Change to CSPO System?	
Change Planned?	Where/When Planned?
Assign to System:	Assign to Release/Delivery:

Requirements Description

Business Area:	ACE Reports
Request Type:	Business Need
Impacts Trade?	Yes
Description of Change:	<p>Importers and brokers are requesting the ability to run ACE reports that would allow the user to pull data elements currently available in the manifest universe and combine them with data elements from the cargo entry universe. Any data element currently reported to CBP to secure the release of the cargo should be included in the cargo entry universe. The bill of lading number, house of sub-house bill of lading number and/or the entry number would provide the link between the two universes.</p> <p>While reports/extracts are not specifically addressed in the ITDS CONOPS, the Committee feels they are a natural outgrowth of the release process. The CONOPS does speak to enhanced messages to and from the trade and reports is one way to make information available to all parties that need to know.</p>

Benefit of Change:	Allows users to search by BOL in order to find entry information for a shipment. Provides link to related release and manifest information.
Impact Assessment:
