# Statement Update – Introduction

The statement update transaction allows a filer to change the method of payment for an entry summary from a statement payment to a single payment, to move an entry summary to a future day's statement, or to delete an entry summary from an unpaid preliminary daily statement. It allows the payment type indicator, preliminary statement print date, and the periodic statement month to be changed after the preliminary daily statement has been issued, but has not been paid.

The statement update transaction may be used for entry summaries designated for either daily or periodic daily statements.

**Input:** Record Identifier H is a mandatory input record that allows filers to change statement intent information for an entry summary. Multiple H records can be sent with the same port/filer codes within a B-Y block.

The application identifier on Record Identifier B is SU. For additional information on Record Identifier B, refer to the ABI Batch & Block Control chapter of this publication.

**NOTE:** Record Identifier B, DDPP must match the Record Identifier B, DDPP sent for the AE transaction. P11-Error condition will be returned when The “B” records DDPP do not match in the SU and AE.

**Output:** Record Identifier H1 is a mandatory output record that provides entry summary details concerning the statement intent.

Record Identifier H2 is a mandatory output record that provides error or acceptance messages for the input data.

Record Identifier H3 is a conditional output record that provides data concerning an entry summary deleted from a statement and the change in the total amount due on a statement.

The application identifier on Record Identifier B is SQ. For additional information on Record Identifier B, refer to the ABI Batch & Block Control chapter of this publication.

Record Layout Key: Please refer to ACE ABI CATAIR Appendix Q for a description of the contents of each column of the record layouts.

## Input Record Structure Map

The following table illustrates how repeating groups are to be structured and submitted in a proprietary format Statement Update transaction to ACE.

Control		Loop	
ID	Name	Designation	Repeat
	<b>Statement Update</b>	<b>M</b>	<b>9999</b>
<b>H</b>	Statement Update Input	M	

Designation: **M** = Reporting Mandatory; **C** = Reporting Conditional; **O** = Reporting Optional

## Record Identifier H (Input)

This is an input transaction record that provides data pertaining to the district/port code, entry filer code, entry number, payment type indicator, preliminary statement print date, client branch designation and periodic statement month. Submission of multiple 'H' input records are allowed.

<b>Record Identifier H (Input)</b>					
<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig.</b>	<b>Description</b>	<b>Note</b>
Control Identifier	1A	1	M	Must always equal H.	
District/Port of Entry Summary	4N	2-5	M	A code representing the district/port of entry summary. Valid district/port codes are available through the ACE portal.	
Entry Filer Code	3AN	6-8	M	A unique code assigned by CBP to all active entry document preparers. The Entry Filer Code occupies the first three positions of a CBP entry number regardless of where the entry is filed. The Entry Filer code must be the same as the Entry Filer Code in the block control header record (Record Identifier B).	
Filler	2S	9-10	M	Space fill.	
Entry Number	8AN	11-18	M	The number assigned to the entry. For additional information on valid entry number formats, refer to the AE Table-1, Check Digit Computation, in the Entry Summary Create/Update section of this publication.	
Payment Type Indicator	1N	19	M	A code representing the payment type indicator.	1, 2

<b>Record Identifier H (Input)</b>					
<b>Data Element</b>	<b>Length/ Class</b>	<b>Position</b>	<b>Desig.</b>	<b>Description</b>	<b>Note</b>
Preliminary Statement Print Date	6D or 6S	20-25	C	<p>This field is the date selected for this entry summary to appear on the Preliminary Daily Statement. It must be greater than the current date and it cannot be a Saturday, Sunday, or holiday. It may be prior to the date on which the statement will be paid. Transmitting a Preliminary Statement Print Date that allows timely filing and payment of the statement is the filer's responsibility. A Preliminary Statement Print Date of 90 days greater than the system date will be rejected.</p> <p>Enter the Preliminary Statement Print Date in MMDDYY (month, day, and year) format when the Payment Type Indicator - 2, 3, 5, 6, 7, or 8.</p> <p>Space fill this data field when the Payment Type Indicator = 1</p>	
Client Branch Designation	2AN	26-27	C	A code that allows a filer to designate separate statements for individual branches within the same port code.	

<b>Record Identifier H (Input)</b>					
Periodic Statement Month	2N	28-29	C	The numeric month (MM) when the entry summary will appear on the preliminary Periodic Monthly Statement. Ex: The merchandise was entered or released in the month of June, then this field will be entered as 07 (July)	
Filler	51S	30-80	M	Space fill.	

## **Note 1**

Valid Payment Type Indicator Codes are:

### **Code Description**

- 1** If payment of the entry summary is to be made for the entry summary transaction on an individual basis.
- 2** If payments are to be batched by preliminary statement print date and entry filer code. (Daily Statement)
- 3** If payments are to be batched by preliminary statement print date and importer of record number (account number). (Daily Statement)
- 5** If payments are to be batched by preliminary statement print date and importer of record number for an importer with several subdivisions (suffixes). (Daily Statement)
- 6** If payments are to be batched by preliminary periodic daily statement print date and entry filer code. (Periodic Monthly Statement)
- 7** If payments are to be batched by preliminary periodic daily statement print date and importer of record number (account number). (Periodic Monthly Statement)
- 8** If payments are to be batched by preliminary periodic daily statement print date and importer of record for an importer with several subdivisions (suffixes). (Periodic Monthly Statement)

## **NOTE 2**

ACE entry summaries must be paid via statement processing or single pay. For single pay, the trade must submit documentation when entries are taken off of statement for single pay. Please refer to ACE Summary Business Rules, section 2.2.2 for documentation requirements.

## Output Record Structure Map
