The transaction set can be used by U.S. Customs to report errors and discrepancies discovered in the U.S. Customs transactions sets to carriers, terminal operators, port authorities, and service centers.

This transaction set will echo errors from the original transaction with the exception of the K1 Segments. All semi-structured text found in the K1 segments is explained in Appendix J of the CAMIR document, and in the Appendix. All semi-structured text found in the K3 segment is explained in the Transmission Acceptance and Rejection section of the CAMIR and in the Appendix.

MAN OR ACCNT MISS CIT CODE

One of two circumstances has occurred. A driver's citizenship has not been reported in the manifest for a "one time" driver. In this case the manifest should be re-submitted with citizenship data. Or, the error has been generated because citizenship is not recorded in the driver's ACE account. This will occur even if citizenship is sent with the manifest but it does not exist in the driver's account. If the driver exists in ACE account the driver's account must be updated either via the ACE Portal or an EDI MEDPID message.
 In ANSI X12 309 set DMG 06/07: citizenship code and country code are missing.

In EDIFACT PAXLST MAT0250 3493 C042

535**MAN OR ACCNT MISS WHTI DOCS**

One of two circumstances has occurred. A valid Western Hemisphere Travel Initiate (WHTI) document has not been reported in the manifest for a "one time" driver. In this case the manifest should be re-submitted with a valid WHTI travel document. Or, the error has been generated because the driver's ACE account does not contain a valid WHTI document. This will occur even if a WHTI document is sent with the manifest but it does not exist in the driver's account. If the driver exists in ACE account data, the driver's account must be updated either via the ACE Portal or an EDI MEDPID message.

In ANSI X12 309 set REF01/02: document code and document cited are not WHTI certified.

In EDIFACT PAXLST DOC0280 C002 1001 document code and document cited are not WHTI certified. The driver's ACE account document codes and documents that are not WHTI certified (Active June 2009)
