Automated processing and more booths help reduce wait times despite traffic growth

- **Travel is up significantly at LAX (Bradley).** Traveler volume at Bradley Terminal (year to date) has increased 15% compared to last year. After 3 years of little growth, traffic has rebounded well in 2015.
- **More booths being staffed to meet demand.** Booth hours at LAX Bradley have increased 6% compared to a year ago, from 553 hours to 589 hours per day.
- **Significant decrease in wait times.** Year to date, LAX Bradley's average wait decreased by 7 minutes (28%) to 18.1 minutes. This is the first significant improvement in the last 3 years, and the timing coincides with the introduction of APC.
- **Faster processing.** LAX (Bradley) has one of the highest average cycle times of any major terminal. However, average cycle time (90.3 seconds) has decreased significantly from 101.5 seconds a year ago. LAX will achieve further efficiencies now that APC services more than 1 in 3 Bradley travelers.

Traveler Volume ... trending upwards

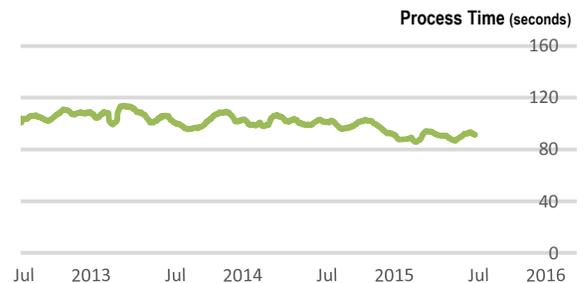

Staffing ... 6% more booths staffed than last year

Wait Time ... recent downturn in wait time

Cycle Time ... significant improvement in 2015

Best Practice Inventory

LAX Bradley Best Practice Assessment: LAX Bradley has implemented many of the available best practices. An increase in utilization of practices such as Global Entry and APC have increased LAX Bradley's efficiency by 35%. APC is available at LAX Bradley not only to US Citizens, but also Canadians, Visa Waiver country travelers, and Lawful Permanent Residents.

Legend

	Fully Implemented		Partially Implemented / Not Available		Not Implemented
--	-------------------	--	---------------------------------------	--	-----------------

Many innovative practices, technologies, and programs are available to make international air passenger processing more efficient and reduce congestion at airports. If all practices are implemented, an airport may reduce wait times as much as 50 percent compared to not implementing any best practices. A green "assessment circle" indicates the practice is properly and fully implemented; Red means the practice is not in place; and Orange indicates implementation is limited and achieves less than intended results.

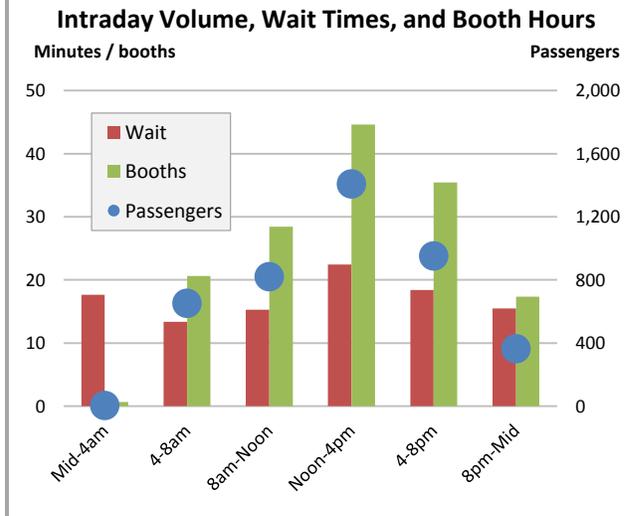

18% of passengers wait more than 30 minutes

Year to date, approximately 3% of Bradley passengers wait more than 1 hour. Between the hours of Noon to 4pm, 27% of passengers wait more than 30 minutes.

LAX Bradley staffs well during peak hours

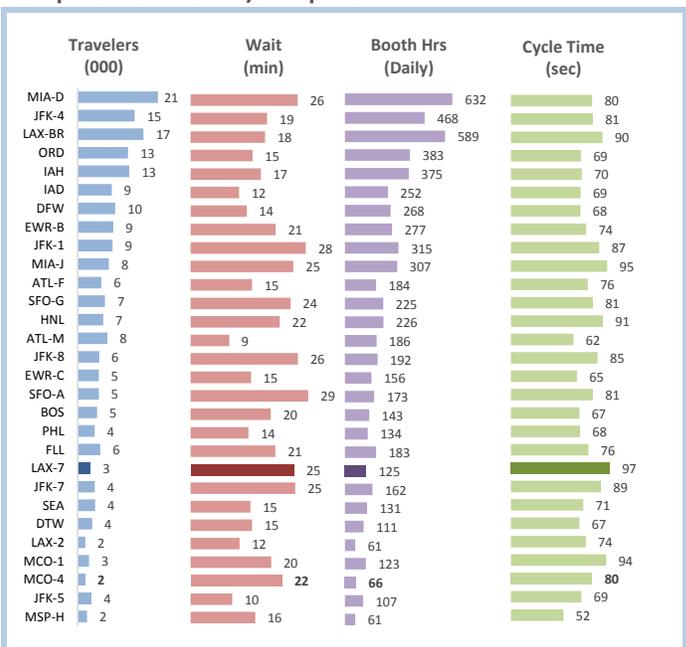

On average, over 1,400 passengers arrive every hour between Noon and 4pm. By staffing 45 booths during this time period, average waits (22 minutes) are only slightly higher than the average (18.1 minutes).

