's position that such articles, including those incorporating cubic zirconia stones, are not classifiable in heading 7117. See HQ H007655 (ruling that necklaces and bracelets containing cubic zirconia stones are

² It is well-established that when a tariff term is not defined by the HTSUS or its legislative history, its correct meaning is its common or commercial meaning, which can be ascertained through reference to "dictionaries, scientific authorities, and other reliable information sources and 'lexicographic and other materials.'" See *Rocknell Fastener, Inc. v. United States*, 267 F.3d 1354 (Fed. Cir. 2001).

excluded from heading 7117 by application of Note 11 to Chapter 71); *see also* HQ 959831, dated April 1, 1997 (“The wax castings with diamonds or precious stones are excluded from classification in heading 7117 by virtue of chapter note 11, since they contain precious stones.”); and NY N125019, dated October 14, 2010 (“By application of Legal Note 11 to Chapter 71, HTSUS, the subject merchandise containing a semi-precious “synthetic gemstone of CZ” is excluded from heading 7117, HTSUS.”).

Here, as discussed above, the Bat and Mouse & Cheese charms at issue each contain a cubic zirconia, which is a semiprecious stone. In effect, they cannot be described as imitation jewelry within the meaning of heading 7117, HTSUS, and are accordingly excluded from the heading. We note that the Teepee charm, which contains a proportionally minor ion gold component but does not contain any precious or semiprecious stones, is properly classified in heading 7117, HTSUS.

HOLDING:

By application of GRI 1, the jewelry charms identified as Style Numbers YJRU3179 and YJRU3175 are properly classified in heading 7116, HTSUS, specifically in subheading 7116.20.0580, HTSUSA (Annotated), which provides for: “Articles of natural or cultured pearls, precious or semiprecious stones (natural, synthetic or reconstructed): Of precious or semiprecious stones (natural, synthetic or reconstructed): Articles of jewelry: Valued not over \$40 per piece: Other.”³ The 2016 column one general rate of duty is 3.3% *ad valorem*.

Duty rates are provided for your convenience and are subject to change. The text of the most recent HTSUS and the accompanying duty rates are provided on the internet at www.usitc.gov/tata/hts/.

EFFECT ON OTHER RULINGS:

New York Ruling Letter N053948, dated April 8, 2009, is hereby MODIFIED as set forth above with respect to classification of the jewelry charms identified as Style Numbers YJRU3179 and YJRU3175, but the classification of the jewelry charm designated Style Number YJRU3181 remains in effect.

Sincerely,

MYLES B. HARMON,

Director

Commercial and Trade Facilitation Division

³ The subject charms are specifically classified in this subheading because they are each valued at less than \$40, as indicated by Liz Claiborne’s submissions.

DISTRIBUTION OF CONTINUED DUMPING AND SUBSIDY OFFSET TO AFFECTED DOMESTIC PRODUCERS

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of intent to distribute offset for Fiscal Year 2016.

SUMMARY: Pursuant to the *Continued Dumping and Subsidy Offset Act of 2000*, this document is U.S. Customs and Border Protection's (CBP) notice of intent to distribute assessed antidumping or countervailing duties (known as the continued dumping and subsidy offset) for Fiscal Year 2016 in connection with countervailing duty orders, antidumping duty orders, or findings under the *Antidumping Act of 1921*. This document provides the instructions for affected domestic producers, or anyone alleging eligibility to receive a distribution, to file certifications to claim a distribution in relation to the listed orders or findings.

DATES: Certifications to obtain a continued dumping and subsidy offset under a particular order or finding must be received by August 1, 2016. Any certification received after August 1, 2016 will be denied, making claimants ineligible for the distribution.

ADDRESSES: Certifications and any other correspondence (whether by mail, or an express or courier service) must be addressed to the Acting Executive Assistant Commissioner, Enterprise Services, U.S. Customs and Border Protection, Revenue Division, Attention: CDSOA Team, 6650 Telecom Drive, Suite 100, Indianapolis, IN, 46278.

FOR FURTHER INFORMATION CONTACT: CDSOA Team, Revenue Division, 6650 Telecom Drive, Suite 100, Indianapolis, IN, 46278; telephone (317) 614-4462.

SUPPLEMENTARY INFORMATION:

Background

The *Continued Dumping and Subsidy Offset Act of 2000* (CDSOA) was enacted on October 28, 2000, as part of the *Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001* (the "Act"). The provisions of the CDSOA are contained in title X (sections 1001-1003) of the Appendix of the Act (H.R. 5426).

The CDSOA amended title VII of the *Tariff Act of 1930* by adding a new section 754 (codified at 19 U.S.C. 1675c) in order to provide that assessed duties received pursuant to a countervailing duty order, an

antidumping duty order, or a finding under the *Antidumping Act of 1921* will be distributed to affected domestic producers for certain qualifying expenditures that these producers incur after the issuance of such an order or finding. The term “affected domestic producer” means any manufacturer, producer, farmer, rancher or worker representative (including associations of such persons) who:

(A) Was a petitioner or interested party in support of a petition with respect to which an antidumping order, a finding under the *Antidumping Act of 1921*, or a countervailing duty order has been entered;

(B) Remains in operation continuing to produce the product covered by the countervailing duty order, the antidumping duty order, or the finding under the *Antidumping Act of 1921*; and

(C) Has not been acquired by another company or business that is related to a company that opposed the antidumping or countervailing duty investigation that led to the order or finding (*e.g.*, opposed the petition or otherwise presented evidence in opposition to the petition).

The distribution that these parties may receive is known as the continued dumping and subsidy offset.

Section 7601(a) of the *Deficit Reduction Act of 2005* repealed 19 U.S.C. 1675c. According to section 7701 of the *Deficit Reduction Act*, the repeal takes effect as if enacted on October 1, 2005. However, section 7601(b) provides that all duties collected on an entry filed before October 1, 2007, must be distributed as if 19 U.S.C. 1675c had not been repealed by section 7601(a). The funds available for distribution were also affected by section 822 of the *Claims Resolution Act of 2010* and section 504 of the *Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010*.

Historically, the antidumping and countervailing duties assessed and received by CBP on CDSOA-subject entries, along with the interest assessed and received on those duties pursuant to 19 U.S.C. 1677g, were transferred to the CDSOA Special Account for distribution (66 FR 48546, Sept. 21, 2001) *see also* 19 CFR 159.64(e). Other types of interest, including delinquency interest that accrued pursuant to 19 U.S.C. 1505(d), equitable interest under common law, and interest under 19 U.S.C. 580, were not subject to distribution. *Id.*

Section 605 of the *Trade Facilitation and Trade Enforcement Act of 2015* (TFTEA) (Pub. L. 114–125, February 24, 2016), provides new authority for CBP to deposit into the CDSOA Special Account for distribution delinquency interest that accrued pursuant to 19 U.S.C. 1505(d), equitable interest under common law, and interest under 19 U.S.C. 580 for payments received on or after October 1, 2014, on CDSOA subject entries if the payment was made by a surety in

connection with a customs bond pursuant to a court order or judgment, or a litigation settlement with the surety, including any payments made during the litigation by the surety with respect to the bond.

Surety payments received from October 1, 2014, through September 30, 2016, for which delinquency, equitable, and 19 U.S.C. 580 interest are subject to distribution under Section 605 of the TFTEA will be deposited into the Special Account during Fiscal Year 2016 for inclusion in the Fiscal Year 2016 distribution. Any domestic producer seeking distribution of interest as provided under Section 605 of the TFTEA for payments received from October 1, 2014, through September 30, 2016, must file a timely Fiscal Year 2016 certification. CBP will utilize the Fiscal Year 2016 certifications to determine each domestic producer's pro-rata share of the assessed duties received during Fiscal Year 2016, the assessed 19 U.S.C. 1677g interest received during Fiscal Year 2016, as well as the interest provided for under Section 605 of the TFTEA for payments received from October 1, 2014, through September 30, 2016.

