Section 321: Entry Type 86 Information Notice

Last Updated: August 21, 2019

On **September 28, 2019**, U.S. Customs and Border Protection (CBP) will deploy the new Entry Type 86 for entry of Section 321 low-valued shipments through ACE. This new entry type will improve import safety and security by providing greater visibility into low value shipments. Please note that this new entry type is a test and is not mandatory for users.

What will change in ACE?

- Trade users will benefit from this enhancement by being able to transmit low-valued shipment data using entry type 86 transaction, including importer and/or consignee information via the Automated Broker Interface (ABI) and receive electronic release messages from CBP for these low value shipments.
- Entry type 86 will be available for CBP and trade users to review via ACE Reports.
- This new entry type will allow one bill per entry.
- This will allow for an entry to be filed with PGA data for a shipment of \$800 or less.

Who will be impacted?

- Customs Brokers and ABI Self Filers

What additional resources are available?

- **Technical Documentation:**
 - A draft [Cargo Release CATAIR](#) has been posted.
- **Policy:**
 - Using Entry type 86 to obtain release of low-valued Section 321 shipments is only a test. It is not mandatory.
 - All current Section 321 clearance processes remain in effect.
 - A Test Notice was published in the Federal Register on August 13, 2019.
- **Deployment Support Calls, 2pm-3pm:**
 - Thursday 9/26/19
 - Friday 9/27/19
 - Monday 9/30/19
 - Tuesday 10/1/19

Who do I contact if I have issues?

Additional details regarding the new Entry Type 86 can be found in the FRN. Technical questions about the new entry Type 86 functionality can be addressed by a Client Representative or the ACE Account Service Desk (ASD) at 1-866-530-4172 or ACE.Support@cbp.dhs.gov.
