Border Protection

APPENDIX X –HTS/Schedule B Codes for PGAs**AMS – Agricultural Marketing Service**

The AMS issues export permits for export shipments of fresh grape or fresh apple shipments. The below Harmonized Tariff Schedule (HTS) and Schedule B require these permit numbers to be include on the Electronic Export Information (EEI).

Grapes

0806.10.0010

0806.10.0050

Apples

0808.10.0010

0808.10.0050

0808.10.0045

0808.10.0065

APPENDIX X –HTS/Schedule B Codes for PGAs**ATF – Alcohol Tobacco and Firearms and Explosives**

ATF issues export permits (ATF Form 9) for machineguns, silencers, short barreled rifles, short barreled shotguns, destructive devices, and a class of miscellaneous firearms defined by the National Firearms Act as “any other weapons.” ATF does not issue export permits for conventional pistols, revolvers, rifles or shotguns. The Harmonized Tariff Schedule (HTS) and Schedule B codes are not unique for these ATF regulated commodities and therefore no HTS or Schedule B will require the ATF data. The ATF data elements are required for an export shipment when a Federal Firearms License (FFL) and/or permit (ATF Form 9) are required.

APPENDIX X –HTS/Schedule B Codes for PGAs**DEA – Drug Enforcement Administration**

The DEA issues export permits (DEA-36) for certain controlled substances and requires an advance notification for the exports of controlled substances (DEA-236) that do not require a DEA-36. The DEA also requires an advance notification for the export of all listed chemicals (DEA-486) unless there's a regulatory exception for the listed chemical. The DEA data elements are required when a DEA permit has been issued or advance notification is required. The DEA has provided a mapping of valid Harmonized Tariff Schedule (HTS) and Schedule B codes (**Master DEA Drug Code-HTS-Schedule B Reference Table.xlsx – can be found using this link: <https://www.cbp.gov/document/guidance/ace-aestir-appendix-x-hts-codes-pgas>**) to its Drug and Chemical codes but as the HTS and Schedule B codes are not unique for only DEA regulated substances they are not required based on the HTS or Schedule B on the shipment.

APPENDIX X –HTS/Schedule B Codes for PGAs**EPA – Environmental Protection Agency**

The EPA issue export consent letters on hazardous waste shipments. These consent letters act as permits to allow the export of hazmat shipments of waste. EPA has identified the following codes that will require the additional EPA data elements. There are more commodities or valid Harmonized Tariff Schedule (HTS) and Schedule B codes that can require the EPA data than these identified below, but the HTS or Schedule B is not unique to EPA commodities.

APPENDIX X –HTS/Schedule B Codes for PGAs
FWS – Fish & Wildlife Service

The FWS issues an export eDecs confirmation number for shipments consisting of regulated wildlife commodities. FWS has broken the HTS and Schedule B into four categories. Three of the four categories mandate FWS data. The first category includes tariff codes in which the commodities contain animals or animal products, but the classification is not detailed enough to make a determination on filing the FWS eDecs confirmation number. These tariff codes are flagged in the FWS Tariff Reference Table as N1-12 and Y1-11. The second category contains commodities in which the classification description identifies both animal and non-animal, but is likely to contain wildlife. For this category, the trade will provide either an exemption code or the eDec confirmation number (DEC/EDS). The third category also contains commodities in which the classification description identifies both animal and non-animal, but is unlikely to contain wildlife. For this category, the trade will provide an eDec confirmation number for any shipments containing wildlife (EDS/NDS). The final category includes tariff codes that automatically require the submission of an eDec confirmation number (EDS). All codes for FWS are posted in the Master FWS Schedule B Tables.