On February 2, 2015, President Obama ordered the sequester of non-exempt budgetary resources for Fiscal Year 2016 pursuant to section 251A of the *Balanced Budget and Emergency Deficit Control Act of 1985*, as amended (80 FR 6645, February 6, 2015). To implement this sequester during Fiscal Year 2016, the calculation of the Office of Management and Budget (OMB) requires a reduction of 6.8 percent of the assessed duties and interest received in the CDSOA Special Account (account number 015-12-5688). OMB has concluded that any amounts sequestered in the CDSOA Special Account during Fiscal Year 2016 will become available in the subsequent fiscal year. See 2 U.S.C. 906(k)(6). As a result, CBP intends to include the funds that are temporarily reduced via sequester during Fiscal Year 2016 in the continued dumping and subsidy offset for Fiscal Year 2016, which will be distributed not later than 60 days after the first day of Fiscal Year 2017 in accordance with 19 U.S.C. 1675c(c). In other words, the continued dumping and subsidy offset that affected domestic producers receive for Fiscal Year 2016 will include the funds that were temporarily sequestered during Fiscal Year 2016.

Because of the statutory constraints in the assessments of anti-dumping and countervailing duties, as well as the additional time involved when the Government must initiate litigation to collect delinquent antidumping and countervailing duties, the CDSOA distribution process will be continued for an undetermined period. Consequently, the full impact of the CDSOA repeal on amounts available for distribution may be delayed for several years. It should also be

noted that amounts distributed may be subject to recovery as a result of reliquidations, court actions, administrative errors, and other reasons.

List of Orders or Findings and Affected Domestic Producers

It is the responsibility of the U.S. International Trade Commission (USITC) to ascertain and timely forward to CBP a list of the affected domestic producers that are potentially eligible to receive an offset in connection with an order or finding. In this regard, it is noted that USITC has supplied CBP with the list of individual antidumping and countervailing duty cases, and the affected domestic producers associated with each case who are potentially eligible to receive an offset. This list appears at the end of this document.

A significant amount of litigation has challenged various provisions of the CDSOA, including the definition of the term “affected domestic producer.” In two decisions the U.S. Court of Appeals for the Federal Circuit (Federal Circuit) upheld the constitutionality of the support requirement contained in the CDSOA. Specifically, in *SKF USA Inc. v. United States Customs & Border Prot.*, 556 F.3d 1337 (Fed. Cir. 2009), the Federal Circuit held that the CDSOA’s support requirement did not violate either the First or Fifth Amendment. The Supreme Court of the United States denied plaintiff’s petition for certiorari, *SKF USA, Inc. v. United States Customs & Border Prot.*, 560 U.S. 903 (2010). Similarly, in *PS Chez Sidney, L.L.C. v. United States*, 409 Fed. Appx. 327 (Fed. Cir. 2010), the Federal Circuit summarily reversed the U.S. Court of International Trade’s judgment that the support requirement was unconstitutional, allowing only plaintiff’s non-constitutional claims to go forward. See *PS Chez Sidney, L.L.C. v. United States*, 684 F.3d 1374 (Fed. Cir. 2012). Furthermore, in two cases interpreting the CDSOA’s language, the Federal Circuit concluded that a producer who never indicates support for a dumping petition by letter or through questionnaire response, despite the act of otherwise filling out a questionnaire, cannot be an affected domestic producer. *Ashley Furniture Indus. v. United States; Ethan Allen Global, Inc. v. United States*, 734 F.3d 1306 (Fed. Cir. 2013), cert. denied, 135 S. Ct. 72 (2014); *Giorgio Foods, Inc. v. United States et al.*, 785 F.3d 595 (Fed. Cir. 2015).

