Change Planned?	Where/When Planned?
Assign to System: ACE	Assign to Release/Delivery: M2.1

Requirements Description

Business Area:	ACE Carriers
Request Type:	Business Need
Impacts Trade?	Yes
Description of Change:	<p>Split Shipments</p> <ul style="list-style-type: none"> It is the carriers understanding that there will no longer be a part arrival indicator. The unique flight number and the boarded quantity in the ARR line will distinguish various parts on a split shipment. Given the ability to distinguish parts of a split shipment by the unique flight number, and the specific origin/destination of the inbond leg, the MAWB or the MAWB-HAWB combination should be allowable as the inbond control number on all parts of a split MAWB or split HAWB. In order to allow the broker to file a single entry which will decrement from the total shipment count, it is assumed that ABI will allow listing of multiple flight numbers if the shipment is split.
Benefit of Change:	
Impact Assessment:	Unknown at time of entry in tool.
