MANAGEMENT SUMMARY/ABSTRACT

Client: U.S. Customs and Border Protection, U.S. Border Patrol

Land Status: Federal lands managed by the U.S. Customs and Border Protection

Project Title: A Cultural Resources Survey of Fourteen Miles of Existing Primary Border Fence in the San Diego Border Infrastructure System, San Diego County, California

Project Description: At the request of U.S. Customs and Border Protection (CBP), Northland Research, Inc. (Northland) conducted an archaeological survey of the 60-foot wide Roosevelt Reservation along 14 miles of the United States-Mexico International Border on lands administered by the CBP. Northland has completed the cultural resources survey and records review of the APE in advance of a proposed undertaking that will involve the removal and replacement of an estimated 14 miles of existing primary landing mat border fence with a taller bollard wall.

Project Location: The project area is in the southwestern corner of San Diego County, and follows the United States-Mexico International Border. Specifically, the APE is located in Township 18 South, Range 1 West, Sections 32 and 33; Township 19 South, Range 1 East, Section 6; Township 19 South, Range 1 West, Sections 1–6; Township 19 South, Range 2 West, Sections 1, 2, and 7–11 on the Imperial Beach OEW, Imperial Beach, and Otay Mesa USGS 7.5 minute quadrangles. The entire survey was conducted within the Roosevelt Reservation.

Number of Acres: 101.8

Previously Recorded Sites: 15

Newly Recorded Sites: None

Comments: Northland has completed an archaeological field survey and viewshed evaluation for the San Diego Border Fence Replacement APE in advance of an undertaking that will replace approximately 14 miles of existing primary border fence in the San Diego Border Infrastructure System with a new, taller bollard wall. The field work was completed at the request of the Department of Homeland Security and U.S. Customs and Border Protection as part of their commitment to continue to protect valuable natural and cultural resources through responsible environmental stewardship.

The Cultural Resources Survey

has been

redacted from public review

to protect identified cultural resources at the site.