Domestic producers who are not on the USITC list but believe they nonetheless are eligible for a CDSOA distribution under one or more antidumping and/or countervailing duty cases are required, as are all potential claimants that expressly appear on the list, to properly file their certification(s) within 60 days after this notice is published. Such domestic producers must allege all other bases for eligibility in

their certification(s). CBP will evaluate the merits of such claims in accordance with the relevant statutes, regulations, and decisions. Certifications that are not timely filed within the requisite 60 days and/or that fail to sufficiently establish a basis for eligibility will be summarily denied. Additionally, CBP may not make a final decision regarding a claimant's eligibility to receive funds until certain legal issues which may affect that claimant's eligibility are resolved. In these instances, CBP may withhold an amount of funds corresponding to the claimant's alleged *pro rata* share of funds from distribution pending the resolution of those legal issues.

It should also be noted that the Federal Circuit ruled in *Canadian Lumber Trade Alliance v. United States*, 517 F.3d 1319 (Fed. Cir. 2008), *cert. denied sub nom. United States Steel v. Canadian Lumber Trade Alliance*, 129 S. Ct. 344 (2008), that CBP was not authorized to distribute such antidumping and countervailing duties to the extent they were derived from goods from countries that are parties to the North American Free Trade Agreement (NAFTA). Due to this decision, CBP does not list cases related to NAFTA on the Preliminary Amounts Available report, and no distributions will be issued on these cases.

Regulations Implementing the CDSOA

It is noted that CBP published Treasury Decision (T.D.) 01-68 (Distribution of Continued Dumping and Subsidy Offset to Affected Domestic Producers) in the **Federal Register** (66 FR 48546) on September 21, 2001, which was effective as of that date, in order to implement the CDSOA. The final rule added a new subpart F to part 159 of title 19, Code of Federal Regulations (19 CFR part 159, subpart F (§§ 159.61-159.64)). More specific guidance regarding the filing of certifications is provided in this notice in order to aid affected domestic producers and other domestic producers alleging eligibility ("claimants" or "domestic producers").

Notice of Intent To Distribute Offset

This document announces that CBP intends to distribute to affected domestic producers the assessed antidumping or countervailing duties that are available for distribution in Fiscal Year 2016 in connection with those antidumping duty orders or findings or countervailing duty orders that are listed in this document. All distributions will be issued by paper check to the address provided by the claimants. Section 159.62(a) of title 19, Code of Federal Regulations (19 CFR 159.62(a)) provides that CBP will publish such a notice of intention to distribute assessed duties at least 90 calendar days before the end of a fiscal year. Failure to publish the notice at least 90 calendar days

before the end of the fiscal year will not affect an affected domestic producer's obligation to file a timely certification within 60 days after the notice is published. See *Dixon Ticonderoga v. United States*, 468 F.3d 1353, 1354 (Fed. Cir. 2006).

Certifications; Submission and Content

To obtain a distribution of the offset under a given order or finding, an affected domestic producer (and anyone alleging eligibility to receive a distribution) must submit a certification for each order or finding under which a distribution is sought, to CBP, indicating its desire to receive a distribution. To be eligible to obtain a distribution, certifications must be received by CBP no later than 60 calendar days after the date of publication of this notice of intent to distribute in the **Federal Register**. All certifications not received by the 60th day will not be eligible to receive a distribution.

As required by 19 CFR 159.62(b), this notice provides the case name and number of the order or finding concerned, as well as the specific instructions for filing a certification under § 159.63 to claim a distribution. Section 159.62(b) also provides that the dollar amounts subject to distribution that are contained in the Special Account for each listed order or finding are to appear in this notice. However, these dollar amounts were not available in time for inclusion in this publication. The preliminary amounts will be posted on the CBP Web site (<http://www.cbp.gov>). However, the final amounts available for disbursement may be higher or lower than the preliminary amounts.

