### Introduction

With the deployment of ACE e-Manifest: Rail and Sea (M1), rail and sea carriers will have the ability to create a list of authorized Type 2 In-Bond users in their ACE Secure Data Portal Accounts. **This functionality will allow the carrier to control who can obligate their Type 2 custodial bonds (CBP Form 301).** Although carriers are not required to utilize this functionality, carriers who choose to control access to their bonds have the ability to indicate the specific ports and lengths of time a carrier or broker is authorized to obligate their bond.

**NOTE:** The in-bond authorization file is only applicable for in-bonds submitted via EDI to the ACE rail and sea manifest functionality. Air AMS manifest will not utilize the in-bond authorization functionality at this time. Also, during the time period when ACE rail and sea manifests and AMS rail and sea manifests will be operating simultaneously, in-bonds created via AMS legacy rail and sea manifest will not utilize the ACE in-bond authorization functionality. QP filers submitting in-bonds into the legacy AMS application during this time frame will not utilize the ACE in-bond authorization functionality.

If a rail or sea carrier elects not to utilize the In-Bond Authorization functionality, ACE will **NOT** restrict the use of their bond by other parties, i.e. any party will be allowed to use the carriers bond. If a carrier wants to limit bond usage to their own company they will need to add themselves as an “*Authorized Partner*.” This action will exclude all other parties from utilizing the carrier’s bond. If the carrier wants to authorize other partners to use their bond, they must first remove their Standard Carrier Alpha Code (SCAC) from the list of “*Authorized Partners*” before adding other SCACs and filer codes.

Rail and sea carriers with an activity Type 2 bond will be able to identify carriers by SCAC and In-Bond filers by filer codes in their ACE Portal Account, for the purpose of limiting use of their bond to these entities. The bond is always open to

the bond owner. Once an entity is entered into the “In-Bond Authorization File”, no other carriers, brokers, or QP filers other than the ones identified, will be able to initiate an In-Bond request via manifest declarations, In-Bond submissions or subsequent In-Bond requests. ACE will not notify your business partner that their SCAC or filer code has been entered in your In-Bond authorization file.

*The Trade Account Owner will need to grant full access to the Accounts tab to any Proxy Trade Account Owner or Account User who needs to add authorized partners.*

## Creating a Carrier In-Bond Authorization

To create a list of authorized carriers to use your Type 2 bond, log into the ACE Secure Data Portal; select the **Accounts** tab and follow the steps below:

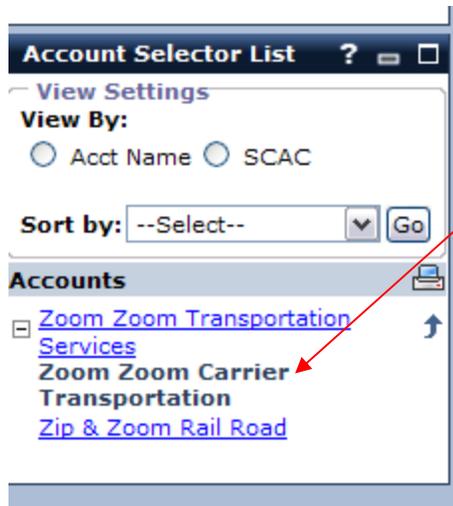

1. Select **Carrier** in the drop down menu next to “View” and select **Go**.

The screenshot shows a 'Task Selector' form. Under the 'Select Account Type' section, the 'View:' dropdown menu is open, displaying a list of account types: Carrier, Broker, Cartman, Claimant, Driver/Crew, FTZ Operator, Facility Operator, Filer, Importer, Lighterman, Surety, Service Provider, Shipper, and Consignee. The 'Carrier' option is highlighted. A 'GO' button is visible to the right of the dropdown.

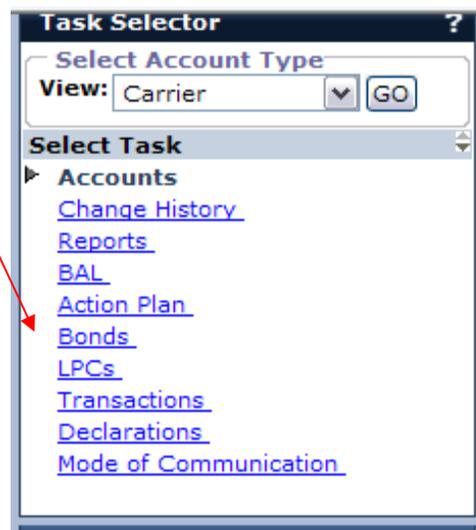

2. From the account list in the “Account Selector List” portlet, click the “+” beside the top account.

The screenshot displays the ACE Secure Data Portal interface. On the left, the 'Account Selector List' portlet shows a list of accounts with a '+' icon next to the top account, 'Zoom Zoom Transportation Services'. A red arrow points from this '+' icon to the 'View Top Account' portlet on the right. The 'View Top Account' portlet displays detailed information for the selected account, including account name, ACE ID, organizational structure, DUNS #, website, and end of fiscal year. Below this, there is a 'Contacts' table with one entry: 'Account Owner' with last name 'Dispatcher', first name 'Timely', phone '571-468-5129', and email 'g.g.gula@cbp.dhs.gov'. At the bottom of the 'View Top Account' portlet, there is a 'Carrier' section with a message: 'Please select valid Carrier Account to display.'

