COAC

**COMMERCIAL CUSTOMS OPERATIONS
ADVISORY COMMITTEE**

Commercial Customs Operations Advisory Committee (COAC)
Intelligent Enforcement Subcommittee
AD/CVD Working Group
Draft Recommendations

1. COAC recommends that CBP create a new “Event” category in the AD/CVD tool in the ACE Portal. This new event will alert trade users that the merchandise subject to the AD or CVD investigation or order may require the importer to submit a certification to CBP. This event would also be reported in the Case Events portion of an AD/CVD Case Information Query by an authorized ABI participant.
 - a. The event will contain an appropriate reference citation, such as a *Federal Register* notice, that describes the certification requirement.
 - b. These certification events should be populated at the appropriate country and/or company case number (7-digit or 10-digit case number):
 - i. for any certification already required, and
 - ii. when any new certification requirement is adopted, but
 - iii. is not intended to apply to the antidumping non-reimbursement certification set forth in 19 CFR § 351.402(f)(2).
 - c. The creation and use of this new event should be implemented within one year.
