## Requirements Description

<b>Business Area:</b>	
<b>Request Type:</b>	Business Need
<b>Impacts Trade?</b>	Yes
<b>Description of Change:</b>	<p>During the several years of the ERP I to III discussions (1997 to 2000) between the U.S. Customs Service and the various trade organizations, the basic structure of the current entry/entry summary process was validated. Based on these ERP results, early on the TSN Entry Committee wanted to ensure that ACE would provide, at a minimum, the same functionality that was present in ACS. This included preserving a two-step process (entry/release and entry summary), ensuring that all EDI reports and queries in ACS are also in ACE and the like.</p> <p>This Committee asked the Customs development team whether it was necessary to document all of these ACS capabilities. We were advised that we need to focus on changes and improvements to the process in developing requirements; that Customs would move all functionality from ACS to ACE without requirements.</p> <p>The purpose this requirement document is to memorialize the importance of transferring ACS capabilities to ACE.</p>
<b>Benefit of Change:</b>	
<b>Impact Assessment:</b>