CBP will provide general information to claimants regarding the preparation of certification(s). However, it remains the sole responsibility of the domestic producer to ensure that the certification is correct, complete, and accurate so as to demonstrate the eligibility of the domestic producer for the distribution requested. Failure to ensure that the certification is correct, complete, and accurate as provided in this notice will result in the domestic producer not receiving a distribution and/or a demand for the return of funds.

Specifically, to obtain a distribution of the offset under a given order or finding, each potential claimant must timely submit a certification containing the required information detailed below as to the eligibility of the domestic producer (or anyone alleging eligibility) to receive the requested distribution and the total amount of the distribution that the domestic producer is claiming. Certifications should be submitted to the Acting Executive Assistant Commissioner, Enterprise Services, U.S. Customs and Border Protection, Revenue Division, Attention: CDSOA Team, 6650 Telecom Drive, Suite 100, Indianapolis, IN, 46278. The certification must enumerate the qualifying expenditures incurred by the domestic producer since the issuance of an

order or finding and it must demonstrate that the domestic producer is eligible to receive a distribution as an affected domestic producer or allege another basis for eligibility. Any false statements made in connection with certifications submitted to CBP may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

A successor to a company that was an affected domestic producer at the time of acquisition should consult 19 CFR 159.61(b)(1)(i). Any company that files a certification claiming to be the successor company to an affected domestic producer will be deemed to have consented to joint and several liability for the return of any overpayments arising under § 159.64(c)(3) that were previously paid to the predecessor. CBP may require the successor company to provide documents to support its eligibility to receive a distribution as set out in § 159.63(d). Additionally, any individual or company who purchases any portion of the operating assets of an affected domestic producer, a successor to an affected domestic producer, or an entity that otherwise previously received distributions may be jointly and severally liable for the return of any overpayments arising under § 159.64(c)(3) that were previously paid to the entity from which the operating assets were purchased or its predecessor, regardless of whether the purchasing individual or company is deemed a successor company for purposes of receiving distributions.

A member company (or its successor) of an association that appears on the list of affected domestic producers in this notice, where the member company itself does not appear on this list, should consult 19 CFR 159.61(b)(1)(ii). Specifically, for a certification under 19 CFR 159.61(b)(1)(ii), the claimant must name the association of which it is a member, specifically establish that it was a member of the association at the time the association filed the petition with the USITC, and establish that the claimant is a current member of the association. In order to promote accurate filings and more efficiently process the distributions, we offer the following guidance:

- If claimants are members of an association but the association does not file on their behalf, its association will need to provide its members with a statement that contains notarized company-specific information including dates of membership and an original signature from an authorized representative of the association.

- An association filing a certification on behalf of a member must also provide a power of attorney or other evidence of legal authorization from each of the domestic producers it is representing.
- Any association filing a certification on behalf of a member is responsible for verifying the legal sufficiency and accuracy of the member's financial records, which support the claim, and is responsible for that certification. As such, an association filing a certification on behalf of a member is jointly and severally liable with the member for repayment of any claim found to have been paid or overpaid in error.

The association may file a certification in its own right to claim an offset for that order or finding, but its qualifying expenditures would be limited to those expenditures that the association itself has incurred after the date of the order or finding in connection with the particular case.

As provided in 19 CFR 159.63(a), certifications to obtain a distribution of an offset must be received by CBP no later than 60 calendar days after the date of publication of the notice of intent in the **Federal Register**. All certifications received after the 60-day deadline will be summarily denied, making claimants ineligible for the distribution regardless of whether or not they appeared on the USITC list.

A list of all certifications received will be published on the CBP Web site (<http://www.cbp.gov>) shortly after the receipt deadline. This publication will not confirm acceptance or validity of the certification, but merely receipt of the certification. Due to the high volume of certifications, CBP is unable to respond to individual telephone or written inquiries regarding the status of a certification appearing on the list.