Compared to other major airports ...

All key metrics are down at LAX-7

- Travel is down significantly at LAX Terminal 7.** Traveler volume (year to date) has decreased 23% compared to last year. Only 2% of passengers are pre-processed with Global Entry today; the same as last year. The 15% volume increase at Bradley and the decrease at terminal 7 may be the result of LAX flight management decisions.
- Fewer booths compared to last year.** Booth hours have decreased to match the traveler volume demand. Average daily booth hours have decreased 18%, from 152 hours last year to 125 hours this year.
- Slower processing.** Average cycle time increased by 8.8 seconds, while max hourly throughput decreased by 3.7 passengers per booth, a 9% decrease. Lax-7 is one of the few terminals in the nation that has not improved efficiency since last year.
- Wait times increased by 11%.** Decreased booth hours and longer process times have led to an increase in wait time. The average wait time increased by 11%, from 22.7 minutes last year to 25.2 minutes this year.

Traveler Volume ... recent decline

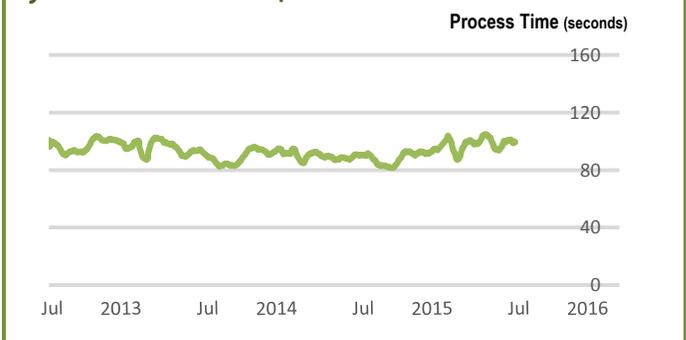

Booth hours ... recent decline

Wait Time ... trending upward

Cycle Time ... recent upward trend

Best Practice Inventory

LAX Best Practice Assessment: LAX-7 has not implemented many of the available best practices. Automated processing such as Global Entry is implemented, however only 2% of travelers are utilizing it. To fulfill its potential, LAX Terminal 7 needs to utilize more best practices.

Compared to other major airports ...

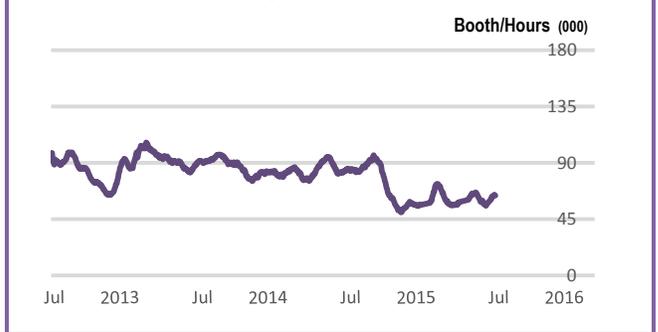

Wait times drop due to decreased traveler volume

- Travel is down at LAX Terminal 2.** Traveler volume (year to date) has decreased 29% compared to last year. Today, only 6% of LAX-2's passengers are pre-processed with Global Entry, the same as last year.
- Fewer booths hours to match demand.** Booth hours have decreased to match traveler volume demand. Average daily booth hours have decreased 28% from 85 hours last year to 61 hours this year.
- Staff efficiency virtually unchanged.** Average cycle time increased 0.9 seconds this year, reducing max hourly throughput by 0.6 passengers per hour.
- Wait times decreased by 9%.** A decrease in traveler volume has led to a decrease in wait time. The average wait time decreased by 9%, from 13.1 minutes last year to 11.9 minutes this year.

