Change to CSPO System?	
Change Planned?	Where/When Planned?
Assign to System: ACE/AES	Assign to Release/Delivery: M3

Requirements Description

Business Area:	Export Processing
Request Type:	Business Need
Impacts Trade?	Yes
Description of Change:	<p>TRADE REQUEST:</p> <p>Trade requests that US Customs and Border Protection (CBP) accept the Electronic Export Information (EEI) that is filed through ACE as one of the methods for proof of export for a closure of TIB's. The ITN Number (ACE confirmation number issued to filer of EEI) will be transmitted on the TIB. The ITN number is a unique identifier on the transaction that indicates the exact export commodity data filed on behalf of a USPPI (US Principle Party of Interest). The commodity data and export record provide substantial and necessary proof of export and meet the requirements for proof of export under CFR Part 191.72.</p> <p>Proof of exportation requires proof of the date as fact of exportation and identity of the exporter. The date of export will be on this record as provided by the carrier and the fact of exportation will be established by the information showing destination, conveyance and specific description of the exported articles by Schedule B or HTS number, quantity and value.</p> <p>The information contained on the EEI should satisfy all of the requirements for proof of export. Information is filed by HTS or Schedule-B number (commodity details) and the transportation details</p>

	are confirmed by all carriers filing their cargo manifest in advance of cargo loading for ocean carrier, prior to flight for air carriers and prior to crossing for all truck and rail carriers.. The cargo manifest details will be matched in ACE exactly to the commodity details by way of the ITN number.
Benefit of Change:	This requirement is important to the trade's need for a streamlined process, as opposed to the current process which is paper-laden, and time consuming. The trade feels that "all information" for "all shipments" for a TIB is contained in the Custom's ACE system (all modes are included). The information filed through the ACE system is accurate and timely and is used today by Customs for its examination process for exports.
Impact Assessment:	Unknown at time of entry in tool.
