License and License Exemption Type Codes

Report a License or License Exemption Type Code in a commodity filing.

The License Code/License Exemption Code indicates the type of export license, export permit, license exemption, license exception or other export authorization. The code indicates the type of licensing requirements that apply to the export shipment as determined by various government agencies participating in AES. An Export License Number, CFR Citation Number or other authorization symbol is required. An Export Control Classification Number (ECCN) may conditionally be required.

Each Line Item Detail grouping reported must cite the license authority (License Number or other authorization symbol). An ECCN must be cited when required.

The ECCN, when reported in AES must be a valid 5 - position ECCN as listed on the Commerce Control List. See Supplement 1 to § 774 of the EAR for a complete list of valid ECCNs and their descriptions.

www.access.gpo.gov/bis/ear/ear_data.html

An example would be if the Bureau of Industry and Security (BIS) license code 'C43', Gift Parcels and Humanitarian Donations (GFT), is reported then the only acceptable Export Information Code (EIC) would be 'UG' which identifies a single gift parcel as encompassed by BIS General License GFT. Certain Modes of Transportation may not be acceptable for a shipment based on the License Code reported. Using the example above, AES would not accept a License Code of 'C43' with a Mode of Transportation of '70' (Fixed Transport).

Table A: Department of Commerce/Bureau of Industry and Security (BIS) License Type Codes.