3. Select the carrier account that is associated to the bond.

4. Select the **Bonds** tab in the "Task Selector" portlet

# Topic: In-Bond Authorization

ACE Rail & Sea Carriers

5. Select the blue hyperlink under the **ACS Bond #**. The bond status must be active for the user to add an authorized partner. Authorized partners can only be added to Type 2 Custodial Bonds.

Showing 1 - 2 of 2

ACS Bond #	SCAC #	Carrier Name	Bond Status	Termination Date	Activity Code
<a href="#">991000301</a>	ZZCT	ZOOM ZOOM CARRIER TRANSPORTATION	Active		3

11. Once you have saved the relationship to your account, you will be returned to the “Bonds” portlet where you can view the partner you just added. All partners are added without date or port restrictions. The following section, “*Maintaining Carrier In-Bond Authorization*” will explain how to set port and date restrictions.

### Maintaining Carrier In-Bond Authorization

This section includes information on how to maintain your “*In-Bond Authorization*” file, limit port and date access and remove partners from your account.

### Limiting In-Bond Authorization Use to Newly Created Partners

In-Bond Authorization functionality allows the carrier to restrict partners’ use of their bond to specific ports and date ranges. There are four fields that the authorizing carrier is required to populate:

- Origin Port – The port from which the goods are being requested to depart
- Destination Port – The port to which the goods are being requested to be transported
- Effective Begin Date – The start date of the authorized bond usage
- Effective End Date – The end date of the authorized bond usage.  
**Note:** If no end date is entered there will be no date restrictions on the use of the bond.

The following steps provide instructions on granting limited bond authorization:

1. From the “*In-Bond Authorization*” tab, select the **Name** of the *authorized partner* whose access you wish to restrict and select **OK**.

[Surety Details](#) [Principal/User Details](#) [Bond Rider Details](#) [Bond Sufficiency Details](#) **In-Bond Authorization**

[Add Authorized Partner](#)

### Removing Ports from an Authorized Partner

1. To remove a port, select the **Name** of the authorized partner.

The screenshot shows a web interface with tabs: Surety Details, Principal/User Details, Bond Rider Details, Bond Sufficiency Details, and In-Bond Authorization. Under In-Bond Authorization, there is a link for Add Authorized Partner. Below is a table with 6 rows. A red arrow points to the 'Name' column of the fourth row, 'ACME CAB CO INC'.

Name	ID Type	ID#	Telephone	Port Restrictions
<a href="#">UPS SUPPLY CHAIN SOLUTIONS INC</a>	Filer Code	110		No
<a href="#">CJ TOWER</a>	Filer Code	112		No
<a href="#">AAA WAREHOUSE CORP</a>	SCAC Code	AAAX		Yes
<a href="#">ACME CAB CO INC</a>	SCAC Code	ACCC		Yes
<a href="#">AWB OCEAN SERVICE</a>	SCAC Code	QVCW		No
<a href="#">ZOOM ZOOM CARRIER TRANSPORTATION</a>	SCAC Code	ZZCT	703-453-2142	No

OK

2. Select the Radio button beside the Origin Port (s) you wish to remove, and select **View Selected**.

The screenshot shows the 'Bonds' window with 'In-Bond Authorization Details' for 'AWB OCEAN SERVICE'. It includes fields for Name, ID Type, ID#, and Telephone. Below is 'Port Authorization Details' with a table of 2 rows. A red arrow points to the radio button in the first row. The 'View Selected' button is highlighted with a red box.

