Entry Summary Query Update
Last updated: September 12, 2023

On November 4, 2023, U.S. Customs and Border Protection (CBP) will deploy the Entry Summary Query Update enhancement to the Automated Commercial Environment (ACE).

The Entry Summary Query enables Automated Broker Interface (ABI) filers to query entry summaries that have been filed in ACE. It also enables surety companies to query entry summaries for which they have an associated active bond. This enhancement will incorporate data elements from ACE Collections into the Entry Summary query and will move the query from the legacy electronic data interchange (EDI) platform to the current ACE EDI platform. This enhancement includes EDI changes.

What will change for trade users?

On November 4, ACE ABI filers, including importers who self-file, and sureties will begin querying Entry Summary information in ACE and will see updated input and output records, as detailed in the draft ACE CATAIR Entry Summary Query.

What additional resources are available?
- **Deployment Support Calls**
  - The Trade Transformation Office (TTO) will conduct deployment support calls for the trade community on the following dates:
