

# 21st Century Customs Framework

A Joint Government-Industry Approach for the Future of Trade

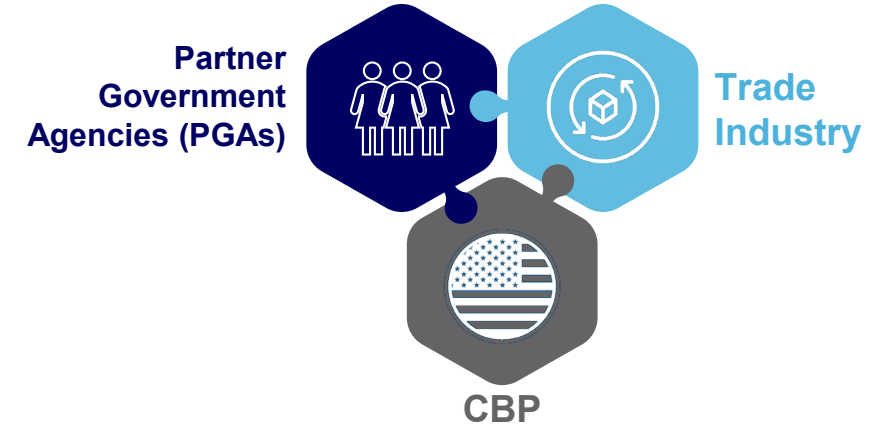

The 21st Century Customs Framework (21CCF) provides a structured modernization approach that will enable industry and government to address modern trade challenges, leverage emerging opportunities, and achieve transformational long term change.

Using the 21CCF Framework and stakeholder input as our foundation...

