## **RE: Comment Period Extended for Cochise, Pima, and Santa Cruz Counties Border Barrier Projects**

To Whom It May Concern:

U.S. Customs and Border Protection (CBP) is extending the deadline for public input concerning new border barrier projects in Cochise, Pima, and Santa Cruz Counties, Arizona from April 15, 2020 to Friday, May 15, 2020.

Given the current schedules for some projects, the comment period may extend into pre-construction activities and border wall construction. All comments received will continue to be taken into consideration and will be used in CBP's evaluation of environmental and cultural impacts and will be used to identify measures that avoid or minimize impacts to the greatest extent possible throughout the duration of each project.

CBP is constructing approximately 74 miles of border barrier projects, including areas where the existing barrier no longer meets the U.S. Border Patrol's operational needs:

- In Cochise County, CBP will replace approximately 24 miles of existing primary pedestrian barrier with new steel bollard fencing, construct approximately seven (7) miles of new steel bollard fencing, and replace approximately one (1) mile of existing secondary barrier with new steel bollard fencing.
- In Pima County, CBP will replace approximately seven (7) miles of existing primary pedestrian barrier with new steel bollard fencing and construct approximately eight (8) miles of new steel bollard fencing.
- In Santa Cruz County, CBP will construct approximately 25 miles of new steel bollard fencing and replace approximately two (2) miles of existing primary pedestrian barrier and vehicle barrier with new steel bollard fencing.

The projects also include the installation of a linear ground detection system, road construction or refurbishment, and the installation of lighting, which will be supported by grid power and include embedded cameras. The design of the new steel bollard fencing includes 30-foot steel bollards that are approximately 6" x 6" in diameter.

### **How to Provide Comments**

Comments and information will be accepted until Friday, May 15, 2020. Comments should include data or information that could help inform CBP's analysis of potential impacts. Helpful comments are fact-based, include links to data or research, and provide specific information concerning potential impacts to biological, cultural, and natural resources. If known, your response should include any state and local restrictions, permitting or other requirements that CBP should consider.

Specifically, CBP is looking for answers to the following questions:

- Are you aware of threatened or endangered plant or animal species within the area of construction? If so, where?
- Are you aware of recreational activities that take place in the area of construction?
- Are you aware of possible impacts to businesses? Where are those businesses located?
- Are you aware of historical sites or areas of cultural significance located within the area of construction? If so, where?
- Do you foresee your day-to-day activities being impacted by the projects?
- Are you aware of any studies, data or other information available that would aid in the analysis of potential environmental impacts in the project areas?
- Do you have any recommendations for practices the construction contractor should follow to avoid or minimize impacts?

Comments can be emailed to CBP until May 15, 2020 at [TucsonComments@cbp.dhs.gov](mailto:TucsonComments@cbp.dhs.gov). Please include “Cochise, Pima, and Santa Cruz Counties Border Barrier Projects March 2020” in the subject of your email. Comments received in response to this letter, including names and addresses of those who comment, will become a part of the public record. If you are providing a comment about a specific area, please specify that location in your submission.

You may also submit comments, questions, or concerns to the following address:
