Change to CSPO System?	
Change Planned?	Where/When Planned?
Assign to System: ACE/AES	Assign to Release/Delivery: M3

Requirements Description

Business Area:	Export Processing
Request Type:	Business Need
Impacts Trade?	Yes
Description of Change:	<p>This is a trade request for the following capability to be provided via the ACE Portal for BIS information.</p> <ol style="list-style-type: none"> 1. The ACE portal should provide the exporter (USPPI) or its authorized filer access to information on export licenses and related export control information on a shipment that falls under the authority of the Bureau of Industry & Security, Department of Commerce pertaining to the export of dual use merchandise as stated in the BIS Export Administration Regulations. 2. ACE should provide a mechanism whereby the USPPI or its authorized filer could communicate with BIS for information regarding a transaction or shipment concerning export control or licensing requirements. 3. ACE should provide a mechanism whereby BIS could communicate with a particular USPPI or its authorized filer for information regarding a transaction or shipment. 4. ACE should provide for all authorized parties (BIS, USPPIs, and their authorized filers) the ability to query license balance (value and/or quantity) and expiration date information. 5. ACE should provide for license decrementation functionality based on date, amount, quantity, and expiration date.

Benefit of Change:	<ul style="list-style-type: none"> • Since exporters might have licensed export transactions filed by more than one filer they currently must contact each filer to verify decrementation against the license. Having this data available in ACE will eliminate the need for the exporter to contact multiple filers for this information. • By making license balance and decrementation information available to the exporter in ACE will eliminate the need for the exporter to contact BIS to obtain this information. • It will also serve as a database for these agencies in track of license balance and expiration dates.
Impact Assessment:	Unknown at time of entry in tool.

System/Subsystem

System:	Automated Export System (AES)	Cargo Business Area:	Export: Cargo Control & Release (CCR)
