# PGA Onboarding Process

- MOUs between CBP and PGAs address data to be shared
- Technical work depends on type of data exchange
- “To-be” vision determines business rules for development
- Legal / Policy changes with long lead times must be considered
- Outreach to trade partners is crucial!
- Pilots help all parties verify business process flow

# PGAs' Onboarding Plans

## Each PGA's *Onboarding Plan* document establishes:

- The PGA's decisions regarding its intended use of ACE enablers:
  - Use of **PGA Message Set, Document Imaging System (DIS), or a combination for data and document inputs**
  - Use of Interoperability Web Service (IWS) or ACE portal for **data access**
  - Selection of **ACE behavior related to events**
- Any need for a PGA to revise existing, or enact new *policies or regulations*
- The PGA's plans to **coordinate and communicate with trade customers and vendors**, including providing training
- Communication channels and Points of Contact (POCs) for the PGA to communicate with CBP's technical and business teams
- PGA's plans to engage in **pilot** – or a small scale operation of the PGA's ITDS solution – to test and fully understand systematic / operational impacts
