## Requirements Description

Business Area:	ESAR
Request Type:	
Impacts Trade?	yes
Description of Change:	The trade requests that the rail manifest system be enhanced to allow one bank of entry numbers entered into the system and be used at all ports.
Benefit of Change:	The trade will be able to maintain one bank of entry numbers on a national level. Having this functionality reduces system maintenance and tracking requirements at a port level. Providing banks of entry numbers regardless of port increases system flexibility and provides the trade with a single point of monitoring. This in turn will reduce the risk of running out of entry numbers and impeding the movement of goods.
Impact Assessment:
