Change to CSPO System?	
Change Planned?	Where/When Planned?
Assign to System:	Assign to Release/Delivery:

## Requirements Description

Business Area:	Surety Account Web Portal
Request Type:	Business Need
Impacts Trade?	Yes
Description of Change:	<p>The screens that are available to the surety include a "Bond Portlet".</p> <p><b>These screens are currently available for continuous bonds. Functionality for STB must be available.</b></p> <p>Query capabilities are important as any one surety can have thousands of bonds on file with CBP. The portlet should allow for querying by bond type (continuous vs single), bond activity code, ACS/ACE bond number, IRS/Importer number (with wild card at 9 digits), entry number (for STB), and entry type (for STB). In addition, the portlet should allow for querying by a date range and by terminated and active bonds.</p> <p><b>The surety bond search capability should mirror CBP search capability.</b></p> <p><b>The bond tab should search for all bonds for that surety and return all results.</b></p> <p><b>Additional capabilities may be required as cargo release and electronic bond are further developed.</b></p>
Benefit of Change:	Ease of use by trade rather than having to scroll through thousands of bonds, the surety will be able to pull up only the bond they are currently interested in reviewing.

<b>Impact Assessment:</b>	Unknown at time of entry in tool.
