U.S. Customs and Border Protection

Bell UH-1H

FACT SHEET

Bell UH-1H helicopters are rotary-wing, medium range, turbine-powered, single engine, utility helicopter manufactured by Bell Helicopters.

The medium-lift capability of the UH-1H allows CBP's Air and Marine Operations (AMO) to partner with federal, tribal, state and local agencies in a wide variety of environments and terrains to accomplish its assigned mission.

UH-1H Huey helicopters are used by AMO to perform tactical and utility missions to include insertion of agents into otherwise inaccessible terrain, external lift operations such as sling load, fast rope and rappel, search and rescue, air crew rifle operations, aerial patrols and an assortment of other missions.

Performance and Weights:

- **Maximum Speed**