While there is no required format for a certification, CBP has developed a standard certification form to aid claimants in filing certifications. The certification form is available at <https://www.pay.gov> under the Public Form Name "Continued Dumping and Subsidy Offset Act of 2000 Certification" (CBP Form Number 7401) or by directing a web browser to <https://www.pay.gov/paygov/forms/formInstance.html?agencyFormId=8776895>. The certification form can be submitted electronically through <https://www.pay.gov> or by mail. All certifications not submitted electronically must include original signatures. Regardless of the format for a certification, per 19 CFR 159.63(b), the certification must contain the following information:

- (1) The date of this **Federal Register** notice;
- (2) The Commerce case number;

- (3) The case name (producer/country);
- (4) The name of the domestic producer and any name qualifier, if applicable (for example, any other name under which the domestic producer does business or is also known);
- (5) The mailing address of the domestic producer (if a post office box, the physical street address must also appear) including, if applicable, a specific room number or department;
- (6) The Internal Revenue Service (IRS) number (with suffix) of the domestic producer, employer identification number, or social security number, as applicable;
- (7) The specific business organization of the domestic producer (corporation, partnership, sole proprietorship);
- (8) The name(s) of any individual(s) designated by the domestic producer as the contact person(s) concerning the certification, together with the phone number(s), mailing address, and, if available, facsimile transmission number(s) and electronic mail (email) address(es) for the person(s). Correspondence from CBP may be directed to the designated contact(s) by either mail or phone or both;
- (9) The total dollar amount claimed;
- (10) The dollar amount claimed by category, as described in the section below entitled "Amount Claimed for Distribution";
- (11) A statement of eligibility, as described in the section below entitled "Eligibility to Receive Distribution"; and
- (12) For certifications not submitted electronically through *https://www.pay.gov*, an original signature by an individual legally authorized to bind the producer.

Qualifying Expenditures That May Be Claimed for Distribution

Qualifying expenditures that may be offset under the CDSOA encompass those expenditures incurred by the domestic producer after issuance of an antidumping duty order or finding or a countervailing duty order, and prior to its termination, provided that such expenditures fall within certain categories. The CDSOA repeal language parallels the termination of an order or finding. Therefore, for duty orders or findings that have not been previously revoked, expenses must be incurred before October 1, 2007, to be eligible for offset. For duty orders or findings that have been revoked, expenses must be incurred before the effective date of the revocation to be eligible for offset. For example, assume for case A-331-802 certain frozen warm-water shrimp and prawns from Ecuador, that the order date is February 1, 2005, and that the revocation effective date is August 15, 2007. In this case, eligible expenditures would have to be incurred between February 1, 2005, and August 15, 2007.

For the convenience and ease of the domestic producers, CBP is providing guidance on what the agency takes into consideration when making a calculation for each of the following categories:

(1) Manufacturing facilities (Any facility used for the transformation of raw material into a finished product that is the subject of the related order or finding);

(2) Equipment (Goods that are used in a business environment to aid in the manufacturing of a product that is the subject of the related order or finding);

(3) Research and development (Seeking knowledge and determining the best techniques for production of the product that is the subject of the related order or finding);

(4) Personnel training (Teaching of specific useful skills to personnel, that will improve performance in the production process of the product that is the subject of the related order or finding);

(5) Acquisition of technology (Acquisition of applied scientific knowledge and materials to achieve an objective in the production process of the product that is the subject of the related order or finding);

(6) Health care benefits for employees paid for by the employer (Health care benefits paid to employees who are producing the specific product that is the subject of the related order or finding);

(7) Pension benefits for employees paid for by the employer (Pension benefits paid to employees who are producing the specific product that is the subject of the related order or finding);

(8) Environmental equipment, training, or technology (Equipment, training, or technology used in the production of the product that is the subject of the related order or finding, that will assist in preventing potentially harmful factors from affecting the environment);

(9) Acquisition of raw materials and other inputs (Purchase of unprocessed materials or other inputs needed for the production of the product that is the subject of the related order or finding); and

(10) Working capital or other funds needed to maintain production (Assets of a business that can be applied to its production of the product that is the subject of the related order or finding).

Amount Claimed for Distribution

In calculating the amount of the distribution being claimed as an offset, the certification must indicate:

(1) The total amount of any qualifying expenditures previously certified by the domestic producer, and the amount certified by category;

(2) The total amount of those expenditures which have been the subject of any prior distribution for the order or finding being certified under 19 U.S.C. 1675c; and

(3) The net amount for new and remaining qualifying expenditures being claimed in the current certification (the total amount previously certified as noted in item “(1)” above minus the total amount that was the subject of any prior distribution as noted in item “(2)” above). In accordance with 19 CFR 159.63(b)(2)(i)–(iii), CBP will deduct the amount of any prior distribution from the producer’s claimed amount for that case. Total amounts disbursed by CBP under the CDSOA for some prior Fiscal Years are available on the CBP Web site.

Additionally, under 19 CFR 159.61(c), these qualifying expenditures must be related to the production of the same product that is the subject of the order or finding, with the exception of expenses incurred by associations which must be related to a specific case. Any false statements made to CBP concerning the amount of distribution being claimed as an offset may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

Eligibility To Receive Distribution

As noted, the certification must contain a statement that the domestic producer desires to receive a distribution and is eligible to receive the distribution as an affected domestic producer or on another legal basis. Also, the domestic producer must affirm that the net amount certified for distribution does not encompass any qualifying expenditures for which distribution has previously been made (19 CFR 159.63(b)(3)(i)). Any false statements made in connection with certifications submitted to CBP may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

Furthermore, under 19 CFR 159.63(b)(3)(ii), where a domestic producer files a separate certification for more than one order or finding using the same qualifying expenditures as the basis for distribution in each case, each certification must list all the other orders or findings where the producer is claiming the same qualifying expenditures.

Moreover, as required by 19 U.S.C. 1675c(b)(1) and 19 CFR 159.63(b)(3)(iii), the certification must include information as to whether the domestic producer remains in operation at the time the certifications are filed and continues to produce the product covered by the particular order or finding under which the distribution is sought. If a domestic producer is no longer in operation, or no longer

produces the product covered by the order or finding, the producer will not be considered an affected domestic producer entitled to receive a distribution.

In addition, as required by 19 U.S.C. 1675c(b)(5) and 19 CFR 159.63(b)(3)(iii), the domestic producer must state whether it has been acquired by a company that opposed the investigation or was acquired by a business related to a company that opposed the investigation. If a domestic producer has been so acquired, the producer will not be considered an affected domestic producer entitled to receive a distribution. However, CBP may not make a final decision regarding a claimant's eligibility to receive funds until certain legal issues which may affect that claimant's eligibility are resolved. In these instances, CBP may withhold an amount of funds corresponding to the claimant's alleged *pro rata* share of funds from distribution pending the resolution of those legal issues.

The certification must be executed and dated by a party legally authorized to bind the domestic producer and it must state that the information contained in the certification is true and accurate to the best of the certifier's knowledge and belief under penalty of law, and that the domestic producer has records to support the qualifying expenditures being claimed (see section below entitled "Verification of Certification"). Moreover as provided in 19 CFR 159.64(b)(3), overpayments to affected domestic producers are recoverable by CBP and CBP reserves the right to use all available collection tools to recover overpayments, including but not limited to garnishments, court orders, administrative offset, enrollment in the Treasury Offset Program, and/or offset of tax refund payments. Overpayments may occur for a variety of reasons such as reliquidations, court actions, settlements, insufficient verification of a certification in response to an inquiry from CBP, and administrative errors. With diminished amounts available over time, the likelihood that these events will require the recovery of funds previously distributed will increase. As a result, domestic producers who receive distributions under the CDSOA may wish to set aside any funds received in case it is subsequently determined that an overpayment has occurred. CBP considers the submission of a certification and the negotiation of any distribution checks received as acknowledgements and acceptance of the claimant's obligation to return those funds upon demand.

