

**Commercial Customs Operations  
Advisory Committee (COAC)  
Secure Trade Lanes Subcommittee  
Export Modernization Working Group  
Recommendations**

October 7, 2020

## **COAC Export Modernization Working Group (EMWG)**

1. COAC recommends that CBP work with Census and others to define a clerical error versus a material error for both EEI and manifest filing and issue appropriate guidance to CBP Personnel. When clerical errors are present, it is recommended CBP contact the filer for correction prior to issuing a penalty.
2. COAC recommends that CBP in cooperation with Census and others, develop and conduct mandatory training on export enforcement for CBP personnel consistent with recommendation 10098.