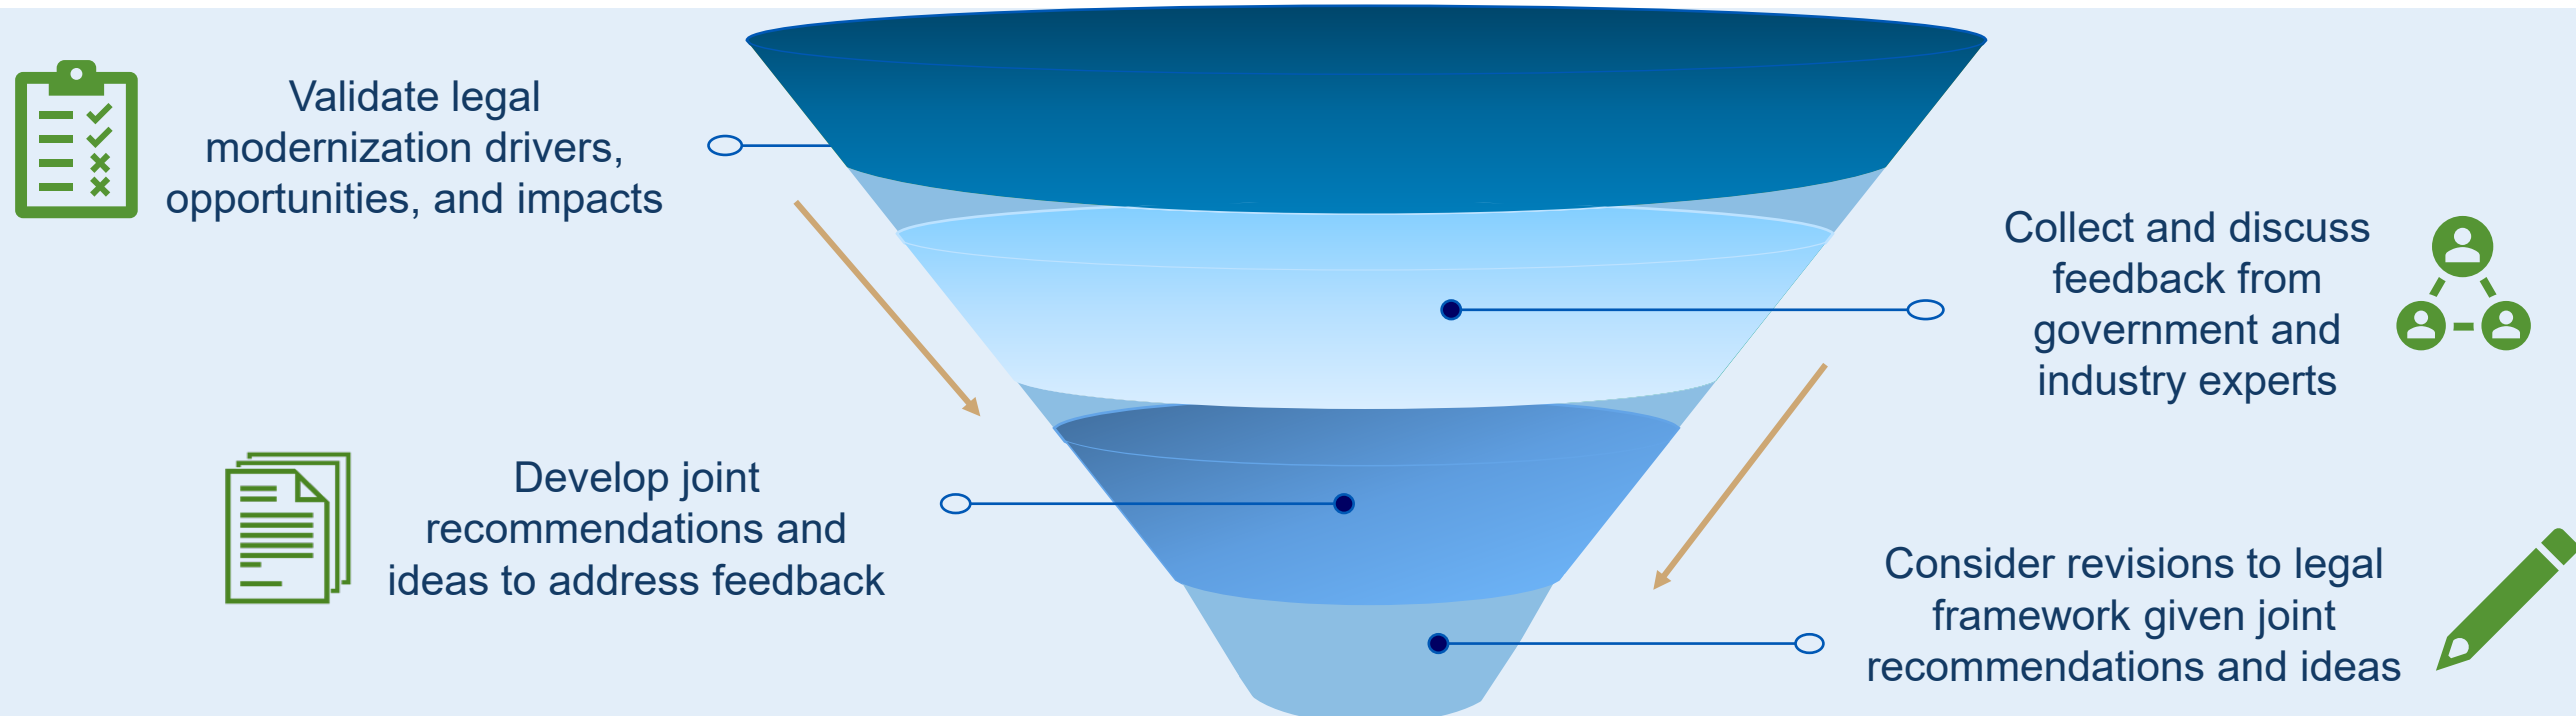

CBP identified initial opportunities to modernize its legal framework to address current and forward-looking challenges faced by government and industry...

And stood up a 21CCF Task Force under COAC to invite and discuss feedback.

Through the 21CCF Task Force, **government and industry** are working together to achieve shared success...

That will enable a new world of trade.

- Legitimate goods move swiftly and securely across the border
- Domestic industry competes on a level playing field
- Safer products are imported
- Ethical production methods throughout the supply chain
- The U.S. leads the world with innovative trade practices