Select	Origin Port(s)	Destination Port(s)	Effective Begin Date	Effective End Date
<input type="radio"/>	1303	ALL	07/31/2011	09/30/2011
<input type="radio"/>	5201	ALL	07/24/2011	

OK View Selected

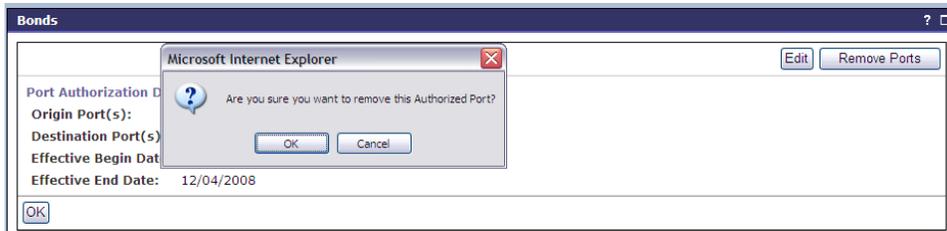

3. Select **Remove Ports**.

The screenshot shows the 'Bonds' window with 'Port Authorization Details' for origin port 0901. It includes fields for Origin Port(s), Destination Port(s), Effective Begin Date, and Effective End Date. The 'Remove Ports' button is highlighted with a red box.

OK Remove Ports

4. Select **OK**.

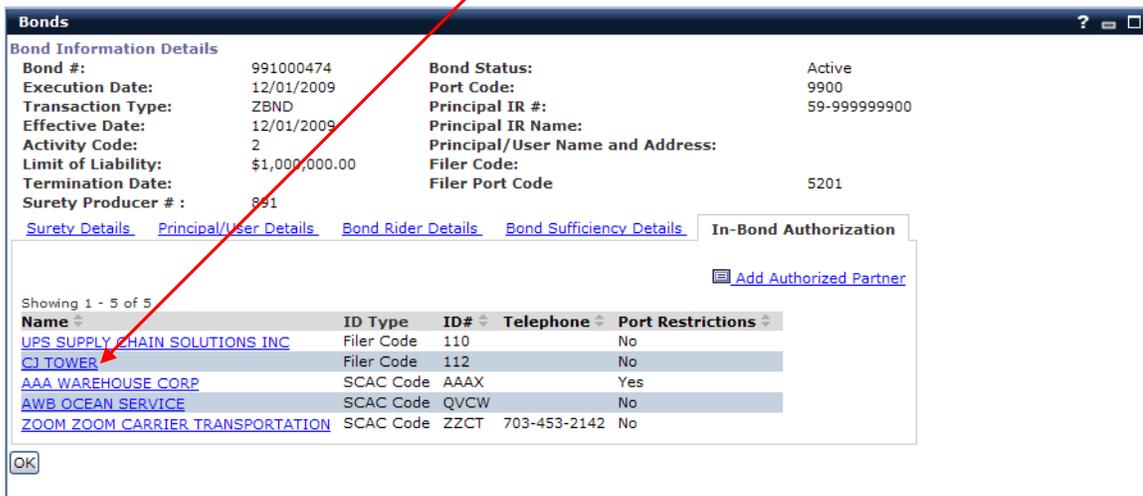

5. The port is removed from your list. Select **OK** to exit from this screen.

### Removing Authorized Partners from Your Account

Carriers may terminate an In-Bond Authorization relationship at anytime by simply removing the relationship.

1. Select the **Name** of the authorized partner you wish to remove.

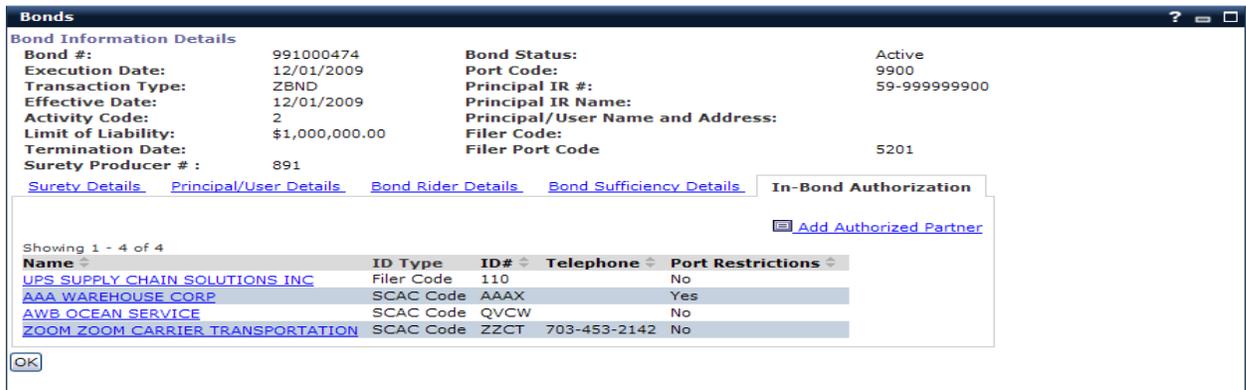

# Topic: In-Bond Authorization

ACE Rail & Sea Carriers

2. Select **Remove Partner**.
3. Select **OK** when the prompt box appears.

4. Select **OK** to exit from this portlet. The relationship has been removed.