Review and Correction of Certification

A certification that is submitted in response to this notice of intent to distribute and received within 60 calendar days after the date of publication of the notice in the **Federal Register** may, at CBP's sole discretion, be subject to review before acceptance to ensure that all

informational requirements are complied with and that any amounts set forth in the certification for qualifying expenditures, including the amount claimed for distribution, appear to be correct. A certification that is found to be materially incorrect or incomplete will be returned to the domestic producer within 15 business days after the close of the 60 calendar-day filing period, as provided in 19 CFR 159.63(c). In making this determination, CBP will not speculate as to the reason for the error (*e.g.*, intentional, typographical, etc.). CBP must receive a corrected certification from the domestic producer and/or an association filing on behalf of an association member within 10 business days from the date of the original denial letter. Failure to receive a corrected certification within 10 business days will result in denial of the certification at issue. It is the sole responsibility of the domestic producer to ensure that the certification is correct, complete, and accurate so as to demonstrate the eligibility of the domestic producer to the distribution requested. Failure to ensure that the certification is correct, complete, and accurate will result in the domestic producer not receiving a distribution and/or a demand for the return of funds.

Verification of Certification

Certifications are subject to CBP's verification. The burden remains on each claimant to fully substantiate all elements of its certification. As such, claimants may be required to provide copies of additional records for further review by CBP. Therefore, parties are required to maintain, and be prepared to produce, records adequately supporting their claims for a period of five years after the filing of the certification (19 CFR 159.63(d)). The records must demonstrate that each qualifying expenditure enumerated in the certification was actually incurred, and they must support how the qualifying expenditures are determined to be related to the production of the product covered by the order or finding. Although CBP will accept comments and information from the public and other domestic producers, CBP retains complete discretion regarding the initiation and conduct of investigations stemming from such information. In the event that a distribution is made to a domestic producer from whom CBP later seeks verification of the certification and sufficient supporting documentation is not provided as determined by CBP, then the amounts paid to the affected domestic producer are recoverable by CBP as an overpayment. CBP reserves the right to use all available collection tools to recover overpayments, including but not limited to garnishments, court orders, administrative offset, enrollment in the Treasury Offset Program, and/or offset of tax refund payments. CBP considers the submission of a certification and the negotiation of any distribution checks received as acknowledgements and acceptance of the claim-

ant's obligation to return those funds upon demand. Additionally, the submission of false statements, documents, or records in connection with a certification or verification of a certification may give rise to liability under the *False Claims Act* (see 31 U.S.C. 3729–3733) and/or to criminal prosecution.

Disclosure of Information in Certifications; Acceptance by Producer

The name of the claimant, the total dollar amount claimed by the party on the certification, as well as the total dollar amount that CBP actually disburses to that affected domestic producer as an offset, will be available for disclosure to the public, as specified in 19 CFR 159.63(e). To this extent, the submission of the certification is construed as an understanding and acceptance on the part of the domestic producer that this information will be disclosed to the public and a waiver of any right to privacy or non-disclosure. Additionally, a statement in a certification that this information is proprietary and exempt from disclosure may result in CBP's rejection of the certification.

List of Orders or Findings and Related Domestic Producers

The list of individual antidumping duty orders or findings and countervailing duty orders is set forth below together with the affected domestic producers associated with each order or finding who are potentially eligible to receive an offset. Those domestic producers not on the list must allege another basis for eligibility in their certification. Appearance of a domestic producer on the list is not a guarantee of distribution.

Dated: May 23, 2016.