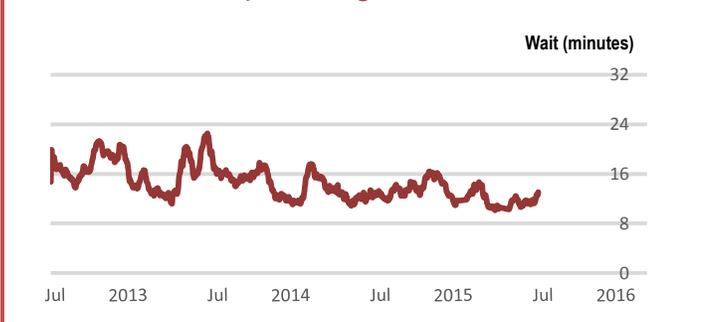

Traveler Volume ... sharp decrease recently

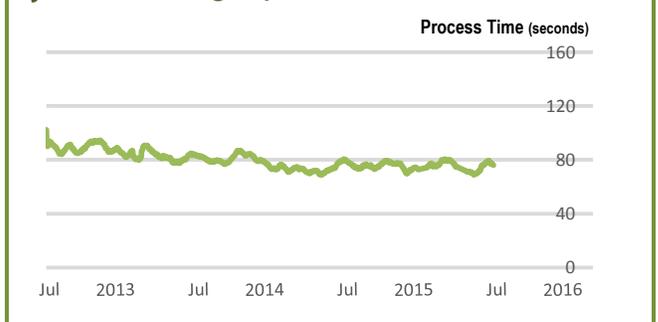

Booth Hours ... sharp decrease recently

Wait Time ... steadily decreasing

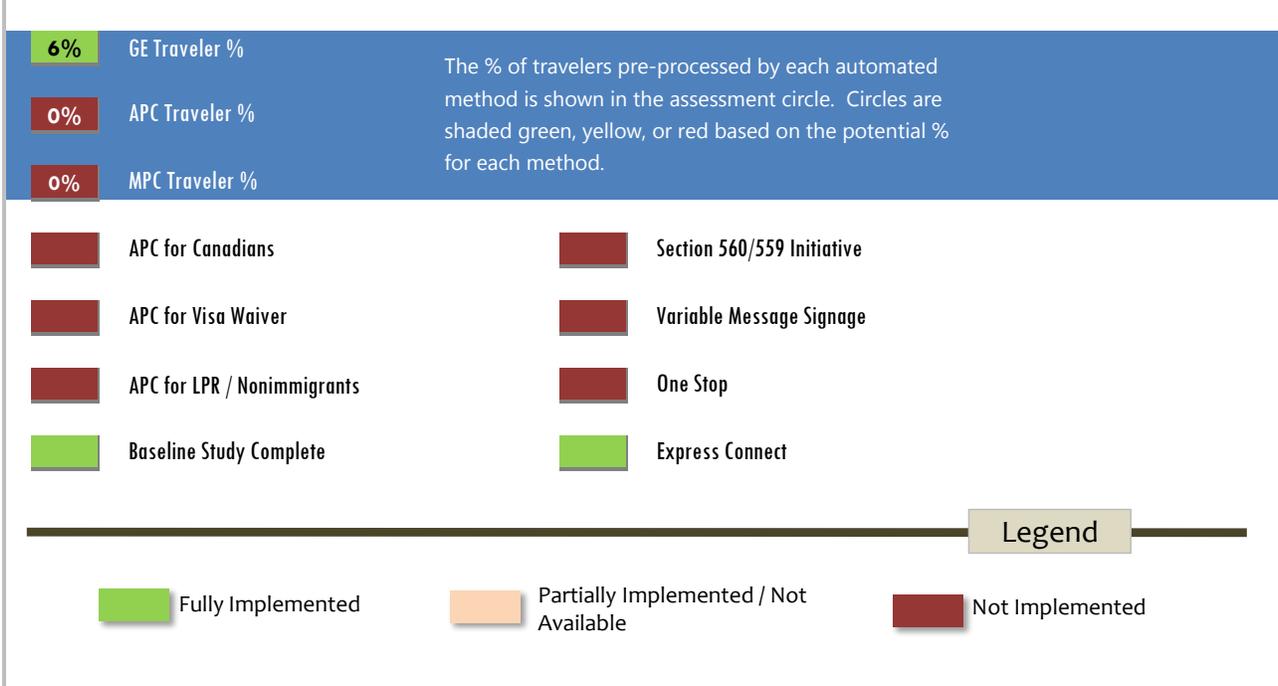

Cycle Time ... slight upward trend since 2014

Best Practice Inventory

LAX Best Practice Assessment: LAX has not introduced many of the available best practices. Global Entry has been implemented and 6% of travelers are utilizing it. Other practices such as APC and MPC have not yet been implemented at LAX Terminal 2. To improve cycle times and air passenger processing efficiency LAX Terminal 2 must begin to utilize more of the best available practices.

Many innovative practices, technologies, and programs are available to make international air passenger processing more efficient and reduce congestion at airports. If all practices are implemented, an airport may reduce wait times as much as 50 percent compared to not implementing any best practices. A green "assessment circle" indicates the practice is properly and fully implemented; Red means the practice is not in place; and Orange indicates implementation is limited and achieves less than intended results.

11% of passengers wait more than 30 minutes

While very few LAX Terminal 2 passengers wait more than 1 hour (about 1%), approximately 11% wait more than 30 minutes. Between the hours of 8am to Noon, 18% of passengers wait more than 30 minutes.

LAX-2 could use more booth hours in AM

LAX-2 is busiest between 8am-Noon and 4pm-8pm, when nearly 200 passengers arrive per hour. An average of 6 booths per hour are staffed during 4pm-8pm, wait times are 7 minutes; An average of 5 booths per hour are staffed during 8am-Noon, wait times are 17 minutes. LAX-2 should staff one extra booth per hour from 8am to Noon.
