

## CBP seizes over \$20 million in counterfeit goods during operations in July, August, and September

In four operations in the fourth quarter of FY 2016, U.S. Customs and Border Protection (CBP) seized:

- **948** shipments of counterfeit goods
- An estimated manufacturer's suggested retail price of over **\$20 million** in counterfeit goods

The operations were led by CBP's Mobile Intellectual Property Rights Enforcement Team (MIPET) that works on the front lines to prevent counterfeit goods from entering the United States. MIPET is a special task of top Intellectual Property Rights (IPR) enforcement experts that include CBP officers, import specialists, international trade specialists, and paralegal specialists from a variety of offices within the agency. Among the offices: Apparel, Footwear, and Textile; Automotive and Aerospace; Consumer Products and Mass Merchandising; Electronics; Machinery; and Pharmaceutical Centers of Excellence and Expertise; and the IPR National Targeting and Analysis Group.

In July, Operation Spring Fake II, was conducted at the express consignment facility in Cincinnati and focused on seizing IPR-violative apparel and footwear.

In August, Operation Summer Breeze II at the International Mail Facility in Chicago focused on handbags, watches, sunglasses, apparel, and footwear.

*If you are aware of, or suspect, a company or individual of infringing upon a trademark or copyright, please report the suspected violation to [e-Allegations Online Trade Violation Reporting System](#) or by calling 1-800-BE-ALERT.*

The enforcement of IPR is a CBP [priority trade issue \(PTI\)](#). These are high-risk areas that can cause significant revenue loss, harm the United States economy, or threaten the health and safety of the American people.
