Border Protection

APPENDIX S – AES Acronyms and Definitions

AES Acronyms and Definitions

Table A: AES Acronyms

AES Acronym	Definition
AES	Automated Export System
AESTIR	Automated Export System Trade Interface Requirements
BOL	Bill of Lading
BIS	Bureau of Industry and Security, Department of Commerce
BTA	Border Targeting and Analysis, CBP, DHS
CBP	Customs and Border Protection, Department of Homeland Security
CFR	Code of Federal Regulations
CCL	Commerce Control List
DDTC	Directorate of Defense Trade Controls, Department of State
DEC	Data Entry Center
DHS	Department of Homeland Security
DUNS	Data Universal Numbering System (Duns & Bradstreet)
EAR	Export Administration Regulations
ECCN	Export Control Classification Number (BIS, Commerce)
EDI	Electronic Data Interchange
EEI	Electronic Export Information
EIC	Export Information Code
EIN	Employer Identification Number
FTD	Foreign Trade Division, Bureau of the Census, Department of Commerce
FTR	Foreign Trade Regulations
FTZ	Foreign Trade Zone
HAZMAT	Hazardous Material
HHMMSS	Hours (2 digits) Minutes (2 digits) Seconds (2 digits)
HTS	Harmonized Tariff Schedule
IATA	International Air Transport Association
IRS Number	Internal Revenue Service Number
ITN	Internal Transaction Number (AES System generated confirmation number)
LOI	Letter of Intent
MarAD	Maritime Administration, Department of Transportation
MOT	Method of Transportation
MMDDCCYY	Month (2 digits) Day (2 digits) Year (4 digits)
NLR	No License Required
NVOCC	Non-Vessel Operating Common Carrier
OFAC	Office of Foreign Assets Control, Department of Treasury
OGA	Other Government Agency
PGA	Partnership Government Agency
PIN	Product Identification Number
POE	Port of Export
SCAC	Standard Carrier Alpha Code
SRN	Shipment Reference Number
SSN	Social Security Number
TRG	Trade Resource Group

APPENDIX S – AES Acronyms and Definitions

AES Acronym	Definition
USML	United States Munitions List
USPPI	United States Principal Party in Interest (Exporter)
VAN	Value Added Network
VIN	Vehicle Identification Number

Table B: AES Definitions

AES Term	Definition
AES	The Automated Export System. AES is an export information gathering and processing system developed through cooperative efforts between Customs and Border Protection, Bureau of the Census, other government agencies and the export trade community.
AESTIR	Automated Export System Trade Interface Requirements. A document that describes the operational usage of AES. The AESTIR presents record formats and other reference materials used in AES.
<i>AESDirect</i>	A free Internet application supported by the Bureau of the Census that allows USPPIs or their agents to file commodity data in AES via the Internet. (aesdirect.census.gov)
<i>AESWebLink</i>	An application available from <i>AESDirect</i> that receives data from another Internet application and facilitates the transmission of that data to AES via <i>AESDirect</i> . (aesdirect.census.gov)
Batch (in a Commodity Filing)	A batch in an AES commodity data filing consists of USPPI and Commodity shipment information ‘enclosed’ in an envelope. The batch records specify the filer and transmitter of the shipment enclosed within that batch. Each batch begins with an A record and concludes with a Z record.
Block (in a Commodity Filing)	A block in an AES commodity filing consists of commodity shipment transactions ‘enclosed’ in a envelope. The block records specify the USPPI declared on the shipment enclosed within that block. Each block begins with a B record and concludes with a Y record.
Bill of Lading	A Bill of Lading is a negotiable instrument that allows the carrier to transport a cargo from a shipper to a consignee.
Bill of Lading Number	An alphanumeric code issued by a carrier that reference an individual cargo shipment on a manifest.
Business Data (in a Commodity Filing)	Those data elements that represent the export information required on an EEI by the Census Bureau. Additionally includes export information required by CBP and other licensing agencies.
Commodity Data	Information from the USPPI or the Authorized Agent that is commonly reported on the Electronic Export Information that describe the goods being exported, the parties of interest, etc.
Compliance Alert Condition	A potential reporting violation. A reporting condition found to violate Census regulation or another agency reporting requirement.
Consignee	The Person, party, or designee on the export license who is located abroad and actually receives the export shipment.
Consign	To send or deliver goods to be sold.
Data Element	User-entered or system generated data that collectively make up a record or report.
Data Entry Center	An AES participant that has a signed agreement with the Census Bureau to report commodity data in AES.

