COMMERCIAL CUSTOMS OPERATIONS  
ADVISORY COMMITTEE

# ADVISORY COMMITTEE ON COMMERCIAL OPERATIONS TO CUSTOMS AND BORDER PROTECTION

## One U.S. Government at the Border Subcommittee Executive Summary – Trade Progress Report November 2016

### 1. Background:

The Advisory Committee on Commercial Operations of Customs and Border Protection (COAC) determined to carry on the work from the 12<sup>th</sup> and 13<sup>th</sup> Term COAC One US Government at the Border Subcommittee. The Mission of the Subcommittee is to implement the January 15, 2013 COAC 12<sup>th</sup> Term Recommendation:

*That CBP pursue interagency partnership programs following the principles and standards set forth in the One US Government Master Principles Document and progress toward completion can be measured via CBP reporting quarterly back to COAC on progress being made to implement programs that align with these principles, principally through the Border Interagency Executive Council (BIEC).*

**Trade chairs:** Susie Hoeger and Amy Magnus

**Government:** Tasha Reid-Hippolyte, Acting Executive Director, Trade Policy and Programs, Office of Trade; Debbie Augustin, Acting Executive Director, ACE Business Office, Office of Trade

### Outline of Work

The Subcommittee continued its work in promoting the One USG Master Principles document through the North American Single Window Working Group.

### 2. Summary of Work

#### North American Single Window Working Group

The North American Single Window Working Group (NASW WG) consists of importers, filers, software vendors, Canadian and Mexican trade partners, and CBP representatives. In April, the WG drafted a revised vision statement:

*Streamlining Imports and Exports in North America: A Single Window Approach*

*As Canada, Mexico and the United States advance their respective Single Windows, we commit to align our approaches in order to streamline processes and requirements to the greatest extent possible to foster fair and competitive trade in North America.*

The expected goals/benefits of a North American Single Window include:

- *Increasing trade and economic growth by aligning and simplifying Canadian, Mexican and United States import and export reporting processes which reduces the costs of doing business among the region.*
- *Facilitating compliance with and enforcement of trade requirements among Canada, Mexico and the United States.*

- *Minimizing the requirement for paper forms in the import and export process by allowing commercial traders to electronically submit information to comply with Customs and other government regulations for border-related decisions in the region.*
- *Promoting transparency and process predictability.*

After having completed various mapping exercises and continued discussions, the NASW WG met for two days to review the maps. Based on their reviews, the group drafted 13 recommendations which will be presented at the November 2016 COAC.

### **Other Work**

The subcommittee has continued to collect trade feedback on the ACE implementation, which will be summarized and presented in the committee's public remarks. The subcommittee will be making a recommendation requesting that CBP and the PGAs lock down and publish the final mandatory filing dates, including APHIS Core, as soon as possible.

### **2. Next Steps**

1USG will continue to monitor CBP, PGA, and trade readiness as the ACE rollout continues, and will provide feedback to CBP and make recommendations as appropriate.

We conclude by reiterating our previous statement:

*It is imperative that the trade community and government agencies establish mutual understanding for the future of data exchange, engagement expectations and cooperate to achieve the appropriate risk based mitigation standards that secure cargo movement and facilitate trade at the speed of business.*
