## Agency Tariff Codes

As of July 29, 2015, DDTC (Directorate of Defense Trade Controls) and ATF (Bureau of Alcohol, Tobacco, Firearms and Explosives) will not be providing tariff flags.

NOTE: The definition of the HTS flags has been expanded. They still maintain the MUST and MAY designations. An HTS flag may also be created by an agency to restrict submission to allow only a specific set of disclaim codes for an HTS, as needed.

In all cases, the following rule logic must not be violated: The triplet of HTS code, Agency code, and Program code must always yield one HTS flag.

Unless otherwise noted in a PGAs Implementation Guide, or called out below, all disclaim codes are allowed for all PGAs.