APPENDIX S – AES Acronyms and Definitions

AES Term	Definition
Downtime Policy	Standard guidelines for processing of automated export transactions during downtime of AES and/or the AES participant's computer system. (See PART IV of AESTIR)
DUNS Number	Data Universal Numbering System. DUNS is a registered trademark of the Dun & Bradstreet Corporation. It provides consistent/unique identification scheme for business databases.
Embassy Code	The 2-position ISO country code followed by the word 'EMBASSY' used to identify an embassy as the USPPI if appropriate.
Export Shipment	A commodity shipment (EEI) on file in AES. An Export Shipment consists of those attributes common to all reported commodity line items for a declared shipment.

AES Term	Definition
Export Shipment Commodity	That portion of a commodity shipment (EEI) on file in AES that represents the information regarding a single line 'item'.
End-user	The person abroad that receives and ultimately uses the exported or re-exported items. The end-user is not a Authorized Agent or intermediary, but may be the purchaser or ultimate consignee.
Examination	CBP inspection of a shipment and/or its documents.
Exemption Legend	A proper annotation on a bill of lading, air waybill, or other commercial document used for presentation to CBP. The USPPI or their Authorized Agent is responsible for annotating the proper exemption legend on the bill of lading, air waybill or other commercial documentation for presentation to the carrier prior to tendering the cargo to the exporting carrier. (See Appendix R of the AESTIR)
Exporter	The person in the United States who has the authority of a principal party in interest to determine and control the sending of items out of the United States. Under the FTSR, the exporter is the U.S. principal party in interest.
Fatal Condition	A condition is generated and returned to the filer when AES identifies an error in a data element during processing of a commodity or transportation filing. AES will not accept a transaction with a fatal condition.
Filing Options	AES provides 3 electronic filing options for reporting commodity data. Pre-departure is a one step filing option that requires complete pre-departure filing of commodity data. Post-departure is a one step filing option that requires complete post-departure filing of commodity data within 5 calendar days of export. Post-departure is available to an approved USPPI only. Advance Export Information (AEI) is a limited number of commodity data elements are required prior to departure; requires complete commodity data reporting within 5 calendar days after departure.
Final Disposition	An explicit statement by AES regarding the result of a requested commodity shipment transaction action. The final disposition is unconditionally returned as the trailing ES1 record in the response. The final disposition may include the 'status' of a pre-existing condition.
Foreign Entity	A non-U.S. national who is under U.S. jurisdiction at the time of shipment, shown as the exporter (USPPI) in AES. Since a foreign entity may not possess an EIN, SSN or DUNS identification, the foreign entity may be identified by their passport number, border crossing card number or other official document number in AES.

APPENDIX S – AES Acronyms and Definitions

AES Term	Definition
Foreign Trade Zone	Secured areas legally outside of a nation's customs territory.
Authorized Agent	An individual or legal entity physically located in or otherwise under the jurisdiction of the United States that has obtained power of attorney or written authorization from a USPPI or FPPI to act on its behalf, and for purposes of this part, to complete and file the EEI.
Harmonized Tariff Schedule	The 10-digit classification system used by the United States to classify goods for import. The HTS is an international classification system up to the 6-digit level. The seventh and eighth digits represent duty rates and the ninth and tenth digits are for statistical breakouts on a national basis. AES accepts HTS commodity numbers with some exceptions. (See Appendix V of the AESTIR for a list of the exceptions). The decision to report in AES using HTS or Schedule B classifications is left solely to the filer.
House Bill Number	An alphanumeric identifier that references an individual cargo shipment consolidated under a master bill of lading.

AES Term	Definition
IATA Code	The International Air Transport Association code used to identify the exporting air carrier.
Information Condition	A non-critical notification (i.e., message) returned to the filer.
Intermediate Consignee	The person that acts as an agent for a principal party in interest for the purpose of effecting delivery of items to the ultimate consignee. The intermediate consignee may be a bank, Authorized Agent, or other person who acts as an agent for a principal party in interest.
ISO Code	A 2-position alphabetic International Organization for Standardization Code for countries. (See Appendix C of the AESTIR).
Letter of Intent (LOI)	A written statement of a company's desire to participate in AES. It sets forth a commitment to develop, maintain, and adhere to CBP and Census performance requirements and operational standards.
License	A legal permit to export specific commodities.
Manifest	True listing of the cargo on a conveyance. Form and detail are specified by regulation.
Master Bill Number	Bill of lading number created by the consolidator or carrier (or share-charter) which is passed to the ultimate carrier to protect the consolidator (or share charter) from the need to give information on their individual clients to other carriers.
Message Control Data Elements (in a Commodity Filing)	A data element that identifies a transaction component and conditionally indicates, or clarifies, the action that is to be performed. In the SC1 record: Shipment Reference Number, Shipment Filing Action Request Indicator, and the Filing Option Indicator. In the CL1 record: Line Number and Line Item Filing Action Request Indicator. In the N01 record: Party Type
Order Party	The person in the United States who conducts the direct negotiations or correspondence with the foreign purchaser or ultimate consignee and who, as a result of these negotiations, receives the order from the foreign purchaser or ultimate consignee.

