RFA REQUEST FOR CONTINGENCY PLANNING IN ST. LOUIS, MISSOURI

From DHS OPS:

U.S. Customs and Border Protection
4th of July Weekend 2020, Law Enforcement Support

**CBP Is Standing By And Ready To Support
 Federal, State, And Local Requests For Assistance**

BLUF: At this time for St. Louis, the FBI continues to plan on having adequate resources in the city and do not have plans on utilizing DHS contingency forces at this time. Therefore, DHS will only execute our contingency if something totally unexpected were to occur. At this point, there is a low probability that any DHS forces will be needed in St. Louis.

FBI and DOJ forces along with other State/local agencies have the situation well in hand. That said, DHS OPS is offering contingencies.

1. **Air surveillance:** CBP/AMO can offer up [redacted] (b)(7)(E) and [redacted] (b)(7)(E) with [redacted] (b)(7)(E) capability. It will take these aircraft approximately [redacted] hours to get on scene from initial request (about [redacted] hours for pre-flight preps and about [redacted] hours flight time to St. Louis).
2. **Ground Forces:** In addition to funding limitations noted last evening and authorities issues
 1. **FPS:**
 1. Inside St. Louis, FPS will have [redacted] District Commander, [redacted] Area Commanders and [redacted] officers (total [redacted]). Within a [redacted] hour radius of St. Louis, FPS could call in an additional [redacted] officers for a maximum of [redacted].
 2. FPS will also provide LNOs to the various command posts and EOC inside St. Louis for coordination.
 3. FPS was going to inquire with SAC on how to get local authorities/powers cross-designated to DHS LEOs if DHS LEOs were requested for support **off** of Federal property. If used for security around federal facilities, we are all set with our own organic authorities to include other DHS components who could be brought in to augment FPS. Currently though, no DHS component has LE powers off of federal property unless the locals convey such authority. If your SAC ever sought about using DHS LEOs in that role, we would seek assistance in coordinating with the locals to get the appropriate legal authorities cross-designated to DHS.
 4. Funding for DHS support on non-federal property is the other issue requiring a funding solution to avoid an Anti-Deficiency Act (ADA) violation. Funding is a non-issue if DHS is kept to securing federal property.
 2. **ICE:**
 1. ICE has a standby Rapid Deployment Team of [redacted] on a [redacted] (b)(7)(E) at Benning, GA. If additional DHS ground forces were requested, we would launch this team first. USCG would be the transport provider. Once this team arrived in St. Louis, the aircraft could gas up and relaunch to Detroit to pick up the ICE team and return to St. Louis.
 2. Both teams in GA and MI are proactively working to get USMS deputization completed today. If this ICE contingency were utilized and the team(s) were employed off federal property, they would both need local authorities transferred as well. And there's the funding piece noted above for off federal property support.
 3. **USCG**

**CBP Is Standing By And Ready To Support

1. USCG can transport the ICE team(s) as noted above.
