One of two circumstances has occurred. A driver's citizenship has not been reported in the manifest for a "one time" driver. In this case the manifest should be re-submitted with citizenship data. Or, the error has been generated because citizenship is not recorded in the driver's ACE account. This will occur even if citizenship is sent with the manifest but it does not exist in the driver's account. If the driver exists in ACE account the driver's account must be updated either via the ACE Portal or an EDI MEDPID message.