APPENDIX S – AES Acronyms and Definitions

AES Term	Definition
Principal Parties in Interest	Those persons in a transaction that receive the primary benefit, monetary or otherwise, of the transaction. Generally, the principals in a transaction are the seller and the buyer. In most cases, the Authorized Agent or other agent is not the principal party in interest.
Proof of Export Citation	Items identified on the USML must meet the pre-departure reporting requirements identified in the ITAR (22 CFR, Part 120-130) for the State Department requirements concerning AES proof of filing citations and time and place of filing.
Purchaser	The person abroad who has entered into a transaction to purchase an item for delivery to the ultimate consignee. In most cases, the purchaser is not a bank, authorized agent, or intermediary. The purchaser and ultimate consignee may be the same entity.
Reminder Message	An electronic message sent to an AES filer as a reminder to timely correct commodity data that was accepted by AES with ‘warnings’.
Routed Export Transaction	A transaction where the foreign principal party in interest authorizes a U.S. Authorized Agent to facilitate export of items from the United States.
SCAC	Standard Carrier Alpha Code is an identifier issued by the National Motor Freight Traffic Association. SCAC identifiers are issued to vessel, rail, and truck carriers.
Schedule B	The 10-digit classification system used by the United States to classify domestic or foreign goods for export. Schedule B is an international classification system up to the 6-digit level. The seventh through tenth digits represent statistical breakouts at the national level. AES accepts Schedule B commodity numbers without exceptions. The decision to use Schedule B or
AES Term	Definition
	HTS classifications is left solely to the AES filer. (See Appendix Z of the AESTIR for Internet access to Schedule B or HTS)
Schedule K	Five-digit foreign port codes maintained by the U.S. Army Corps of Engineers (http://www.iwr.usace.army.mil/ndc/usforeign/)
Electronic Export Information (EEI)	Electronic Export Information is the U.S. Department of Commerce data required by law that enables Census to compile export statistics and enables other agencies to enforce U.S. export laws and regulations. It is a declaration made by an USPPI or the USPPI’s filing agent covering merchandise moving from ONE USPPI to ONE ultimate consignee, carried on ONE conveyance, leaving ONE domestic port on ONE day, ultimately destined for ONE foreign country to be unloaded at ONE foreign port. Includes a description of the quantities, monetary values, and licenses of the commodities being exported.
Service Bureau	An independent business concern that files electronic data on behalf of a USPPI for a fee.
Shipment Reference Number	Unique identification number AES filers create in their system to identify individual shipments reported in AES. This number must remain unique.
Transportation Reference Number	A number referencing a transportation bill or booking.
Ultimate Consignee	The principal party in interest located abroad who receives the exported or reexported items. The ultimate consignee is not an Authorized Agent or other intermediary, but may be the end-user.

APPENDIX S – AES Acronyms and Definitions

AES Term	Definition
USPPI	United States Principal Party in Interest is the term used to identify the person in the United States that receives the primary benefit, monetary or otherwise, of the export transaction. Generally, that person is the U.S. seller, manufacturer, order party, or foreign entity. The foreign entity must be listed as the USPPI on the AES record if it is in the United States when the items are purchased or obtained for export. In most cases, the Authorized Agent or other agent is not a principal party in interest. The USPPI replaces the term 'exporter' as stated in Federal Register/Vol. 65, No. 132/July 10, 2000.
VAN	A Value Added Network that can be used to connect trade participant's computer to CBP mainframe.
Verification Condition (in a Commodity Filing)	A condition in which a business data element conflicts with a pre-established Census parameter regarding a commodity or another component of the shipment or other established norm. The filer is informed of a verify condition. The reported data may or may not be correct. The filer is requested to verify the data and send a correction if needed.
Warning Condition (in a Commodity Filing)	A warning condition is noted when certain incomplete and/or conflicting data conditions are encountered. AES accepts the information as filed to facilitate an expedient movement of cargo. The filer is informed of the warning condition. The filer must correct shipments accepted with warnings within 4 days.
